

IMPORTANT: If you are in any doubt about the contents of this Prospectus, you should consult your stockbroker, bank manager, solicitor, accountant or other financial adviser for independent financial advice.

Mirae Asset Horizons S&P Crude Oil Futures Enhanced ER ETF (the “Sub-Fund”) is a futures-based exchange traded fund.

Investment in the Sub-Fund is only suitable to those investors who are in a financial position to assume the risks involved in futures investments.

Futures investments are subject to certain key risks including leverage, counterparty and liquidity risks. Movement in the prices of futures may be highly volatile. The Sub-Fund may not be suitable for all investors. It is possible that the entire value of your investment could be lost.

Please refer to the “Risk Factors” section in this Prospectus as well as the “Risk factors specific to the Sub-Fund” section in the Appendix.

Hong Kong Exchanges and Clearing Limited (“HKEx”), The Stock Exchange of Hong Kong Limited (the “SEHK”), Hong Kong Securities Clearing Company Limited (“HKSCC”) and the Hong Kong Securities and Futures Commission (the “SFC”) take no responsibility for the contents of this Prospectus, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this Prospectus. The Trust and the Sub-Fund have each been authorised as collective investment schemes by the SFC. SFC authorisation is not a recommendation or endorsement of a scheme nor does it guarantee the commercial merits of a scheme or its performance. It does not mean the scheme is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors.

IMPORTANT INFORMATION

This Prospectus relates to the offer in Hong Kong of units (the “Units”) in the Mirae Asset Horizons Exchange Traded Funds Series II (the “Trust”), an umbrella unit trust established under Hong Kong law by a trust deed dated 25 May 2016 (the “Trust Deed”) between Mirae Asset Global Investments (Hong Kong) Limited 未來資產環球投資(香港)有限公司 (the “Manager”) and HSBC Institutional Trust Services (Asia) Limited (the “Trustee”). The Trust will have a number of sub-funds (the “Sub-Funds” or individually a “Sub-Fund”).

The information contained in this Prospectus has been prepared to assist potential investors in making an informed decision in relation to investing in the Sub-Fund(s). It contains important facts about the Sub-Fund(s) whose Units are offered in accordance with this Prospectus. A product key facts statement which contains the key features and risks of each of such Sub-Funds is also issued by the Manager and such product key facts statement shall form part of this Prospectus, and shall be read, in conjunction with, this Prospectus.

The Manager accepts full responsibility for the accuracy of the information contained in this Prospectus and confirms having made all reasonable enquiries, that to the best of its knowledge and belief there are no other facts the omission of which would make any statement misleading. The Manager also confirms that this Prospectus includes particulars given in compliance with The Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited and the Code on Unit Trusts and Mutual Funds (the “Code”) and the “Overarching Principles” section of the SFC Handbook for Unit Trusts and Mutual Funds, Investment-Linked Assurance Schemes and Unlisted Structured Investment Products for the purposes of giving information with regard to the Units. The Trustee is not responsible for the preparation of this Prospectus and shall not be held liable to any person for any information disclosed in this Prospectus, except for the information regarding the Trustee itself under the paragraph headed “The Trustee and Registrar” in the section on “Management of the Trust”.

Each Sub-Fund is a collective investment scheme falling within Chapters 8.6 and Appendix I of the Code. Certain Sub-Fund(s) may also be subject to additional Chapters of the Code. The Trust and the Sub-Fund(s) are authorised by the SFC in Hong Kong under Section 104 of the Securities and Futures Ordinance. The SFC takes no responsibility for the financial soundness of the Trust, the Sub-Fund(s) or for the correctness of any statements made or opinions expressed in this Prospectus. SFC authorisation is not a recommendation or endorsement of a scheme nor does it guarantee the commercial merits of a scheme or its performance. It does not mean the scheme is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors.

You should consult your financial adviser or your tax advisers and take legal advice as appropriate as to whether any governmental or other consents are required, or other formalities need to be observed, to enable you to acquire Units as to whether any taxation effects, foreign exchange restrictions or exchange control requirements are applicable and to determine whether any investment in a Sub-Fund is appropriate for you.

Application has been made to the Listing Committee of The Stock Exchange of Hong Kong Limited (the “SEHK”) for the listing of, and permission to deal in the Units. Subject to compliance with the admission requirements of Hong Kong Securities Clearing Company Limited (“HKSCC”), the Units will be accepted as eligible securities by HKSCC for deposit, clearing and settlement in the Central Clearing and Settlement System (“CCASS”) with effect from the date of commencement of dealings in the Units on the SEHK or such other date as may be determined by HKSCC. All activities under CCASS are subject to the General Rules of CCASS and CCASS Operational Procedures in effect from time to time.

No action has been taken to permit an offering of Units or the distribution of this Prospectus in any jurisdiction other than Hong Kong and, accordingly, this Prospectus does not constitute an offer or solicitation to anyone in any jurisdiction in which such offer is not authorised or to any person to whom it is unlawful to make such offer or solicitation. The Units have not been, and will not be, registered under the United States Securities Act of 1933, as amended (the “US Securities Act”) or any other United States Federal or State law and, except in a transaction which does not violate the US Securities Act, may not be directly or indirectly offered to or sold in the United States of America or any of its territories or for the benefit of a US Person (as defined in Regulation S of the US Securities Act). The Trust and the Sub-Funds have not been and will not be registered as an investment company under the United States Investment Company Act of 1940, as amended. Units may not be acquired or owned by (i) an employee benefit plan, as defined in Section 3(3) of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”), that is subject to Title I of ERISA, (ii) a plan, as defined in Section 4975(e)(1) of the US Internal Revenue Code of 1986, as amended (the “Internal Revenue Code”), that is subject to Section 4975 of the Internal Revenue Code, (iii) a plan that is subject to any other law, regulation, rule or restriction that is substantially similar to ERISA or Section 4975 of the Internal Revenue Code (“Similar Law”) or (iv) an entity whose assets are deemed to include the assets of such an employee benefit plan or plan for purposes of ERISA, Section 4975 of the Internal Revenue Code or Similar Law, unless the purchase, holding and disposition of units will not constitute a violation under ERISA, Section 4975 of the Internal Revenue Code and any applicable Similar Law.

Furthermore, distribution of this Prospectus shall not be permitted unless it is accompanied by a copy of the latest

annual financial statements of the Sub-Fund(s) (where existing) and, if later, its most recent interim report which form part of this Prospectus.

You should note that any amendment or addendum to this Prospectus will only be posted on the Manager's website (www.miraeasset.com.hk) the contents of which, and of any other websites referred to in this Prospectus, have not been reviewed by the SFC. This Prospectus may refer to information and materials included in websites. Such information and materials do not form part of this Prospectus and they have not been reviewed by the SFC or any regulatory body. Investors should note that the information provided in websites may be updated and changed periodically without any notice to any person.

Questions and Complaints

Investors may raise any questions on or make any complaints about the Trust (including the Sub-Fund(s)) by contacting the Manager at its address as set out in the Directory of this Prospectus or calling the Manager on +852 2295 1500 during normal office hours.

PART 1 – GENERAL INFORMATION RELATING TO THE TRUST AND SUB-FUND(S)

Part 1 of this Prospectus includes information relevant to the Trust and the Sub-Fund(s) established under the Trust and listed on the SEHK.

The information presented in this Part 1 should be read in conjunction with the information presented in the relevant Appendix in Part 2 of this Prospectus in respect of a particular Sub-Fund. Where the information in Part 2 of this Prospectus conflicts with the information presented in this Part 1, the information in the relevant Appendix in Part 2 prevails, however, it is applicable to the specific Sub-Fund of the relevant Appendix only. Please refer to Part 2 “Specific Information Relating to Each Sub-Fund” for further information.

DEFINITIONS

In this Prospectus (including the relevant Appendix for any Sub-Fund), unless the context requires otherwise, the following expressions have the meanings set out below. Other capitalised terms used, but not defined, have the meaning given to those terms in the Trust Deed.

“After Listing” means the period which commences on the Listing Date and continues until the Sub-Fund is terminated.

“Appendix” means an appendix to this Prospectus that sets out specific information applicable to a Sub-Fund.

“Application” means an application by a Participating Dealer for the creation or redemption of Units in accordance with the procedures for creation and redemption of Units set out in the Operating Guidelines, the relevant Participation Agreement and the terms of the Trust Deed.

“Application Unit” in relation to each Sub-Fund, means such number of Units or whole multiples thereof (if any) as specified in this Prospectus for the relevant Sub-Fund or such other number of Units from time to time determined by the Manager, approved by the Trustee and notified by the Manager to the Participating Dealers.

“Business Day” in respect of a Sub-Fund, means, unless the Manager and the Trustee otherwise agree, a day on which (a)(i) the SEHK is open for normal trading; and (ii) the relevant market on which Index Securities and/or Index Futures Contracts, as the case may be, are traded is open for normal trading; or (iii) if there are more than one such market, the market designated by the Manager is open for normal trading, and (b) the Index is compiled and published, or such other day or days as the Manager and the Trustee may agree from time to time provided that if on any such day, the period during which the relevant market is open for normal trading is reduced as a result of a Number 8 Typhoon Signal, Black Rainstorm warning or other similar event, such day shall not be a Business Day unless the Manager and the Trustee otherwise agree.

“Cancellation Compensation” means an amount payable by a Participating Dealer in respect of a Default, as set out in the Trust Deed and in the Operating Guidelines applicable at the time the relevant Creation Application or Redemption Application is made.

“CCASS” means the Central Clearing and Settlement System established and operated by HKSCC or any successor system operated by HKSCC or its successors.

“CCASS Settlement Day” means the term “Settlement Day” as defined in the General Rules of CCASS.

“CFTC” means Commodity Futures Trading Commission of the United States or its successors.

“Code” means the Code on Unit Trusts and Mutual Funds issued by the SFC (as amended or replaced from time to time).

“Connected Person” has the meaning as set out in the Code which at the date of this Prospectus means in relation to a company:

- (a) any person or company beneficially owning, directly or indirectly, 20% or more of the ordinary share capital of that company or able to exercise directly or indirectly, 20% or more of the total votes in that company; or
- (b) any person or company controlled by a person who or which meets one or both of the descriptions given in (a); or
- (c) any member of the group of which that company forms part; or
- (d) any director or officer of that company or of any of its connected persons as defined in (a),

(b) or (c).

“Creation Application” means an application by a Participating Dealer for the creation and issue of Units in an Application Unit size in accordance with the Operating Guidelines and the Trust Deed.

“Dealing Day” means each Business Day during the continuance of the relevant Sub-Fund, and/or such other day or days as the Manager may from time to time determine with the approval of the Trustee.

“Dealing Deadline” in relation to any Dealing Day, means the time on each Dealing Day specified in the “The Offering Phases” section of this Prospectus or such other time or day as the Manager may from time to time with the written approval of the Trustee determine.

“Default” means a failure by a Participating Dealer in respect of:

- (a) a Creation Application to deliver the requisite cash amount; or
- (b) a Redemption Application to deliver the Units the subject of the Redemption Application and/or any relevant cash amount.

“Deposited Property” means, in respect of each Sub-Fund, all the assets (including Income Property), received or receivable by the Trustee, for the time being held or deemed to be held upon the trusts and subject to the terms of the Trust Deed for the account of the relevant Sub-Fund but excluding (i) Income Property standing to the credit of the distribution account of such Sub-Fund (other than interest earned thereon) and (ii) any other amount for the time being standing to the credit of the distribution account of such Sub-Fund.

“Dual Counter” means the facility by which the Units of a Sub-Fund traded in RMB and traded in HKD are each assigned separate stock codes on the SEHK and are accepted for deposit, clearing and settlement in CCASS in more than one eligible currency (RMB or HKD) as described in the relevant Appendix of this Prospectus.

“Duties and Charges” means, in relation to any particular transaction or dealing, all stamp and other duties, taxes, government charges, brokerage fees, bank charges, transfer fees, registration fees, transaction levies and other duties and charges whether in connection with the constitution of the Deposited Property or the increase or decrease of the Deposited Property or the creation, issue, transfer, cancellation or redemption of Units or the acquisition or disposal of Securities and/or Futures Contracts (as the case may be) or otherwise which may have become or may be payable in respect of, and whether prior to, upon or after the occasion of, such transaction or dealing and including but not limited to, in relation to an issue of Units or redemption of Units, a charge (if any) of such amount or at such rate as is determined by the Manager or the Trustee to be made for the purpose of compensating or reimbursing the Trust for the difference between (a) the prices used when valuing the Securities and/or Futures Contracts (as the case may be) in the Trust Fund for the purpose of such issue or redemption of Units and (b) (in the case of an issue of Units) the prices which would be used when acquiring the same Securities and/or Futures Contracts (as the case may be) if they were acquired by the Trust with the amount of cash received by the Trust upon such issue of Units and (in the case of a redemption of Units) the prices which would be used when selling the same Securities and/or Futures Contracts (as the case may be) if they were sold by the Trust in order to realise the amount of cash required to be paid out of the Trust Fund upon such redemption of Units.

“Encumbrance” means any mortgage, charge, pledge, lien, third party right or interest, any other encumbrance or security interest of any kind or another type of preferential arrangement (including, without limitation, a title transfer or retention arrangement) having similar effect other than any such encumbrance or security interest imposed by the terms of the relevant clearing system/depositary or otherwise created by the terms of the Participation Agreement, the Trust Deed or any agreement between the Manager, the Trustee and the relevant Participating Dealer.

“Extension Fee” means the fee payable to the Trustee on each occasion the Manager, upon a Participating Dealer’s request, grants the Participating Dealer an extended settlement in respect of

a Creation Application or Redemption Application.

“Futures Contract” means any futures contract which is traded on any Futures Exchange.

“Futures Exchange” means the Hong Kong Futures Exchange Limited and such other futures exchange from time to time determined by the Manager.

“HKD” means Hong Kong dollars, the lawful currency for the time being and from time to time of Hong Kong.

“HKEx” means Hong Kong Exchanges and Clearing Limited or its successors.

“HKSCC” means the Hong Kong Securities Clearing Company Limited or its successors.

“IFRS” means International Financial Reporting Standards.

“Income Property” means, in respect of each Sub-Fund, (a) all interest, dividends and other sums deemed by the Manager (after consulting the auditors either on a general or case by case basis), to be in the nature of income (including taxation repayments, if any) received or receivable by the Trustee in respect of the Deposited Property of the relevant Sub-Fund (whether in cash or, without limitation, by warrant, cheque, money, credit or otherwise or the proceeds of sale or transfer of any Income Property received in a form other than cash); (b) all interest and other sums received or receivable by the Trustee in respect of (a), (c) or (d) of this definition; (c) all cash payments received or receivable by the Trustee for the account of the relevant Sub-Fund in respect of an Application; (d) all Cancellation Compensation received by the Trustee for the account of the relevant Sub-Fund; and (e) any payments to be received or are receivable by the Trustee under any contractual agreements in the nature of investments for the benefit of the relevant Sub-Fund but excluding (i) other Deposited Property; (ii) any amount for the time being standing to the credit of the distribution account for the account of the relevant Sub-Fund or previously distributed to Unitholders; (iii) gains for the account of the relevant Sub-Fund arising from the realisation of Securities and/or Futures Contracts (as the case may be); and (iv) any sums applied towards payment of the fees, costs and expenses payable by the Trust from the Income Property of the relevant Sub-Fund.

“Index” means, in respect of a Sub-Fund, the index against which the relevant Sub-Fund is benchmarked as set out in the relevant Appendix.

“Index Futures Contracts” means Futures Contracts at the relevant time comprising the Index, any Futures Contracts used to track the performance of the Index at the relevant time or such other Futures Contracts designated by the Manager.

“Index Provider” means, in respect of a Sub-Fund, the person responsible for compiling the Index against which the relevant Sub-Fund benchmarks its investments and who holds the right to licence the use of such Index to the relevant Sub-Fund as set out in the relevant Appendix.

“Index Securities” means Securities of those companies which are at the relevant time the constituent companies of the Index, any Securities used to track the performance of such Securities constituting the Index at the relevant time or such other Securities designated by the Manager.

“Initial Issue Date” means, in respect of each Sub-Fund, the date of the first issue of Units.

“Initial Offer Period” means, in respect of each Sub-Fund, the period before the relevant Listing Date as set out in the relevant Appendix.

“Insolvency Event” occurs in relation to a person where (i) an order has been made or an effective resolution passed for the liquidation or bankruptcy of the person; (ii) a receiver or similar officer has been appointed in respect of the person or of any of the person’s assets or the person becomes subject to an administration order; (iii) the person enters into an arrangement with one or more of its creditors or is deemed to be unable to pay its debts; (iv) the person

ceases or threatens to cease to carry on its business or substantially the whole of its business or makes or threatens to make any material alteration to the nature of its business; or (v) the Manager in good faith believes that any of the above is likely to occur.

“Issue Price” means the price at which Units may be issued, determined in accordance with the Trust Deed.

“Listing Date” means, in respect of a Sub-Fund, the date on which the Units are first listed and from which dealings therein are permitted to take place on SEHK, the expected date of which is set out in the relevant Appendix for the Sub-Fund.

“Manager” means Mirae Asset Global Investments (Hong Kong) Limited 未來資產環球投資(香港)有限公司 or such other person or persons for the time being duly appointed pursuant to the Trust Deed as manager or managers of the Trust in succession thereto being approved by the SFC under the Code.

“Market” means in any part of the world:

- (a) in relation to any Security: the SEHK or such other stock exchange from time to time determined by the Manager;
- (b) in relation to any Futures Contract: the Hong Kong Futures Exchange Limited or such other futures exchange from time to time determined by the Manager,

and any over-the-counter transaction conducted in any part of the world and in relation to any Security or Futures Contract shall be deemed to include any bilateral agreement with a responsible firm, corporation or association in any country in any part of the world dealing in the Security or Futures Contract which the Manager may from time to time elect.

“Market Maker” means a broker or dealer permitted by the SEHK to act as such by making a market for the Units in the secondary market on the SEHK.

“Net Asset Value” means the net asset value of a Sub-Fund or, as the context may require, the net asset value of a Unit calculated under the Trust Deed.

“NYMEX” means the New York Mercantile Exchange.

“Operating Guidelines” means, in respect of a Sub-Fund, the guidelines for the creation and redemption of Units as set out in the schedule to each Participation Agreement as amended from time to time by the Manager with the approval of the Trustee and following consultation, to the extent reasonably practicable, with the relevant Participating Dealers, including without limitation, the procedures for creation and redemption of Units subject always, in respect of the relevant Operating Guidelines for a Participating Dealer, any amendment being notified in writing by the Manager in advance to the Participating Dealer. Unless otherwise specified, references to the Operating Guidelines shall be to the Operating Guidelines for the Sub-Fund(s) applicable at the time of the relevant Application.

“Participant” means a person admitted for the time being by HKSCC as a participant of CCASS.

“Participating Dealer” means a broker or dealer who is (or who has appointed an agent or delegate who is) a Participant and who has entered into a Participation Agreement in form and substance acceptable to the Manager and Trustee, and any reference in this Prospectus to “Participating Dealer” shall include a reference to any agent or delegate so appointed by the Participating Dealer.

“Participation Agreement” means an agreement entered into between, among others, the Trustee, the Manager and a Participating Dealer, setting out, amongst other things, the arrangements in respect of the Applications. References to the Participation Agreement shall, where appropriate, mean the Participation Agreement, read together with the Operating Guidelines.

“PRC” means the People’s Republic of China, excluding for the purposes of interpretation of this Prospectus only, Hong Kong, Macau and Taiwan.

“Recognised Futures Exchange” means an international futures exchange which is recognised by the SFC or which is approved by the Manager.

“Recognised Stock Exchange” means an international stock exchange which is recognised by the SFC or which is approved by the Manager.

“Redemption Application” means an application by a Participating Dealer for the redemption of Units in Application Unit size in accordance with the Operating Guidelines and the Trust Deed.

“Redemption Value” means, in respect of a Unit, the price per Unit at which such Unit is redeemed, calculated in accordance with the Trust Deed.

“Registrar” means HSBC Institutional Trust Services (Asia) Limited or such person as may from time to time be appointed as registrar in respect of each Sub-Fund to keep the register of the Unitholders of the Sub-Fund.

“Registrar Agreement” means, in respect of a Sub-Fund where applicable, the agreement entered into between the Trustee, the Manager and the Registrar appointing the Registrar as registrar in respect of such Sub-Fund, as amended from time to time.

“RMB” or “Renminbi” means Renminbi Yuan, the lawful currency of the PRC.

“Securities” means any shares, stocks, debentures, loan stocks, bonds, securities, commercial paper, acceptances, trade bills, warrants, participation notes, certificates, structured products, treasury bills, instruments or notes of, or issued by or under the guarantee of, any body, whether incorporated or unincorporated, and whether listed or unlisted, or of any government or local government authority or supranational body, whether paying interest or dividends or not and whether fully-paid, partly paid or nil paid and includes (without prejudice to the generality of the foregoing):

- (a) any right, option or interest (howsoever described) in or in respect of any of the foregoing, including units in any Unit Trust (as defined in the Trust Deed);
- (b) any certificate of interest or participation in, or temporary or interim certificate for, receipt for or warrant to subscribe or purchase, any of the foregoing;
- (c) any instrument commonly known or recognised as a security;
- (d) any receipt or other certificate or document evidencing the deposit of a sum of money, or any rights or interests arising under any such receipt, certificate or document; and
- (e) any bill of exchange and any promissory note.

“SEHK” means The Stock Exchange of Hong Kong Limited or its successors.

“Service Agent” means HK Conversion Agency Services Limited or such other person as may from time to time be appointed to act as service agent in relation to the Sub-Fund(s).

“Service Agent’s Fee” means the fee which may be charged for the benefit of the Service Agent to each Participating Dealer on each book-entry deposit or book-entry withdrawal transaction made by the relevant Participating Dealer, the maximum level of which shall be determined by the Service Agent and set out in this Prospectus.

“Service Agreement” means each agreement by which the Service Agent provides its services in respect of a Sub-Fund entered amongst the Trustee and Registrar, the Manager, the Participating Dealer, the Service Agent and the Hong Kong Securities Clearing Company Limited.

“Settlement Day” means the Business Day which is 2 Business Days after the relevant Dealing Day (or such other Business Day as is permitted in relation to such Dealing Day (including the Dealing Day itself) pursuant to the Operating Guidelines) or such other number of Business Days after the relevant Dealing Day as determined by the Manager in consultation with the Trustee from time to time and notified to the relevant Participating Dealers or as otherwise described in the relevant Appendix.

“SFC” means the Securities and Futures Commission of Hong Kong or its successors.

“SFO” means the Securities and Futures Ordinance (Cap. 571) of Hong Kong.

“S&P GSCI Business Day” means any day on which the S&P GSCI Crude Oil Enhanced Index Excess Return (“Excess Return” does not mean any additional return on the ETF’s performance) is calculated, as determined by NYSE Euronext Holiday & Hours Schedule.

“Sub-Fund” means a segregated pool of assets and liabilities into which the Trust Fund is divided, established under the Trust Deed and the relevant supplemental deed as a separate trust as described in the relevant Appendix.

“Transaction Fee” means the fee, in respect of a Sub-Fund, which may be charged for the benefit of the Trustee, the Registrar, the Conversion Agent (if any) and/or the Service Agent (if any) to each Participating Dealer on each Dealing Day upon which an Application has been or Applications have been made by the relevant Participating Dealer.

“Trust” means the umbrella Unit Trust (as defined in the Trust Deed) constituted by the Trust Deed and called “Mirae Asset Horizons Exchange Traded Funds Series II” or such other name as the Manager may from time to time determine upon prior notice to the Trustee.

“Trust Deed” means the trust deed dated 25 May 2016 between the Manager and the Trustee constituting the Trust (as amended from time to time).

“Trust Fund” means with respect to each Sub-Fund, all the property for the time being held or deemed to be held by the Trustee upon the trusts hereof, including the Deposited Property and Income Property attributable to that Sub-Fund and subject to the terms and provisions of the Trust Deed, except for amounts to be distributed, and where such term is used generically, “Trust Fund” means the Trust Fund attributable to all Sub-Funds taken together.

“Trustee” means HSBC Institutional Trust Services (Asia) Limited or such other person or persons for the time being duly appointed as trustee or trustees hereof in succession thereto in accordance with the Trust Deed.

“Unit” means a unit representing an undivided share in a Sub-Fund.

“Unitholder” means a person for the time being entered on the register of holders as the holder of Units including, where the context so admits, persons jointly registered.

“USD” means United States dollars, the lawful currency of the United States of America.

“Valuation Point” means, in respect of a Sub-Fund, the official close of trading on the Market on which the Securities or Futures Contracts constituting the Index are listed on each Dealing Day or if more than one, the official close of trading on the last relevant Market to close or such other time or times as determined by the Manager in consultation with the Trustee from time to time provided that there shall always be a Valuation Point on each Dealing Day other than where there is a suspension of the creation and redemption of Units.

INTRODUCTION

The Trust

The Trust is an umbrella unit trust created by the Trust Deed between the Manager and the Trustee made under Hong Kong law. The Trust and each Sub-Fund is authorised as a collective investment scheme by the SFC under Section 104 of the SFO and each Sub-Fund falls within Chapter 8.6 and Appendix I of the Code. Certain Sub-Fund(s) may also be subject to additional Chapters of the Code. SFC authorisation is not a recommendation or endorsement of a Sub-Fund nor does it guarantee the commercial merits of a Sub-Fund or its performance. It does not mean that a Sub-Fund is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors.

The Sub-Funds

The Trust may issue different classes of Units and the Trustee shall establish a separate pool of assets under the Trust Deed as separate trusts (each such separate pool of assets a "Sub-Fund") to which one or more class of Units shall be attributable. The assets of a Sub-Fund will be invested and administered separately from the other assets of the Trust. All Sub-Fund(s) will be exchange traded funds listed on the SEHK.

The Manager and the Trustee reserve the right to establish other Sub-Funds and/or issue further classes of Units relating to a Sub-Fund or Sub-Funds in the future in accordance with the provisions of the Trust Deed. Where indicated in the relevant Appendix, Units in a Sub-Fund may be available for trading on the SEHK using a Dual Counter. Each Sub-Fund will have its own Appendix.

THE OFFERING PHASES

Initial Offer Period

During the Initial Offer Period, Participating Dealers (acting for themselves or for their clients) may apply for Units (to be available for trading on the Listing Date) by means of cash Creation Applications on each Dealing Day for themselves and/or their clients by transferring cash in accordance with the Operating Guidelines.

To be dealt with during the Initial Offer Period, the relevant Participating Dealer must submit the Creation Applications to the Manager (with a copy to the Trustee and the Registrar) on a Business Day no later than 4 Business Days prior to the Listing Date unless otherwise stated in the relevant Appendix.

If a Creation Application is received by the Trustee after 4 Business Days prior to the Listing Date, that Creation Application shall be carried forward and deemed to be received at the opening of business on the first Dealing Day commencing the Listing Date, which shall be the Dealing Day for the purposes of that Creation Application.

Creation Applications must be made in Application Unit size or whole multiples thereof, which is the number of Units specified in the relevant Appendix. Participating Dealers (acting for themselves or for their clients) can apply for Units on each Dealing Day at the Issue Price.

Please refer to the section on “Creations and Redemptions (Primary Market)” for the operational procedures in respect of Creation Applications.

After Listing

The After Listing phase commences on the Listing Date and continues until the Sub-Fund(s) is/are terminated.

You can acquire or dispose the Units in either of the following two ways:

- (a) buy and sell Units on the SEHK; or
- (b) apply for cash creation and cash redemption of Units through Participating Dealers.

Buying and selling of Units on the SEHK

After Listing, all investors can buy and sell Units in Trading Board Lot Size (as described in the section “Key Information” in the relevant Appendix) or whole multiples thereof like ordinary listed stocks through an intermediary such as a stockbroker or through any of the share dealing services offered by banks or other financial advisers at any time the SEHK is open.

However, please note that transactions in the secondary market on the SEHK will occur at market prices which may vary throughout the day and may differ from the Net Asset Value per Unit due to market demand and supply, liquidity and scale of trading spread for the Units in the secondary market. As a result, the market price of the Units in the secondary market may be higher or lower than the Net Asset Value per Unit.

Please refer to the section on “Exchange Listing and Trading (Secondary Market)” for further information in respect of buying and selling of Units on the SEHK.

Creations and redemptions through Participating Dealers

Units will continue to be created by cash creation and redeemed by cash redemption at the Issue Price and Redemption Value respectively through Participating Dealers in Application Unit size or multiples thereof. The Application Unit size is as set out in the relevant Appendix. Settlement

for creation and redemption for all Units is in HKD or RMB only as set out in the relevant Appendix.

To be dealt with on a Dealing Day, the relevant Participating Dealer must submit the Creation Applications or Redemption Applications to the Manager (with a copy to the Trustee and the Registrar) before the Dealing Deadline on the relevant Dealing Day. If a Creation Application or Redemption Application is received on a day which is not a Dealing Day or is received after the relevant Dealing Deadline on a Dealing Day, that Creation Application or Redemption Application shall be treated as having been received at the opening of business on the next following Dealing Day, which shall be the relevant Dealing Day for the purposes of that Creation Application or Redemption Application. Participating Dealers are under no obligation to create or redeem generally or for their clients and may charge their clients such fee or fees as such Participating Dealers determine.

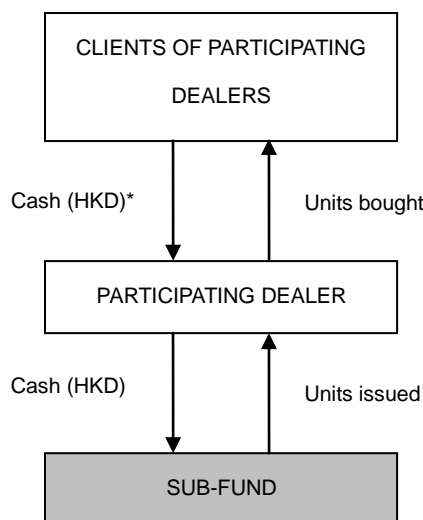

Settlement in cash for subscribing Units is due by such time as agreed in the Operating Guidelines on the relevant Dealing Day or for redeeming Units is due 2 Business Days (unless as otherwise stated in the relevant Appendix) after the Dealing Day, unless the Manager agrees with the relevant Participating Dealer to accept later settlement generally or in any particular case. Notwithstanding any Dual Counter (if applicable) for Units, all settlement is in either RMB or HKD only as set out in the relevant Appendix.

After Listing, all Units will be registered in the name of HKSCC Nominees Limited on the register of the Trust. The register of the Trust is the evidence of ownership of Units. The beneficial interests in Units of any client of the Participating Dealers shall be established through such client's account with the relevant Participating Dealer or with any other CCASS participants if the client is buying from the secondary market.

Diagrammatic illustration of investment in a Sub-Fund

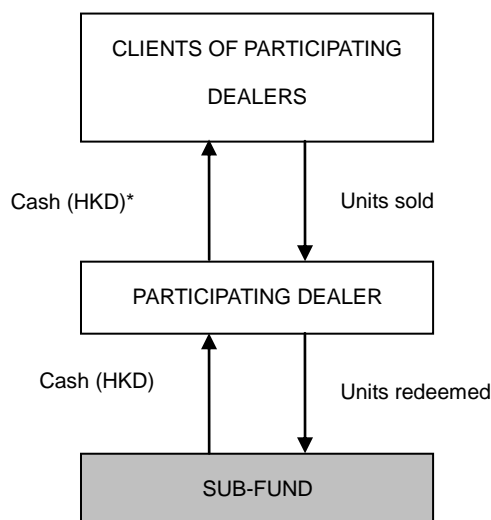

The diagrams below illustrate the creation or redemption and the buying or selling of Units:

(a) Creation and buying of Units in the primary market – Initial Offer Period and After Listing

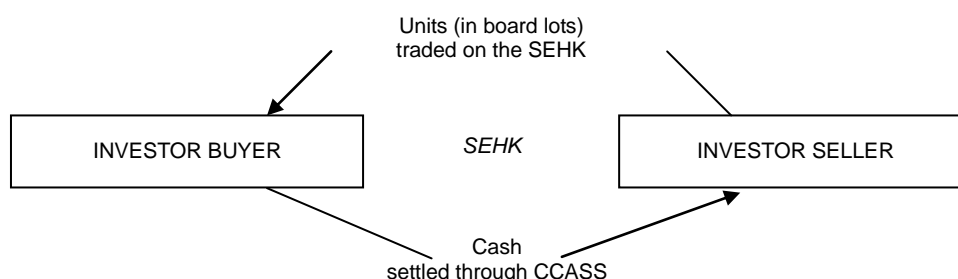

* Clients of the Participating Dealers may agree with the Participating Dealers settlement in another currency.

(b) Redemption and sale of Units in the primary market – After Listing

* Clients of the Participating Dealers may agree with the Participating Dealers settlement in another currency.

(c) Buying or selling of Units in the secondary market on the SEHK – After Listing

INVESTMENT OBJECTIVE, INVESTMENT STRATEGY, INVESTMENT RESTRICTIONS, SECURITY LENDING AND BORROWING

Investment objective

The investment objective of each Sub-Fund is to provide investment results that, before fees and expenses, closely correspond to the performance of the relevant Index unless otherwise stated in the relevant Appendix.

Investment strategy

Each Sub-Fund will adopt either a full replication or a representative sampling strategy. The investment strategy of each Sub-Fund is stated in the relevant Appendix. No Sub-Fund is a “synthetic” exchange traded fund.

Investment restrictions

If any of the restrictions or limitations set out below is breached in respect of a Sub-Fund, the Manager will make it a priority objective to take all necessary steps within a reasonable period to remedy such breach, taking into account the interests of the Unitholders of that Sub-Fund.

The Trustee will take reasonable care to ensure compliance with the investment and borrowing limitations set out in the constitutive documents and the conditions under which a Sub-Fund was authorised.

The investment restrictions applicable to each Sub-Fund (that are included in the Trust Deed) are summarised below:

- (a) not more than 10% of the Net Asset Value of a Sub-Fund may be invested in Securities (other than Government and other public securities) issued by any single issuer (save as permitted by Chapter 8.6(h) and as varied by paragraph 11 of Appendix I (Guidelines for regulating index tracking exchange traded funds) of the Code (see the Note below));
- (b) ordinary shares of a single class (other than Government and other public securities) held for the account of a Sub-Fund, when aggregated with other holdings of the same class of ordinary shares held for the account of all other sub-funds under the Trust collectively may not exceed 10% of the nominal amount of the ordinary shares issued by a single issuer;
- (c) not more than 15% of the Net Asset Value of a Sub-Fund may be invested in Securities which are neither listed, quoted nor dealt in on a stock exchange, over-the-counter market or other organised securities market which is open to the international public and on which such Securities are regularly traded;
- (d) except as permitted by Chapter 8.6(i) of the Code, not more than 30% of the Net Asset Value of a Sub-Fund may be invested in Government and other public securities of the same issue;
- (e) subject to paragraph (d) above or except as permitted by Chapter 8.6(i) of the Code, a Sub-Fund may be fully invested in Government and other public securities in at least 6 different issues;
- (f) a Sub-Fund may enter into financial Futures Contracts for hedging purposes;
- (g) not more than 20% of the Net Asset Value of a Sub-Fund may be invested in (i) Futures Contracts on an unhedged basis (by reference to the net total aggregate value of contract prices, whether payable to or by the relevant Sub-Fund under all outstanding Futures Contracts) and (ii) physical commodities (including gold, silver, platinum or other bullion) and other commodity-based investments (excluding, for this purpose, Securities of companies engaged in producing, processing or trading in commodities);

- (h) the value of warrants and options held for the account of a Sub-Fund, in terms of the total amount of premium paid (other than for hedging purposes), may not exceed 15% of the Net Asset Value of the relevant Sub-Fund; and
- (i) where a Sub-Fund invests in units or shares of other collective investment schemes (“underlying schemes”),
 - (i) the value of units or shares in underlying schemes which are neither recognised jurisdiction schemes (as determined by the SFC) nor authorised by the SFC, held for the account of the relevant Sub-Fund, may not in aggregate exceed 10% of the Net Asset Value of the relevant Sub-Fund; and
 - (ii) a Sub-Fund may invest in one or more underlying schemes which are either recognised jurisdiction schemes or schemes authorised by the SFC, but the value of the units or shares held for the account of the relevant Sub-Fund in each such underlying scheme may not exceed 30% of the Net Asset Value of the relevant Sub-Fund, unless the underlying scheme is authorised by the SFC and its name and key investment information are disclosed in the offering document of the relevant Sub-Fund,

provided that:

- (1) the objective of each underlying scheme may not be to invest primarily in any investment prohibited by Chapter 7 of the Code, and where that underlying scheme’s objective is to invest primarily in investments restricted by Chapter 7 of the Code, such holdings may not be in contravention of the relevant limitation;
- (2) where an investment is made in any underlying scheme(s) managed by the Manager or any of its Connected Persons, all initial charges on the underlying scheme(s) must be waived; and
- (3) the Manager may not obtain a rebate on any fees or charges levied by an underlying scheme or the management company of an underlying scheme,
- (j) at least 30% of the Net Asset Value of the Sub-Fund must be held on deposit or invested in liquid short term debt instruments and may not be used for margin requirements;
- (k) not more than 70% of the Net Asset Value of the Sub-Fund may be committed as margin for futures or options contracts, and/or premium paid for options purchased (including put and/or call options); and
- (l) premiums paid to acquire options outstanding with identical characteristics may not exceed 5% of the Net Asset Value of the Sub-Fund,

save to the extent that any of the above holdings is permitted under the Code.

A Sub-Fund shall not (unless otherwise stated in the relevant Appendix):

- (a) invest in a Security of any class in any company or body if any director or officer of the Manager individually owns more than 0.5% of the total nominal amount of all the issued securities of that class or the directors and officers of the Manager collectively own more than 5% of those securities;
- (b) invest in any type of real estate (including buildings) or interests in real estate (including options or rights, but excluding shares in real estate companies and interests in real estate investment trusts (REITs));
- (c) make short sales if as a result the Sub-Fund would be required to deliver Securities exceeding 10% of the Net Asset Value of the Sub-Fund (and for this purpose Securities sold short must be actively traded on a market where short selling is permitted);

- (d) write uncovered options;
- (e) write a call option on portfolio investments of a Sub-Fund if the aggregate of the exercise prices of all such call options written in respect of the relevant Sub-Fund would exceed 25% of the Net Asset Value of the relevant Sub-Fund;
- (f) lend or make a loan out of the assets of a Sub-Fund without the prior written consent of the Trustee except to the extent that the acquisition of bonds or the making of a deposit (within the applicable investment restrictions) might constitute a loan;
- (g) assume, guarantee, endorse or otherwise become directly or contingently liable for or in connection with any obligation or indebtedness of any person without the prior written consent of the Trustee;
- (h) enter into any obligation in respect of a Sub-Fund or acquire any asset for the account of a Sub-Fund which involves the assumption of any liability which is unlimited; or
- (i) apply any part of a Sub-Fund in the acquisition of any investments which are for the time being nil paid or partly paid in respect of which a call is due to be made unless such call could be met in full out of cash or near cash forming part of a Sub-Fund which has not been appropriated and set aside for any other purposes (including in respect of any writing of call options).
- (j) hold open contract positions in any futures contract month or option series for which the combined margin requirement represents 5% or more of the Net Asset Value of the Sub-Fund;
- (k) hold an open position in futures and options contracts concerning a single commodity or single underlying financial instrument for which the combined margin or premium requirement represents 20% or more of the Net Asset Value of the Sub-Fund;
- (l) enter into futures and options contracts which are not dealt with on a futures, commodities or options exchange approved by the Trustee or enter into any over-the-counter derivatives which are not approved by the Trustee; or
- (m) invest in commodity contracts other than commodity futures contracts.

Note: The investment restrictions set out above apply to each Sub-Fund, subject to the following: A collective investment scheme authorised by the SFC under the Code is usually restricted from making investments which would result in the value of that collective investment scheme's holdings of the Securities of any single issuer exceeding 10% of the collective investment scheme's total net asset value. Given the investment objective of the Sub-Fund(s) and nature of the Index, the Sub-Fund(s) is/are allowed under Chapter 8.6(h) of the Code to hold investments in Securities of any single issuer exceeding 10% of the relevant Sub-Fund's latest available Net Asset Value if such constituent Securities account for more than 10% of the weighting of the Index and the relevant Sub-Fund's holding of any such constituent Securities does not exceed their respective weightings in the Index, except where the weightings are exceeded as a result of changes in the composition of the Index and the excess is only transitional and temporary in nature. Subject to Chapter 8.6(h) of the Code, more than 30% of the latest available Net Asset Value of the relevant Sub-Fund may also be invested in government and other public Securities of the same issue. However, the Manager may cause a Sub-Fund to deviate from the Index weighting (in pursuing a representative sampling strategy which does not involve a full replication strategy) under Appendix I of the Code (the "ETF Guidelines") on condition that the maximum deviation from the index weighting of any constituent caused by the implementation of the representative sampling strategy will not exceed the percentage specified in the relevant Appendix or such other percentage as determined by the Manager after consultation with the SFC. Under the ETF Guidelines, the Manager shall report to the SFC on a timely basis if there is any non-compliance with this limit. The annual and interim financial statements of the relevant Sub-Fund shall also disclose whether or not such limit has been complied with during such period and account for any non-compliance in those reports.

Security lending

There is no current intention for any Sub-Fund to engage in securities lending, repurchase transaction or other similar over-the-counter transactions, but this may change in light of market circumstances and where a Sub-Fund does engage in these types of transactions, prior approval shall be obtained from the SFC and no less than one month's prior notice will be given to the Unitholders.

Borrowing policy

Borrowing against the assets of a Sub-Fund is allowed up to a maximum of 10% of its latest available Net Asset Value. Where the Manager so determines, a Sub-Fund's permitted borrowing level may be a lower percentage or more restricted as set out in the relevant Appendix. Subject to the relevant Appendix, the Trustee may on instruction of the Manager borrow for the account of a Sub-Fund any currency, and charge or pledge assets of the Sub-Fund, for the following purposes:

- (a) facilitating the creation or redemption of Units or defraying operating expenses;
- (b) enabling the Manager to acquire Securities for the account of the Sub-Fund; or
- (c) for any other proper purpose as may be agreed by the Manager and the Trustee.

CREATIONS AND REDEMPTIONS (PRIMARY MARKET)

Investment in a Sub-Fund

There are 2 methods of making an investment in a Sub-Fund and of disposing of Units to realise an investment in a Sub-Fund.

The first method is to create or to redeem Units at Net Asset Value directly with the Sub-Fund in the primary market through a Participating Dealer, being a licenced dealer that has entered into a Participation Agreement in respect of the relevant Sub-Fund. Where a Sub-Fund has a Dual Counter, Units which are created must be deposited in CCASS as either HKD or RMB counter Units as specified in the relevant Appendix (i.e. tradeable in HKD or RMB only) initially, and all creation and redemption for all Units must be in either HKD or RMB as specified in the relevant Appendix. Because of the size of the capital investment (i.e. Application Unit size) required either to create or redeem Units through the Participating Dealer in the primary market, this method of investment is more suitable for institutional investors and market professionals. Participating Dealers are under no obligations to create or redeem Units for their clients and may impose terms, including charges, for handling creation or redemption orders as they determine appropriate, as described in more detail in this section.

The second method is to buy or to sell Units in the secondary market on the SEHK which is more suitable for retail investors. The secondary market price of Units may trade at a premium or discount to the Net Asset Value of the relevant Sub-Fund.

This section of this Prospectus describes the first method of investment and should be read in conjunction with the Operating Guidelines and the Trust Deed. The section on "Exchange Listing and Trading (Secondary Market)" relates to the second method of investment.

Creation of Units through Participating Dealers

Any application for the creation of Units of a Sub-Fund must only be made through a Participating Dealer in respect of an Application Unit size or whole multiple thereof as set out in the "Key Information" section in the relevant Appendix. Investors cannot acquire Units directly from a Sub-Fund. Only Participating Dealers may submit Creation Applications to the Manager (with a copy to the Trustee and the Registrar).

Units in each Sub-Fund are continuously offered through a Participating Dealer, who may apply for them on any Dealing Day for its own account or for the account of their client(s), in accordance with the Operating Guidelines, by submitting a Creation Application to the Manager (with a copy to the Trustee and the Registrar).

Each initial Participating Dealer has indicated to the Manager that it will generally accept and submit creation requests received from its clients, subject always to (i) mutual agreement between the relevant initial Participating Dealer and its clients as to its fees for handling such requests; (ii) completion to its satisfaction of client acceptance procedures and requirements; (iii) no objection from the Manager to create Units for the relevant initial Participating Dealer on behalf of such clients (please refer to the sub-section on "Creation process" below for the examples of exceptional circumstances under which the Manager shall have the right to reject a Creation Application); and (iv) mutual agreement between the relevant initial Participating Dealer and its clients as to the method of effecting such creation requests.

In addition, a Participating Dealer reserves the right to reject, acting in good faith, any creation request received from a client under exceptional circumstances, including without limitation the following circumstances:

- (a) any period during which (i) the creation or issue of Units of the relevant Sub-Fund, (ii) the redemption of Units of the relevant Sub-Fund, and/or (iii) the determination of Net Asset Value of the relevant Sub-Fund is suspended;
- (b) where there is in existence any trading restriction or limitation such as the occurrence of a market disruption event, suspected market misconduct or the suspension of dealing in relation to any of the Securities and/or Futures Contracts in the relevant Index;
- (c) where acceptance of the creation request in connection with such creation request would render the Participating Dealer in breach of any regulatory restriction or requirement, internal compliance or internal control restriction or requirement of the Participating Dealer necessary for compliance with applicable legal and regulatory requirements; or
- (d) circumstances outside the control of the Participating Dealer make it for all practicable purposes impossible to process the creation request.

Requirements relating to creation requests by potential investors

As of the date of this Prospectus, only cash creation is available to the Participating Dealers in respect of each Sub-Fund.

Notwithstanding a Dual Counter being adopted for a Sub-Fund, cash payable by a Participating Dealer in a cash Creation Application must be in RMB or in HKD as set out in the relevant Appendix. Units which are created must be deposited in CCASS as RMB counter Units (i.e. tradeable in RMB only) or as HKD counter Units (i.e. tradeable in HKD only) initially depending on the relevant Appendix.

A Participating Dealer may impose fees and charges in handling any creation request from investors which would increase the cost of investment. Investors are advised to check with the Participating Dealer as to the relevant fees and charges. Although the Manager has a duty to monitor the operations of each Sub-Fund closely, neither the Manager nor the Trustee is empowered to compel a Participating Dealer to disclose its fees agreed with specific clients or other proprietary or confidential information to the Manager or the Trustee or to accept any such creation requests received from clients. In addition, neither the Trustee nor the Manager can ensure effective arbitrage by the Participating Dealer.

A Participating Dealer may also impose timing deadlines for the submission by its clients of any creation request and require any such clients to complete the relevant client acceptance procedures and requirements (including, where necessary, providing such documentation and certifications as required by the Participating Dealer) in order to ensure that an effective Creation Application in respect of a Sub-Fund can be submitted by it to the Manager (with a copy to the Trustee and the Registrar). Investors are advised to check with the Participating Dealer as to the relevant timing deadlines and the client acceptance procedures and requirements.

The Application Unit size for a Sub-Fund is the number of Units specified in the relevant Appendix. Creation Applications submitted in respect of Units other than in Application Unit size or whole multiples thereof will not be accepted. The minimum subscription for each Sub-Fund is one Application Unit.

Creation process

A Participating Dealer may from time to time submit Creation Applications in respect of a Sub-Fund to the Manager (with a copy to the Trustee and the Registrar), following receipt of creation requests from its clients or where it wishes to create Units of the relevant Sub-Fund for its own account.

If a Creation Application is received on a day which is not a Dealing Day or is received after the relevant Dealing Deadline on a Dealing Day, that Creation Application shall be treated as having

been received at the opening of business on the next Dealing Day, which shall be the relevant Dealing Day for the purposes of that Creation Application. The current Dealing Deadline After Listing on the relevant Dealing Day is specified in the relevant Appendix, or such other time as the Manager (with the approval of Trustee) may determine on any day when the trading hours of the SEHK, the Recognised Stock Exchange or the Recognised Futures Exchange are reduced. To be effective, a Creation Application must:

- (a) be given by a Participating Dealer in accordance with the Trust Deed, the relevant Participation Agreement and the relevant Operating Guidelines;
- (b) specify the number of Units and the class of Units (where applicable) which is the subject of the Creation Application; and
- (c) include the certifications required in the Operating Guidelines (if any) in respect of creations of Units, together with such certifications and opinions of counsel (if any) as each of the Trustee and the Manager may separately consider necessary to ensure compliance with applicable Securities and other laws in relation to the creation of Units which are the subject of the Creation Application.

The Manager shall have the right to reject, acting in good faith, any Creation Application under exceptional circumstances, including without limitation the following circumstances:

- (a) any period during which (i) the creation or issue of Units of the relevant Sub-Fund, (ii) the redemption of Units of the relevant Sub-Fund, and/or (iii) the determination of Net Asset Value of the relevant Sub-Fund is suspended;
- (b) where in the opinion of the Manager, acceptance of the Creation Application would have an adverse effect on the relevant Sub-Fund;
- (c) where in the opinion of the Manager, acceptance of the Creation Application would have a material impact on the relevant market on which a Security and/or Futures Contracts, as the case may be (that is a component of the Index for the relevant Sub-Fund) has its primary listing;
- (d) where there is in existence any trading restriction or limitation such as the occurrence of a market disruption event, suspected market misconduct or the suspension of dealing in relation to any of the Securities and/or Futures Contracts as the case may be in the relevant Index;
- (e) where acceptance of the Creation Application would render the Manager in breach of any regulatory restriction or requirement, internal compliance or internal control restriction or requirement of the Manager necessary for compliance with applicable legal and regulatory requirements;
- (f) circumstances outside the control of the Manager make it for all practicable purposes impossible to process the Creation Application;
- (g) any period during which the business operations of the Manager, the Trustee or any delegate of the Manager or the Trustee in respect of a Creation Application in the relevant Sub-Fund are substantially interrupted or closed as a result of or arising from pestilence, acts of war, terrorism, insurrection, revolution, civil unrest, riots, strikes or acts of God; or
- (h) an Insolvency Event occurs in respect of the relevant Participating Dealer.

In the event of such rejection, the Manager shall notify the relevant Participating Dealer and the Trustee of its decision to reject such Creation Application in accordance with the Operating Guidelines. Where for any reason there is a limit to the number of Units which can be created, priority will be given to Participating Dealers and the relevant Creation Applications as set out in

the Operating Guidelines.

The Manager's right to reject a Creation Application is separate and in addition to a Participating Dealer's right to reject, acting in good faith, any creation request received from a client of the Participating Dealer under exceptional circumstances. Notwithstanding a Participating Dealer has accepted creation requests from its clients and in that connection submitted an effective Creation Application, the Manager may exercise its ultimate rights to reject such Creation Application in the circumstances described herein.

Where the Manager accepts a Creation Application from a Participating Dealer, it shall instruct the Trustee to effect (i) for the account of the Sub-Fund(s), the creation of Units in Application Unit size in exchange for a transfer of cash; and (ii) the issue of Units to the Participating Dealer, both in accordance with the Operating Guidelines and the Trust Deed.

The Participating Dealer will then transfer Units to the relevant client if the Creation Application was submitted by the Participating Dealer for the account of its client.

Issue of Units

Units will be issued at the Issue Price prevailing on the relevant Dealing Day, provided that the Trustee may add to such Issue Price a sum (if any) which represents an appropriate provision for Duties and Charges. Please refer to the section on "Issue Price and Redemption Value" for the calculation of the Issue Price.

On receipt of a Creation Application by a Participating Dealer for Units in a Sub-Fund during the relevant Initial Offer Period, the Manager shall procure the creation and issue of Units in that Sub-Fund on the relevant Initial Issue Date.

Units are denominated in the base currency of the relevant Sub-Fund (unless otherwise determined by the Manager) as set out in the relevant Appendix and no fractions of a Unit shall be created or issued by the Trustee.

The creation and issue of Units pursuant to a Creation Application shall be effected on the Dealing Day on which the Creation Application is received (or deemed received) and accepted in accordance with the Operating Guidelines but, for valuation purposes only, Units shall be deemed created and issued after the Valuation Point on the Dealing Day on which the relevant Creation Application was received or deemed received and the register will be updated on the relevant Settlement Day or the Dealing Day immediately following the Settlement Day if the settlement period is extended. If a Creation Application is received on a day which is not a Dealing Day or is received after the relevant Dealing Deadline on a Dealing Day, that Creation Application shall be treated as having been received at the opening of business on the next following Dealing Day, which shall be the relevant Dealing Day for the purposes of that Creation Application. An Extension Fee may be payable in relation to such an extension. See the section on "Fees and Expenses" for further details.

The Trustee shall be entitled to refuse to enter (or allow to be entered) Units in the register if at any time the Trustee is of the opinion that the provisions as set out in the Trust Deed, the relevant Operating Guidelines or the relevant Participation Agreement, in regard to the issue of Units, are being infringed.

Fees relating to Creation Applications

The Service Agent, the Registrar and/or the Trustee may charge a Transaction Fee in respect of Creation Applications and may on any day vary the rate of the Transaction Fee they charge (but not as between different Participating Dealers in respect of the same Sub-Fund). The Transaction Fee shall be paid by or on behalf of the Participating Dealer applying for such Units. See the section on "Fees and Expenses" for further details.

In relation to cash creation of Units, the Manager reserves the right to require the Participating Dealer to pay an additional sum for the purpose of compensating or reimbursing a Sub-Fund for the difference between:

- (a) the prices used when valuing the Securities and/or Futures Contracts, as applicable, of the relevant Sub-Fund for the purpose of such issue of Units; and
- (b) the prices which would be used when acquiring the same Securities and/or Futures Contracts, as applicable, if they were acquired by the relevant Sub-Fund with the amount of cash received by the relevant Sub-Fund upon such issue of Units.

The Participating Dealer may pass on to the relevant investor such additional sum.

Any commission, remuneration or other sum payable by the Manager to any agent or other person in respect of the issue or sale of any Unit shall not be added to the Issue Price of such Unit and shall not be paid from the assets of any Sub-Fund.

Cancellation of Creation Applications

A Creation Application once submitted cannot be revoked or withdrawn without the consent of the Manager.

The Trustee, after consultation with the Manager may cancel a creation order in respect of any Units deemed created pursuant to a Creation Application if it has not received the full amount of the cash (including Transaction Fee, Duties and Charges) relating to the Creation Application by the Dealing Day, provided that the Manager may at its discretion extend the settlement period and such extension to be on such terms and conditions (including as to the payment of any fees to the Manager or Extension Fee to the Trustee or their respective Connected Persons or otherwise) as the Manager may determine and in accordance with the provisions of the Operating Guidelines.

In addition to the preceding circumstances, the Manager may also cancel any creation order of any Units if it determines by such time as it specifies in the Operating Guidelines that it is unable to invest the cash proceeds of any Creation Application.

Upon the cancellation of any creation order of any Units deemed created pursuant to a Creation Application as provided for above or if a Participating Dealer otherwise withdraws subject to the Manager's consent a Creation Application (other than in certain circumstances contemplated in the Trust Deed such as when the Manager declares a suspension of creations of Units), any cash received by or on behalf of the Trustee in connection with a Creation Application shall be redelivered to the Participating Dealer (without interest) as soon as practicable and the relevant Units shall be deemed for all purposes never to have been created and the Participating Dealer shall have no right or claim against the Manager, the Trustee and/or the Service Agent in respect of such cancellation provided that:

- (a) the Trustee may charge the relevant Participating Dealer for the account of the Registrar an application cancellation fee (see the section on "Fees and Expenses" for further details);
- (b) the Manager may at its discretion require the relevant Participating Dealer to pay to the Trustee, for the account of the Sub-Fund, in respect of each Unit so cancelled Cancellation Compensation, being the amount (if any) by which the Issue Price of each such Unit exceeds the Redemption Value which would have applied in relation to each such Unit if the Participating Dealer had, on the date on which such Units are cancelled, made a Redemption Application, together with charges, expenses and losses incurred by the Sub-Fund as a result of such cancellation;
- (c) the Transaction Fee in respect of such Creation Application shall remain due and payable (notwithstanding that the Creation Application shall be deemed to never have been made)

and once paid shall be retained by and for the benefit of the Trustee, the Registrar and/or the Service Agent (see the section on “Fees and Expenses” for further details); and

- (d) no previous valuations of the Trust Fund shall be re-opened or invalidated as a result of the cancellation of such Units.

Redemption of Units through Participating Dealers

Any application for the redemption of Units of a Sub-Fund must only be made through a Participating Dealer in respect of an Application Unit size or whole multiples thereof. Investors cannot redeem Units directly from the relevant Sub-Fund. Only Participating Dealers may submit Redemption Applications to the Manager (with a copy to the Trustee and the Registrar).

A Participating Dealer may redeem Units on any Dealing Day for its own account or for the account of its clients in accordance with the Operating Guidelines, by submitting a Redemption Application to the Manager (with a copy to the Trustee and the Registrar).

Each initial Participating Dealer has indicated to the Manager that it will generally accept and submit redemption requests received from its clients, subject always to (i) mutual agreement between the relevant initial Participating Dealer and its clients as to its fees for handling such request(s); (ii) completion to its satisfaction of client acceptance procedures and requirements; (iii) no objection from the Manager to redeem Units for the relevant initial Participating Dealer on behalf of its clients (please refer to the sub-section on “Redemption process” below for the examples of exceptional circumstances under which the Manager shall have the right to reject a Redemption Application); and (iv) mutual agreement between the relevant initial Participating Dealer and its clients as to the method of effecting such redemption request.

In addition, a Participating Dealer reserves the right to reject, acting in good faith, any redemption request received from a client under exceptional circumstances, including without limitation the following circumstances:

- (a) any period during which (i) the creation or issue of Units of the relevant Sub-Fund, (ii) the redemption of Units of the relevant Sub-Fund, and/or (iii) the determination of Net Asset Value of the relevant Sub-Fund is suspended;
- (b) where there is in existence any trading restriction or limitation such as the occurrence of a market disruption event, suspected market misconduct or the suspension of dealing in relation to any of the Securities and/or Futures Contracts in the Index;
- (c) where acceptance of the redemption request would render the Participating Dealer in breach of any regulatory restriction or requirement, internal compliance or internal control restriction or requirement of the Participating Dealer necessary for compliance with applicable legal and regulatory requirements; or
- (d) circumstances outside the control of the Participating Dealer make it for all practicable purposes impossible to process the redemption request.

Requirements relating to redemption requests by potential investors

As of the date of this Prospectus, only cash redemption is available to the Participating Dealers in respect of the Sub-Fund(s).

Any cash proceeds received by a Participating Dealer in a cash Redemption Application shall be paid in HKD or, if set out in the relevant Appendix, RMB. Both HKD traded Units and, from the date of the commencement of dealings in the RMB counter (as set out in the relevant Appendix) onwards, RMB traded Units may be redeemed by way of a Redemption Application (through a Participating Dealer). Where, from the date of the commencement of dealings in the HKD

counter (as set out in the relevant Appendix) onwards, a Participating Dealer wishes to redeem HKD traded Units the redemption process is the same as for RMB traded Units.

A Participating Dealer may impose fees and charges in handling any redemption request from the investors which would increase the cost of investment and/or reduce the redemption proceeds. Investors are advised to check with the Participating Dealer as to relevant fees and charges. Although the Manager has a duty to monitor the operations of each Sub-Fund closely, neither the Manager nor the Trustee is empowered to compel a Participating Dealer to disclose its fees agreed with specific clients or other proprietary or confidential information to the Manager or the Trustee or to accept any such redemption requests received from clients. In addition, neither the Trustee nor the Manager can ensure effective arbitrage by a Participating Dealer.

A Participating Dealer may also impose timing deadlines for the submission by its clients of any redemption request and require any such clients to complete the relevant client acceptance procedures and requirements (including, where necessary, providing such documentation and certifications as required by the Participating Dealer) in order to ensure that an effective Redemption Application in respect of a Sub-Fund can be submitted by it to the Manager (with a copy to the Trustee and the Registrar). Investors are advised to check with the Participating Dealer as to the relevant timing deadlines and the client acceptance procedures and requirements.

Redemption process

A Participating Dealer may from time to time submit Redemption Applications in respect of a Sub-Fund to the Manager (with a copy to the Trustee and the Registrar), following receipt of redemption requests from clients or where it wishes to redeem Units of the relevant Sub-Fund for its own account.

If a Redemption Application is received on a day which is not a Dealing Day or is received after the relevant Dealing Deadline on a Dealing Day, that Redemption Application shall be treated as having been received at the opening of business on the next following Dealing Day, which shall be the relevant Dealing Day for the purposes of that Redemption Application. The current Dealing Deadline After Listing on the relevant Dealing Day is specified in the relevant Appendix, or such other time as the Manager (with the approval of Trustee) may determine on any day when the trading hours of the SEHK, the Recognised Stock Exchange or the Recognised Futures Exchange are reduced.

To be effective, a Redemption Application must:

- (a) be given by a Participating Dealer in accordance with the Trust Deed, the relevant Participation Agreement and the relevant Operating Guidelines;
- (b) specify the number of Units and the class of Units (where applicable) which is the subject of the Redemption Application; and
- (c) include the certifications required in the Participation Agreement and Operating Guidelines (if any) in respect of redemptions of Units, together with such certifications and opinions of counsel (if any) as each of the Trustee and the Manager may separately consider necessary to ensure compliance with applicable securities and other laws in relation to the redemption of Units which are the subject of the Redemption Application.

The Manager shall have the right to reject, acting in good faith, any Redemption Application under exceptional circumstances, including without limitation the following circumstances:

- (a) any period during which (i) the creation or issue of Units of the relevant Sub-Fund, (ii) the redemption of Units of the relevant Sub-Fund, and/or (iii) the determination of Net Asset Value of the relevant Sub-Fund is suspended;

- (b) where in the opinion of the Manager, acceptance of the Redemption Application would have an adverse effect on the relevant Sub-Fund;
- (c) where there is in existence any trading restriction or limitation such as the occurrence of a market disruption event, suspected market misconduct or the suspension of dealing in relation to any of the Securities and/or Futures Contracts in the relevant Index;
- (d) where acceptance of the Redemption Application would render the Manager in breach of any regulatory restriction or requirement, internal compliance or internal control restriction or requirement of the Manager necessary for compliance with applicable legal and regulatory requirements;
- (e) circumstances outside the control of the Manager make it for all practicable purposes impossible to process the Redemption Application; or
- (f) any period during which the business operations of the Manager, the Trustee or any delegate of the Manager or the Trustee in respect of a Redemption Application in the relevant Sub-Fund are substantially interrupted or closed as a result of or arising from pestilence, acts of war, terrorism, insurrection, revolution, civil unrest, riots, strikes or acts of God.

In the event of such rejection, the Manager shall notify the relevant Participating Dealer and the Trustee of its decision to reject such Redemption Application in accordance with the Operating Guidelines.

The Manager's right to reject a Redemption Application is separate and in addition to a Participating Dealer's right to reject, acting in good faith, any redemption request received from a client under exceptional circumstances. Notwithstanding a Participating Dealer has accepted redemption requests from clients and in that connection submitted an effective Redemption Application, the Manager may exercise its rights to reject such Redemption Application in the circumstances described herein.

Where the Manager accepts a Redemption Application from a Participating Dealer, it shall (i) effect the redemption and cancellation of the relevant Units; and (ii) require the Trustee to transfer to the Participating Dealer cash in accordance with the Operating Guidelines and the Trust Deed.

The Participating Dealer will then transfer the cash to the relevant client if the Redemption Application was submitted by the Participating Dealer for the account of its client.

Redemption of Units

Any accepted Redemption Application will be effected on the Settlement Day provided that a Redemption Application duly signed by a Participating Dealer (to the satisfaction of the Manager and the Trustee) has been received and provided further that the Trustee shall have received (unless otherwise provided in the Operating Guidelines) the original (and not a faxed copy) of the certificates (if any) representing the Units to be cancelled (or an indemnity in terms acceptable to the Trustee) and the full amount of any amount payable by the Participating Dealer including the Transaction Fee and any other Duties and Charges have been either deducted or otherwise paid in full.

For valuation purposes only, Units shall be deemed to have been redeemed and cancelled after the Valuation Point on the Dealing Day on which the Redemption Application was received or deemed received. The name of the Unitholder of such Units shall be removed from the Register in respect of those Units redeemed and cancelled on the relevant Settlement Day.

The Redemption Value of Units tendered for redemption and cancellation shall be the Net Asset Value per Unit of a Sub-Fund rounded to the nearest four decimal places (0.00005 or above being rounded up, and less than 0.00005 being rounded down). The benefit of any rounding

adjustments will be retained by the relevant Sub-Fund. For the purpose of valuation, the relevant Valuation Point shall be the Valuation Point for the Dealing Day on which the Redemption Application is treated as having been received.

The interval between the receipt of a properly documented Redemption Application and payment of redemption proceeds may not exceed one calendar month provided that there is no delay in submitting all duly completed redemption documentation and the determination of the Net Asset Value or dealing in Units is not suspended.

The Manager may at its discretion extend the settlement period upon receipt of the extended settlement request by a Participating Dealer in respect of the Redemption Application on such terms and conditions (including as to the payment of any fees to the Manager or Extension Fee to the Trustee or their respective Connected Persons or otherwise) as the Manager may in its discretion determine, in accordance with the Operating Guidelines.

Fees relating to Redemption Applications

The Service Agent, the Registrar and/or the Trustee may charge a Transaction Fee in respect of Redemption Applications and may on any day vary the rate of the Transaction Fee they charge (but not as between different Participating Dealers in respect of the Sub-Fund(s)). The Transaction Fee shall be paid by or on behalf of the Participating Dealer submitting the Redemption Application(s) (and may be set off and deducted against any amount due to the Participating Dealer in respect of such Redemption Application(s)) for the benefit of the Trustee, the Registrar and/or the Service Agent. See the section on "Fees and Expenses" for further details.

In relation to cash redemption of Units, the Manager reserves the right to require the Participating Dealer to pay an additional sum for the purpose of compensating or reimbursing the relevant Sub-Fund for the difference between:

- (a) the prices used when valuing the Securities and/or Futures Contracts as applicable of the relevant Sub-Fund for the purpose of such redemption of Units; and
- (b) the prices which would be used when selling the same Securities and/or Futures Contracts as applicable if they were sold by the relevant Sub-Fund in order to realize the amount of cash required to be paid out of the relevant Sub-Fund upon such redemption of Units.

The Participating Dealer may pass on to the relevant investor such additional sum.

The Trustee may deduct from the redemption proceeds such sum (if any) as the Trustee may consider represents an appropriate provision for the Transaction Fee and/or other Duties and Charges.

Cancellation of Redemption Applications

A Redemption Application once given cannot be revoked or withdrawn without the consent of the Manager.

No cash amount shall be paid in respect of any Redemption Application unless Units, which are the subject of the Redemption Application, have been delivered to the Trustee free and clear of any Encumbrance for redemption by such time on the Settlement Day or other dealing set forth in the Trust Deed and/or Operating Guidelines as the Trustee and the Manager shall for the time being prescribe for Redemption Applications generally.

In the event that any Units, which are the subject of a Redemption Application, are not delivered to the Trustee for redemption in accordance with the foregoing or are not free and clear of any Encumbrance (other than in certain circumstances contemplated in the Trust Deed such as when

the Manager declares a suspension of redemptions of Units):

- (a) the Trustee may charge the relevant Participating Dealer for the account of the Registrar an application cancellation fee (see the section on “Fees and Expenses” for further details);
- (b) the Manager may at its discretion require the relevant Participating Dealer to pay to the Trustee, for the account of the relevant Sub-Fund, in respect of each Unit so cancelled Cancellation Compensation, being the amount (if any) by which the Redemption Value of each such Unit is less than the Issue Price which would have applied in relation to each such Unit if the Participating Dealer had, on the actual date when the Manager is able to repurchase any replacement Securities and Futures Contracts made a Creation Application in accordance with the provisions of the Trust Deed plus such other amount as the Manager reasonably determines as representing any charges, expenses and losses incurred by the Sub-Fund as a result of such cancellation;
- (c) the Transaction Fee in respect of such Redemption Application shall remain due and payable (notwithstanding that the Redemption Application shall be deemed to never have been made) and once paid, shall be retained by and for the benefit of the Trustee, the Registrar and/or the Service Agent (see the section on “Fees and Expenses” for further details); and
- (d) no previous valuations of the Trust Fund shall be re-opened or invalidated as a result of an unsuccessful Redemption Application.

Deferred redemption

In the event that redemption requests are received for the redemption of Units representing in aggregate more than 10% (or such higher percentage as the Manager may determine in respect of the Sub-Fund) of the total number of Units in a Sub-Fund then in issue, the Manager may direct the Trustee to reduce such requests rateably and pro rata amongst all Unitholders seeking to redeem Units on the relevant Dealing Day and carry out only sufficient redemptions which, in aggregate, amount to 10% (or such higher percentage as the Manager may determine in respect of a Sub-Fund) of the Units in the relevant Sub-Fund then in issue. Units which are not redeemed but which would otherwise have been redeemed will be redeemed on the next Dealing Day (subject to further deferral if the deferred requests in respect of the relevant Sub-Fund themselves exceed 10% (or such higher percentage as the Manager may determine in respect of that Sub-Fund) of the Units in the relevant Sub-Fund then in issue) in priority to any other Units in the relevant Sub-Fund for which redemption requests have been received. Units will be redeemed at the Redemption Value prevailing on the Dealing Day on which they are redeemed.

Suspension of creations and redemptions

The Manager may, at its discretion, after giving notice to the Trustee (and where practicable, after consultation with Participating Dealers) suspend the creation or issue of Units of any Sub-Fund(s), suspend the redemption of Units of any Sub-Fund(s) and/or (subject to all applicable legal or regulatory requirements where payment of redemption proceeds exceeds one calendar month) delay the payment of any monies in respect of any Creation Application and/or Redemption Application in the following circumstances:

- (a) during any period when trading on the SEHK or any other Recognised Stock Exchange or Recognised Futures Exchange is restricted or suspended;
- (b) during any period when a market on which a Security and/or Futures Contract, as the case may be (that is a component of the Index) has its primary listing, or the official clearing and settlement depositary (if any) of such market, is closed;
- (c) during any period when dealing on a market on which a Security and/or Futures Contract,

as the case may be (that is a component of the Index) has its primary listing is restricted or suspended;

- (d) during any period when, in the opinion of the Manager, settlement or clearing of Securities and/or Futures Contracts, as the case may be in the official clearing and settlement depository (if any) of such market is disrupted;
- (e) during the existence of any state of affairs as a result of which delivery or purchase of Securities and/or Futures Contracts, as appropriate or disposal of investments for the time being comprised in the relevant Sub-Fund cannot, in the opinion of the Manager, be effected normally or without prejudicing the interests of Unitholders of the relevant Sub-Fund;
- (f) during any period when the Index for the relevant Sub-Fund is not compiled or published;
- (g) during any breakdown in any of the means normally employed in determining the Net Asset Value of the relevant Sub-Fund or when for any other reason the value of any Securities and/or Futures Contracts or other property for the time being comprised in the relevant Sub-Fund cannot, in the opinion of the Manager, reasonably, promptly and fairly be ascertained;
- (h) during any period when the determination of the Net Asset Value of the relevant Sub-Fund is suspended or if any circumstance specified in the section on "Suspension of Determination of Net Asset Value" below arises;
- (i) during any period when the business operations of the Manager, the Trustee or any delegate of the Manager or the Trustee, in respect of any Creation Application and/or Redemption Application in the relevant Sub-Fund is substantially interrupted or closed as a result of or arising from pestilence, acts of war, terrorism, insurrection, revolution, civil unrest, riot, strikes or acts of God; or
- (j) if as a result of the investment of the proceeds of issue of such Units in accordance with the investment objective of a Sub-Fund, the Trust collectively holds or would hold in aggregate more than 10% of the ordinary shares issued by any single issuer and the SFC has not agreed to waive this prohibition under the Code.

The Manager will, after giving notice to the Trustee, suspend the right to subscribe for Units of the relevant Sub-Fund if, or if as a result of the investment of the proceeds of issue of such Units in accordance with its investment objective, the Trust collectively holds or would hold in aggregate more than 10% of the ordinary shares issued by any single issuer. Where the Sub-Funds under the Trust hold in aggregate more than the limit of 10% of the ordinary shares issued by any single issuer and the SFC has not agreed to waive this prohibition under the Code, the Manager will make it a priority objective to take all other necessary steps within a reasonable period to remedy such breach, taking into account the interests of the Unitholders.

The Manager shall notify the SFC and publish a notice of suspension following the suspension, and at least once a month during the suspension, on its website at www.miraeasset.com.hk (the contents of which and of other websites referred to in this Prospectus have not been reviewed by the SFC) or in such other publications as it decides.

The Manager shall consider any Redemption Application or any Creation Application received during the period of suspension (that has not been otherwise withdrawn) as having been received immediately following the termination of the suspension. The period for settlement of any redemption will be extended by a period equal to the length of the period of suspension.

A Participating Dealer may, at any time after a suspension has been declared and before termination of such suspension, withdraw any Creation Application or Redemption Application by notice in writing to the Manager and the Manager shall promptly notify and request the Trustee to return to the Participating Dealer any cash received by it in respect of the Creation Application

(without interest) as soon as practicable.

A suspension shall remain in force until the earlier of (a) the Manager declaring the suspension is at an end; and (b) the first Dealing Day on which (i) the condition giving rise to the suspension shall have ceased to exist; and (ii) no other condition under which suspension is authorised exists.

Evidence of Unitholding

Units will be deposited, cleared and settled by CCASS. Units are held in registered entry form only, which means that no Unit certificates are issued. HKSCC Nominees Limited is the registered owner (i.e. the sole holder of record) of all outstanding Units deposited with CCASS and is holding such Units for the participants in accordance with the General Rules of CCASS. Furthermore, the Trustee and the Manager acknowledge that pursuant to the General Rules of CCASS neither HKSCC Nominees Limited nor HKSCC has any proprietary interest in the Units. Investors owning Units in CCASS are beneficial owners as shown on the records of the participating brokers or the relevant Participating Dealer(s) (as the case may be) who are participants of CCASS.

Restrictions on Unitholders

The Manager has power to impose such restrictions as it may think necessary for the purpose of ensuring that no Units are acquired or held which would result in such holding being:

- (a) a breach of the law or requirements of any country or governmental authority or any stock exchange on which the Units are listed in circumstances which, in the Manager's opinion, might result in the Trust or the Sub-Fund suffering any adverse effect which the Trust or the Sub-Fund might not otherwise have suffered; or
- (b) in the circumstances which, in the Manager's opinion, may result in the Trust or the Sub-Fund incurring any tax liability or suffering any other pecuniary disadvantage which the Trust or the Sub-Fund might not otherwise have incurred or suffered.

Upon notice that any Units are so held, the Manager may require such Unitholders to redeem or transfer such Units in accordance with the provisions of the Trust Deed. A person who becomes aware that he is holding or owning Units in breach of any of the above restrictions is required either to redeem his Units in accordance with the Trust Deed or to transfer his Units to a person whose holding would be permissible under this Prospectus and the Trust Deed in a manner that would result in such Unitholder no longer being in breach of the restrictions above.

Transfer of Units

The Trust Deed provides that a Unitholder may transfer Units with the consent of the Manager. As all Units will be held in CCASS, the Manager's consent is deemed given where an investor is transferring his interest in Units within CCASS. A Unitholder is entitled to transfer Units held by him by using the standard transfer form issued by SEHK or by an instrument in writing in such other form (and if the transferor or the transferee is a clearing house or its nominee(s), by hand or by machine imprinted signature or by such other manner of execution) as the Trustee may from time to time approve. The transferor will be deemed to remain the Unitholder of the Units transferred until the name of the transferee is entered in the register of Unitholders in respect of the Units being transferred. Each instrument of transfer must relate to a single Sub-Fund only. If and to the extent that all Units are deposited, cleared and settled in CCASS, HKSCC Nominees Limited will be the sole Unitholder, holding such Units for the persons admitted by HKSCC as a participant of CCASS and to whose account any Units are for the time being allocated in accordance with the General Rules of CCASS.

EXCHANGE LISTING AND TRADING (SECONDARY MARKET)

The purpose of the listing of the Units on the SEHK is to enable investors to buy and sell Units on the secondary market, normally via a broker or dealer in smaller quantities than would be possible if they were to subscribe and/or redeem Units in the primary market.

The market price of a Unit listed or traded on the SEHK may differ from the Net Asset Value per Unit. Any transactions in the Units on the SEHK will be subject to the customary brokerage commissions and/or transfer taxes associated with the trading and settlement through the SEHK. There can be no guarantee that once the Units are listed on the SEHK they will remain listed.

The Manager will ensure that at least one Market Maker will maintain a market for the Units. Where a Dual Counter has been adopted in respect of a Sub-Fund the Manager will ensure that there is at least one RMB Counter Market Maker for RMB counter and one HKD counter Market Maker for HKD counter although these Market Makers may be the same entity. Broadly, the obligations of a Market Maker will include quoting bid and offer prices on the SEHK with the intention of providing liquidity and facilitating efficient trading. Given the nature of the Market Maker's role, the Manager will make available to a Market Maker, the portfolio composition information made available to a Participating Dealer.

Units may be purchased from and sold through the Market Makers. However, there is no guarantee or assurance as to the price at which a market will be made. In maintaining a market for Units, the Market Makers may make or lose money based on the differences between the prices at which they buy and sell Units, which is to a certain extent dependent on the difference between the purchase and sale prices of the underlying Securities or Futures Contracts comprised within the Index. Market Makers may retain any profits made by them for their own benefit and they are not liable to account to the Sub-Fund(s) in respect of such profits.

If you wish to buy or sell Units on the secondary market, you should contact your brokers.

Application has been made to the Listing Committee of the SEHK for the listing of, and permission to deal in the Units.

Subject to the compliance with the stock admission requirements of HKSCC, the Units (in each relevant counter) will be accepted as eligible securities by HKSCC for deposit, clearance and settlement in CCASS with effect from the date of commencement of dealings in the Units (in each relevant counter) on the SEHK or on any other date HKSCC chooses. Settlement of transactions between participants of the SEHK is required to take place in CCASS on the second CCASS Settlement Day after any trading day. All activities under CCASS are subject to the General Rules of CCASS and CCASS Operational Procedures in effect from time to time.

If trading of the Units on the SEHK is suspended or trading generally on the SEHK is suspended, then there will be no secondary market dealing for the Units.

Units are neither listed nor dealt on any other stock exchange and no application for such listing or permission to deal is being sought as at the date of this Prospectus. Application may be made in the future for a listing of Units of any Sub-Fund on one or more other stock exchanges.

Please also refer to the relevant Appendix of the Sub-Fund for additional disclosures on secondary market trading.

DETERMINATION OF NET ASSET VALUE

Calculation of Net Asset Value

The Net Asset Value of each Sub-Fund will be calculated by the Trustee (in its base currency as set out in the relevant Appendix) as at each Valuation Point applicable to the relevant Sub-Fund by valuing the assets of the relevant Sub-Fund and deducting the liabilities of the relevant Sub-Fund, in accordance with the terms of the Trust Deed.

Set out below is a summary of how various properties held by the relevant Sub-Fund are valued:

- (a) Securities that are quoted, listed, traded or dealt in on any Market shall unless the Manager (in consultation with the Trustee) determines that some other method is more appropriate, be valued by reference to the price appearing to the Manager to be the official closing price or, if unavailable, the last traded price on the Market as the Manager may consider in the circumstances to provide fair criterion, provided that (i) if a Security is quoted or listed on more than one Market, the Manager shall adopt the price quoted on the Market which in its opinion provides the principal market for such Security; (ii) if prices on that Market are not available at the relevant time, the value of the Securities shall be certified by such firm or institution making a market in such investment as may be appointed for such purpose by the Manager; (iii) interest accrued on any interest-bearing Securities shall be taken into account, unless such interest is included in the quoted or listed price; and (iv) the Manager and the Trustee shall be entitled to use and rely on electronic price feeds from such source or sources as they may from time to time determine, notwithstanding that the prices so used are not the official closing prices or last traded prices as the case may be;
- (b) the value of each interest in any unlisted mutual fund corporation or unit trust shall be the latest available net asset value per share or unit in such mutual fund corporation or unit trust or if not available or appropriate, the last available bid or offer price for such unit, share or other interest;
- (c) Futures Contracts will be valued at the official closing price of the Futures Contracts or if such price is not available (i) the latest available price or (ii) if bid and offer quotations are made, the latest available middle market quotation of such Futures Contract in each case at the Valuation Point or as otherwise valued as described in the Trust Deed;
- (d) except as provided for in paragraph (b), the value of any investment which is not listed, quoted or ordinarily dealt in on a Market shall be the initial value thereof equal to the amount expended on behalf of the Sub-Fund in the acquisition of such investment (including, in each case the amount of stamp duties, commissions and other acquisition expenses) provided that a revaluation shall be made on each Valuation Day by reference to the latest bid price, asked price or mean thereof, as the Trustee and the Manager consider appropriate, quoted by a professional person, firm or institution making a market in such investments or such professional person, firm or institution approved by the Trustee as qualified to value such investments (which may, if the Trustee agrees, be the Manager);
- (e) cash, deposits and similar investments shall be valued at their face value (together with accrued interest) unless, in the opinion of the Manager, any adjustment should be made to reflect the value thereof; and
- (f) notwithstanding the foregoing, the Manager in consultation with the Trustee may adjust the value of any investment if, having regard to relevant circumstances, the Manager determines that such adjustment is more appropriate to fairly reflect the value of the investment.

The Trustee will perform any currency conversion at rates as may be agreed between the Trustee and the Manager from time to time.

The above is a summary of the key provisions of the Trust Deed with regard to how the various assets of the relevant Sub-Fund are valued.

Suspension of determination of Net Asset Value

The Manager may, after giving notice to the Trustee, declare a suspension of the determination of the Net Asset Value of the relevant Sub-Fund for the whole or any part of any period during which:

- (a) there exists any state of affairs prohibiting the normal disposal and/or purchase of the investments of the relevant Sub-Fund;
- (b) circumstances exist as a result of which, in the opinion of the Manager, it is not reasonably practicable to realise a substantial part of the Securities and/or Futures Contracts held or contracted for the account of that Sub-Fund or it is not possible to do so without seriously prejudicing the interest of Unitholders of that Sub-Fund;
- (c) for any other reason the prices of investments of the relevant Sub-Fund cannot, in the opinion of the Manager, reasonably, promptly and fairly be ascertained;
- (d) there is a breakdown in any of the means normally employed in determining the Net Asset Value of the relevant Sub-Fund or the Net Asset Value per Unit of the relevant class or when for any other reason the value of any Securities and/or Futures Contracts or other property for the time being comprised in the relevant Sub-Fund cannot, in the opinion of the Manager, reasonably, promptly and fairly be ascertained;
- (e) the remittance or repatriation of funds which will or may be involved in the realisation of, or in the payment for, a substantial part of the Securities and/or Futures Contracts or other property of that Sub-Fund or the subscription or redemption of Units of the relevant Sub-Fund is delayed or cannot, in the opinion of the Manager, be carried out promptly or at normal rates of exchange; or
- (f) the business operations of the Manager, the Trustee or any delegate of the Manager or the Trustee in respect of the determination of the Net Asset Value of the Sub-Fund are substantially interrupted or closed as a result of or arising from pestilence, acts of war, terrorism, insurrection, revolution, civil unrest, riot, strikes or acts of God.

Any suspension shall take effect upon its declaration and thereafter there shall be no determination of the Net Asset Value of the relevant Sub-Fund and the Manager shall be under no obligation to rebalance the relevant Sub-Fund until the suspension is terminated on the earlier of (i) the Manager declaring the suspension is at an end; and (ii) the first Dealing Day on which (1) the condition giving rise to the suspension shall have ceased to exist; and (2) no other condition under which suspension is authorised exists.

The Manager shall notify the SFC and publish a notice of suspension following the suspension, and at least once a month during the suspension, on its website at www.miraeasset.com.hk (the contents of which and of other websites referred to in this Prospectus have not been reviewed by the SFC) or in such other publications as the Manager decides.

No Units of a Sub-Fund will be issued or redeemed during any period of suspension of the determination of the Net Asset Value of the relevant Sub-Fund.

Issue Price and Redemption Value

The Issue Price which is the subject of a Creation Application during the Initial Offer Period of a Sub-Fund will be a fixed amount per Unit, or a percentage of the closing level of the relevant Index (expressed in the base currency of the relevant Sub-Fund) as at the last day of the Initial Offer Period, rounded to four decimal places (0.00005 or above being rounded up, and less than 0.00005 being rounded down), or such other amount from time to time determined by the Manager and the Trustee. The Issue Price during the Initial Offer Period of each Sub-Fund will be set out in the relevant Appendix.

After the expiry of the Initial Offer Period, the Issue Price of Units created and issued by a Creation

Application, will be the prevailing Net Asset Value of the relevant Sub-Fund as at the relevant Valuation Point divided by the total number of Units in issue rounded to the nearest four decimal places (0.00005 or above being rounded up, and less than 0.00005 being rounded down).

The Redemption Value on a Dealing Day shall be the prevailing Net Asset Value of the relevant Sub-Fund as at the relevant Valuation Point divided by the total number of Units in issue rounded to the nearest four decimal places (0.00005 or above being rounded up, and less than 0.00005 being rounded down).

The benefit of any rounding adjustments will be retained by the relevant Sub-Fund.

The latest Net Asset Value of the Units will be available on the Manager's website at www.miraeasset.com.hk (the contents of which and of other websites referred to in this Prospectus have not been reviewed by the SFC) or published in such other publications as the Manager decides.

Neither the Issue Price nor the Redemption Value takes into account Duties and Charges, Transaction Fees or fees payable by a Participating Dealer.

FEES AND EXPENSES

There are different levels of fees and expenses applicable to investing in a Sub-Fund as set out below, current as at this date of this Prospectus. Where any levels of fees and expenses applicable to a particular Sub-Fund differs from the following, such fees and expenses will be set out in full in the relevant Appendix.

(a) Fees and expenses payable by Participating Dealers on creations and redemptions (as applicable) of Units (applicable both during the Initial Offer Period and After Listing)	Amount
Transaction Fee and Service Agent's fee	HKD4,000 ¹ per Application and HKD1,000 ¹ per book-entry deposit and withdrawal transaction See Note ²
Registrar fee	HKD160 ³ per Application
Application cancellation fee	HKD12,000 ⁴ per Application
Extension Fee	HKD12,000 ⁵ per Application
Stamp duty	Nil
All other Duties and Charges incurred by the Trustee or the Manager in connection with the creation or redemption	As applicable
(b) Fees and expenses payable by investors	Amount
<i>(i) Fees payable by clients of the Participating Dealers in respect of creations and redemptions (as applicable) via the Participating Dealer (applicable both during the Initial Offer Period and After Listing)</i>	
Fees and charges imposed by the Participating Dealer ⁶	Such amounts as determined by the relevant Participating Dealer
<i>(ii) Fees payable by all investors in respect of dealings in the Units on SEHK (applicable After Listing)</i>	

¹ HKD4,000 is payable to the Trustee and HKD1,000 is payable to the Service Agent.

² The Transaction Fee of HKD4,000 is payable by a Participating Dealer to the Trustee for the benefit of the Trustee and/or Registrar. The Service Agent's fee of HKD1,000 is payable by the Participating Dealer to the Service Agent. The Service Agent will charge a fee for each book-entry deposit and withdrawal transaction. A Participating Dealer may pass on to the relevant investor such Transaction Fee.

³ The Registrar will charge each Participating Dealer a fee for each Creation Application and Redemption Application.

⁴ An application cancellation fee is usually payable to the Trustee for the account of the Registrar in respect of either a withdrawn or failed Creation Application or Redemption Application (other than in certain circumstances such as following a suspension of creations or redemptions by the Manager).

⁵ An Extension Fee is payable to the Trustee on each occasion the Manager, upon a Participating Dealer's request, grants the Participating Dealer an extended settlement in respect of a Creation Application or Redemption Application.

⁶ The Participating Dealer may increase or waive the level of its fees in its discretion. Information regarding these fees and charges is available upon request to the relevant Participating Dealer.

Brokerage fees	Market rates
Transaction levy	0.0027% ⁷
SEHK trading fee	0.005% ⁸
Stamp duty	Nil
Inter-counter transfers	HKD5 ⁹
(c) Fees and expenses payable by the Sub-Fund	(See further disclosure below)

No money should be paid to any intermediary in Hong Kong which is not licenced or registered to carry on Type 1 regulated activity under Part V of the SFO.

Fees and Expenses Payable by the Sub-Fund

Management fee

The Manager is entitled to receive a management fee of up to 2% per year of the Net Asset Value of each Sub-Fund. The current management fee percentage in respect of each Sub-Fund is set out in the relevant Appendix and is accrued daily and calculated as at each Dealing Day and payable monthly in arrears. This fee is payable out of the Trust Fund.

The Manager may pay a distribution fee to any distributor or sub-distributors of the Trust out of the management fees it receives from the Trust. A distributor may re-allocate an amount of the distribution fee to the sub-distributors.

Trustee's and Registrar's fee

The Trustee receives out of the assets of each Sub-Fund a monthly trustee's fee, payable in arrears, accrued daily and calculated as at each Dealing Day of up to 1.00% per year of the Net Asset Value of a Sub-Fund. The Trustee fee percentage in respect of each Sub-Fund is set out in the relevant Appendix.

The Trustee shall also be entitled to be reimbursed out of the assets of the relevant Sub-Fund all out-of-pocket expenses incurred.

The Registrar is entitled to a registrar fee and a Transaction Fee for any creation and redemption of Units of the relevant Sub-Fund as set out in the relevant Appendix.

Service Agent's fee

The Service Agent is entitled to receive a monthly reconciliation fee of HKD5,000 from the Manager. The Manager shall pass on to the relevant Sub-Fund such reconciliation fee.

For any period less than a month, the reconciliation fee is on a pro-rata basis and accrues on a daily basis. The Trustee, on behalf of the Trust, will pay all other expenses chargeable by the Service Agent in connection with the Service Agent's role.

⁷ Transaction levy of 0.0027% of the trading price of the Units, payable by the buyer and the seller.

⁸ Trading fee of 0.005% of the trading price of the Units, payable by the buyer and the seller.

⁹ This fee is only applicable to Sub-Funds which have adopted a Dual Counter and have RMB and HKD traded Units. HKSCC will charge each CCASS participant a fee of HKD5 per instruction for effecting an inter-counter transfer of a Sub-Fund between one counter and the other counter. Investors should check with their brokers regarding any additional fees.

Estimated ongoing charges

The estimated ongoing charges (where a Sub-Fund is newly established) or actual ongoing charges of a Sub-Fund where applicable, which are the sum of anticipated ongoing expenses of the relevant Sub-Fund expressed as a percentage of the estimated average Net Asset Value of the relevant Sub-Fund, are set out in the relevant product key facts statement. Where a Sub-Fund is newly established the Manager will make a best estimate of the ongoing charges and keep such estimate under review. The establishment costs of a Sub-Fund will also be included in the ongoing charges calculation. Ongoing expenses are generally payments deducted from the assets of a Sub-Fund where these are permitted by the Trust Deed, the Code and the law. These include all types of cost borne by a Sub-Fund, whether incurred in its operation or the remuneration of any party. The ongoing charges do not represent the estimated tracking error.

Other expenses

The Sub-Fund(s) will bear all operating costs relating to the administration of the Sub-Fund(s) including but not limited to stamp and other duties, governmental charges, brokerage fees, commissions, exchange costs and commissions, bank charges and other costs and expenses payable in respect of the acquisition, holding and realisation of any investment or any monies, deposit or loan, charges and expenses of its legal counsel, auditors and other professionals, index licensing fees, the costs in connection with maintaining a listing of the Units on the SEHK or other exchange (including, if considered appropriate by the Manager, any additional costs of determining the stock code by drawing from special ballot pool, which are estimated to be HKD500,000) and maintaining the Trust's and the Sub-Fund's authorisation under the SFO, costs incurred in the preparation, printing and updating of any offering documents and the costs incurred in the preparation of supplemental deeds, any disbursements or out-of-pocket expenses properly incurred on behalf of the Sub-Fund(s) by the Trustee, the Manager or the Registrar or any of its service providers, the expenses incurred in convening meetings of Unitholders, preparing, printing and distributing annual accounts and interim unaudited reports and other circulars relating to the Sub-Fund(s) and the expenses of publishing Unit prices.

Establishment costs

The cost of establishing the Trust and Mirae Asset Horizons S&P Crude Oil Futures Enhanced ER ETF including the preparation of this Prospectus, inception fees, the costs of seeking and obtaining the listing and authorisation by the SFC and all initial legal and printing costs will not exceed HKD1.85 million and will be borne by Mirae Asset Horizons S&P Crude Oil Futures Enhanced ER ETF (unless otherwise determined by the Manager and set out in the relevant Appendix of any subsequent Sub-Fund) and amortised over the first five financial years of Mirae Asset Horizons S&P Crude Oil Futures Enhanced ER ETF. The attention of investors is drawn to the risk factor entitled "Valuation and Accounting Risk".

Promotional Expenses

The Sub-Fund(s) will not be responsible for any promotional expenses including those incurred by any marketing agents and any fees imposed by such marketing agents on their customers investing in the Sub-Fund(s) will not be paid (either in whole or in part) out of the Trust Fund.

Increase in fees

The current fees in respect of each Sub-Fund payable to the Manager and the Trustee as described in the relevant Appendix may be increased on one month's notice to Unitholders (or such shorter period as approved by the SFC), subject to the maximum rates set out in the Trust Deed. In the event that such fees are to be increased beyond the maximum rates set out in the Trust Deed, such increase will be subject to the Unitholders' and the SFC's approval.

RISK FACTORS

An investment in any Sub-Fund carries various risks. Each of these may affect the Net Asset Value, yield, total return and trading price of the Units. There can be no assurance that the investment objective of a Sub-Fund will be achieved. Investors should carefully evaluate the merits and risks of an investment in the relevant Sub-Fund in the context of your overall financial circumstances, knowledge and experience as an investor. The risk factors set forth below are the risks which are believed by the Manager and its directors to be relevant and presently applicable to all Sub-Funds. You should refer to additional risk factors, specific to each Sub-Fund, as set out in the relevant Appendix. In particular, further risk factors applicable to the Sub-Funds which adopt a Dual Counter (in addition to these below) are set out in the relevant Appendix.

Risks associated with investment in any Sub-Fund

Investment Objective Risk

There is no assurance that the investment objective of a Sub-Fund will be achieved. Whilst it is the intention of the Manager to implement strategies which are designed to minimise tracking error, there can be no assurance that these strategies will be successful. It is possible that you as an investor may lose a substantial proportion or all of your investment in a Sub-Fund where the relevant Index value declines. As a result, each investor should carefully consider whether you can afford to bear the risks of investing in the relevant Sub-Fund.

Market Risk

The Net Asset Value of each Sub-Fund will change with changes in the market value of the Securities and/or Futures Contracts it holds. The price of Units and the income from them may go down as well as up. There can be no assurance that an investor will achieve profits or avoid losses, significant or otherwise. The capital return and income of the Sub-Fund is based on the capital appreciation and income on the Securities and/or Futures Contracts it holds, less expenses incurred. A Sub-Fund's return may fluctuate in response to changes in such capital appreciation or income. Furthermore, each Sub-Fund may experience volatility and decline in a manner that broadly corresponds with the relevant Index. Investors in a Sub-Fund are exposed to the same risks that investors who invest directly in the underlying Securities and/or Futures Contracts would face. These risks include, for example, interest rate risks (risks of falling portfolio values in a rising interest rate market); income risks (risks of falling incomes from a portfolio in a falling interest rate market); and credit risk (risk of a default by the underlying issuer of a Security that forms part of the Index).

Asset Class Risk

Although the Manager is responsible for the continuous supervision of the investment portfolio of the Sub-Fund(s), the returns from the types of Securities and/or Futures Contracts in which the Sub-Fund invests may underperform or outperform returns from other Securities and/or Futures Contracts markets or from investment in other assets. Different types of Securities and/or Futures Contracts tend to go through cycles of out-performance and underperformance when compared with other general Securities and/or Futures Contracts markets.

Passive Investment Risk

The Sub-Funds are not actively managed. Accordingly, the Sub-Funds may be affected by a decline in the market segments relating to the relevant Index or Indices. The Manager will not take defensive positions in declining markets. Investors may lose a significant part of their respective investments if the Index falls. Each Sub-Fund invests in the Securities and/or Futures Contracts included in or representative of the relevant Index regardless of their investment merit, except to the extent of any representative sampling strategy. The Manager does not attempt to select Securities or Futures Contracts individually or to take defensive positions in declining markets. Investors should note that the lack of discretion on the part of the Manager to adapt to market changes due to the inherent investment nature of the Sub-Funds will mean that falls in the Index or Indices are expected to result in corresponding falls in the value of the Sub-Funds, and investors

may lose substantially all of their investment.

Possible Business Failure Risk

Global markets may experience very high level of volatility and an increased risk of corporate failures. The insolvency or other corporate failures of any one or more of the constituents of the Index may have an adverse effect on the Index's and therefore the relevant Sub-Fund's performance. You may lose money by investing in the Sub-Fund(s).

Management Risk

Because there can be no guarantee that each Sub-Fund will fully replicate the relevant Index, it is subject to management risk. This is the risk that the Manager's strategy, the implementation of which is subject to a number of constraints, may not produce the intended results. In addition, the Manager has absolute discretion to exercise Unitholders' rights with respect to Securities and/or Futures Contracts comprising the Sub-Fund. There can be no guarantee that the exercise of such discretion will result in the investment objective of the Sub-Fund(s) being achieved.

Securities Risk

The investments of the Sub-Fund(s) are subject to risks inherent in all Securities (including settlement and counterparty risks). The value of holdings may fall as well as rise. The global markets may experience very high levels of volatility and instability, resulting in higher levels of risk than is customary (including settlement and counterparty risks).

Equity Risk

Investing in equity Securities may offer a higher rate of return than those investing in short term and longer term debt securities. However, the risks associated with investments in equity Securities may also be higher, because the investment performance of equity Securities depends upon factors which are difficult to predict. Such factors include the possibility of sudden or prolonged market declines and risks associated with individual companies. The fundamental risk associated with any equity portfolio is the risk that the value of the investments it holds might suddenly and substantially decrease in value.

Tracking Error Risk

The Net Asset Value of a Sub-Fund may not correlate exactly with its Index. Factors such as the fees and expenses of a Sub-Fund, imperfect correlation between a Sub-Fund's assets and the Securities or Futures Contracts constituting its Index, inability to rebalance a Sub-Fund's holdings of Securities or Futures Contracts in response to changes in the constituents of the Index, rounding of Security or Futures Contracts prices, changes to the Indices and regulatory policies may affect the Manager's ability to achieve close correlation with the relevant Index. Further, if the relevant Index is a gross total return index the relevant Sub-Fund may receive income (such as interest and dividends) from its assets, which is subject to withholding tax. The Manager may, where specified in the relevant Appendix and subject to the approval of the SFC if necessary, switch between full replication and representative sampling strategies in order to minimise tracking error, however notwithstanding this, because the Manager will not have other strategies to minimise tracking error, these factors may cause a Sub-Fund's returns to deviate from its Index.

Concentration Risk

A Sub-Fund may be subject to concentration risk as a result of tracking the performance of a single geographical region. Such a Sub-Fund is likely to be more volatile than a broad-based fund, such as a global or regional equity fund, as it is more susceptible to fluctuations in value resulting from adverse conditions in the relevant region.

Trading Risk

While the creation/redemption feature of each Sub-Fund is designed to make it likely that Units will

trade close to their Net Asset Value, disruptions to creations and redemptions (for example, as a result of imposition of capital controls by a foreign government) may result in trading prices that differ significantly from the Net Asset Value). The secondary market prices of Units will fluctuate in accordance with changes in the Net Asset Value and supply and demand on any exchange on which Units are listed. In addition, when buying or selling Units on the SEHK additional charges (such as brokerage fees) mean that an investor may pay more than the Net Asset Value per Unit when buying Units on the SEHK and may receive less than the Net Asset Value per Unit when selling Units on the SEHK. The Manager cannot predict whether Units will trade below, at, or above their Net Asset Value. Since, however, Units must be created and redeemed in Application Unit size (unlike shares of many closed-end funds, which frequently trade at appreciable discounts from, and sometimes at premiums to, their Net Asset Value) the Manager believes that ordinarily large discounts or premiums to the Net Asset Value of Units should not be sustained. If the Manager suspends creations and/or redemptions of Units, the Manager anticipates that there may be larger discounts or premiums as between the secondary market price of Units and the Net Asset Value.

Loss of Capital Risk

There is no guarantee that a Sub-Fund's investments will be successful. In addition, trading errors are an intrinsic factor in any investment process, and will occur, notwithstanding the execution of due care and special procedures designed to prevent such errors.

No Trading Market in the Units Risk

Although the Units are listed on the SEHK and one or more Market Makers have been appointed, there may be no liquid trading market for the Units or that such Market Maker(s) may cease to fulfil that role. Further, there can be no assurance that Units will experience trading or pricing patterns similar to those of exchange traded funds which are issued by investment companies in other jurisdictions or those traded on the SEHK which are based upon indices other than the Index.

Foreign exchange risk

An investment in the Units of a Sub-Fund may directly or indirectly involve exchange rate risk. The constituents of the Index may be denominated in currencies other than the base currency of the Sub-Fund. Fluctuations in the exchange rates between such currency and the base currency may have an adverse impact on the performance of the Sub-Fund.

Derivative Instruments Risk

The Manager may invest a Sub-Fund in constituents of the relevant Index through derivative instruments. A derivative instrument is a financial contract or instrument the value of which depends on, or is derived from, the value of an underlying asset such as a Security and/or Futures Contract or an index and so have a high degree of price variability and are subject to occasional rapid and substantial changes. Compared to conventional Securities, derivative instruments can be more sensitive to changes in interest rates or to sudden fluctuations in market prices due to both the low margin deposits required, and the extremely high degree of leverage involved in their pricing. As a result, a relatively small price movement in a derivative instrument may result in immediate and substantial loss (or gain) to the relevant Sub-Fund. The relevant Sub-Fund's losses may be greater if it invests in derivative instruments than if it invests only in conventional Securities.

There is also no active market in derivative instruments and therefore investment in derivative instruments can be illiquid. In order to meet redemption requests, the relevant Sub-Fund relies upon the issuer of the derivative instruments to quote a price to unwind any part of the derivative instruments that will reflect the market liquidity conditions and the size of the transaction.

In addition, many derivative instruments are not traded on exchanges. As a result, if the relevant Sub-Fund engages in transactions involving derivative instruments, it will be subject to the risk of the inability or refusal to perform such contracts by the counterparties with which the relevant Sub-Fund trades, and as such the relevant Sub-Fund may suffer a total loss of the relevant

Sub-Fund's interest in the derivative instrument. This risk is also aggregated by the fact that over-the-counter derivatives markets are generally not regulated by government authorities and participants in these markets are not required to make continuous markets in the contracts they trade.

An investment in the derivative instruments does not entitle the derivative instruments holder to the beneficial interest in the shares nor to make any claim against the company issuing the shares. There can be no assurance that the price of the derivative instruments will equal the underlying value of the company or securities market that it may seek to replicate.

Where the Manager invests the relevant Sub-Fund's assets in derivative instruments that are not listed, quoted or dealt in on a market, those derivative instruments should comprise no more than 15% of the relevant Sub-Fund's Net Asset Value. The exposure of a Sub-Fund to derivative instruments is also subject to the other applicable investment restrictions set out in this Prospectus and the relevant Appendix.

Indemnity Risk

Under the Trust Deed, the Trustee and the Manager have the right to be indemnified against any liability for breach of trust or any liability which by virtue of any rule of law would otherwise attach to them in performing their respective duties except as a result of their own negligence, fraud, default, breach of duty or trust of which they may be liable in relation to their duties. Any reliance by the Trustee or the Manager on the right of indemnity would reduce the assets of the relevant Sub-Fund and the value of the Units.

Dividends May Not be Paid Risk

Whether a Sub-Fund will pay distributions on Units is subject to the Manager's distribution policy (as described in the relevant Appendix). If a Sub-Fund intends to pay dividends, its ability to do so mainly depends on dividends declared and paid in respect of Securities held by the Sub-Fund, where the Sub-Fund holds Securities as part of its investment strategy. In addition, dividends received by a Sub-Fund may be applied towards meeting the costs and expenses of that Sub-Fund. Dividend payment rates in respect of such Securities will depend on factors beyond the control of the Manager or Trustee including, general economic conditions, and the financial position and dividend policies of the relevant underlying entities. There can be no assurance that such entities will declare or pay dividends or distributions.

Possible Early Termination of a Sub-Fund Risk

A Sub-Fund may be terminated early under certain circumstances, including but not limited to (i) the aggregate Net Asset Value of all the Units is less than HKD500 million or such amount specified in the relevant Appendix or (ii) any law is passed or amended or regulatory directive or order is imposed which renders it illegal or in the opinion of the Manager, impracticable or inadvisable to continue the relevant Sub-Fund or (iii) within a reasonable time and using commercially reasonable endeavours, the Manager is unable to find a person acceptable to act as the new trustee after deciding to remove the Trustee in accordance with the Trust Deed or (iv) the relevant Index is no longer available for benchmarking or if the Units are no longer listed on the SEHK or any other Recognised Stock Exchange or (v) at any time, the relevant Sub-Fund ceases to have any Participating Dealer. Upon a Sub-Fund being terminated, the Trustee will distribute the net cash proceeds (if any) derived from the realisation of the investments comprised in the relevant Sub-Fund to the Unitholders in accordance with the Trust Deed. Any such amount distributed may be more or less than the capital invested by the Unitholder.

Risks associated with market trading

Absence of Active Market and Liquidity Risks

Although Units of each Sub-Fund are listed for trading on the SEHK, there can be no assurance that an active trading market for such Units will develop or be maintained. In addition, if the

underlying Securities or Futures Contracts which comprise the relevant Index have limited trading markets, or if the spreads are wide, this may adversely affect the price of the Units and the ability of an investor to dispose of its Units at the desired price. If an investor needs to sell his, her or its Units at a time when no active market for them exists, the price received for the Units — assuming an investor is able to sell them — is likely to be lower than the price received if an active market did exist.

Suspension of Trading Risk

Investors and potential investors will not be able to buy nor sell Units on the SEHK during any period in which trading of the Units is suspended. The SEHK may suspend the trading of Units whenever the SEHK determines that it is appropriate and in the interest of a fair and orderly market to protect investors. The subscription and redemption of Units may also be suspended if the trading of Units is suspended.

Effect of Redemptions Risk

If significant redemptions of Units are requested by the Participating Dealers, it may not be possible to liquidate the relevant Sub-Fund's investments at the time such redemptions are requested or the Manager may be able to do so only at prices which the Manager believes does not reflect the true value of such investments, resulting in an adverse effect on the return to investors. Where significant redemptions of Units are requested by the Participating Dealers, the right of Participating Dealers to require redemptions in excess of 10% of the total number of Units in the Sub-Fund then in issue (or such higher percentage as the Manager may determine) may be deferred, or the period for the payment of redemption proceeds may be extended.

In addition, the Manager may also in certain circumstances suspend the determination of the Net Asset Value of a Sub-Fund for the whole or any part of any period. Please see the section on "Determination of Net Asset Value" for further details.

Units May Trade at Prices Other than Net Asset Value Risk

Units may trade on the SEHK at prices above or below the most recent Net Asset Value. The Net Asset Value per Unit of each Sub-Fund is calculated at the end of each Dealing Day and fluctuates with changes in the market value of the relevant Sub-Fund's holdings. The trading prices of the Units fluctuate continuously throughout the trading hours based on market supply and demand rather than Net Asset Value. The trading price of the Units may deviate significantly from Net Asset Value particularly during periods of market volatility. Volatility on the SEHK as well as supply and demand for Units traded on the SEHK may lead to the Units of the relevant Sub-Fund trading at a premium or discount to the Net Asset Value. On the basis that Units can be created and redeemed in Application Units at Net Asset Value, the Manager believes that large discounts or premiums to Net Asset Value are not likely to be sustained over the long-term. While the creation/redemption feature is designed to make it likely that the Units will normally trade at prices close to the relevant Sub-Fund's next calculated Net Asset Value, trading prices are not expected to correlate exactly with the relevant Sub-Fund's Net Asset Value due to reasons relating to timing as well as market supply and demand factors. In addition, disruptions to creations and redemptions or the existence of extreme market volatility may result in trading prices that differ significantly from Net Asset Value. In particular, if an investor purchases Units at a time when the market price is at a premium to Net Asset Value or sells when the market price is at a discount to Net Asset Value, then the investor may sustain losses.

Borrowing Risks

The Trustee, on the written instructions of the Manager, may borrow for the account of a Sub-Fund (up to 10% of the Net Asset Value of each Sub-Fund unless otherwise specified in the Appendix) for various reasons, such as facilitating redemptions or to acquire investments for the account of the relevant Sub-Fund. Borrowing involves an increased degree of financial risk and may increase the exposure of a Sub-Fund to factors such as rising interest rates, downturns in the economy or

deterioration in the conditions of the assets underlying its investments. There can be no assurance that a Sub-Fund will be able to borrow on favourable terms, or that the relevant Sub-Fund's indebtedness will be accessible or be able to be refinanced by the relevant Sub-Fund at any time.

Cost of Trading Units Risk

As investors will pay certain charges (e.g. trading fees and brokerage fees) to buy or sell Units on the SEHK, investors may pay more than the Net Asset Value per Unit when buying Units on the SEHK, and may receive less than the Net Asset Value per Unit when selling Units on the SEHK. In addition, investors on the secondary market will also incur the cost of the trading spread, being the difference between what investors are willing to pay for the Units (bid price) and the price at which they are willing to sell Units (ask price). Frequent trading may detract significantly from investment results and an investment in Units may not be advisable particularly for investors who anticipate making small investments regularly.

No Right to Control the Sub-Fund's Operation Risk

Investors will have no right to control the daily operations, including investment and redemption decisions, of any Sub-Fund.

Secondary Market Trading Risk

Units in a Sub-Fund may trade on the SEHK when the relevant Sub-Fund does not accept orders to subscribe or redeem Units. On such days, Units may trade in the secondary market with more significant premiums or discounts than might be experienced on days when the relevant Sub-Fund accepts subscription and redemption orders.

Reliance on the Manager Risk

Unitholders must rely on the Manager in formulating the investment strategies and the performance of each Sub-Fund is largely dependent on the services and skills of its officers and employees. In the case of loss of service of the Manager or any of its key personnel, as well as any significant interruption of the Manager's business operations or in the extreme case of the insolvency of the Manager, the Trustee may not find successor managers with the requisite skills, qualifications and the new appointment may not be on equivalent terms or of similar quality.

Reliance on Market Makers Risk

Although it is a requirement that the Manager ensures that at least one Market Maker will maintain a market for the Units of each Sub-Fund or, where there is a Dual Counter, for the Units traded in each counter, it should be noted that liquidity in the market for the Units may be adversely affected if there is no Market Maker for Units or, where there is a Dual Counter, no Market Maker for the HKD traded Units or no Market Maker for the RMB traded Units of the relevant Sub-Fund. The Manager will seek to mitigate this risk by ensuring at least one Market Maker for the Units of the Sub-Fund or for the Units traded in each counter (where there is a Dual Counter) gives not less than 3 months' notice prior to terminating market making under the relevant market making agreement(s). There may be less interest by potential market makers in making a market in Units denominated or traded in RMB. Furthermore, any disruption to the availability of RMB may adversely affect the capability of Market Makers in providing liquidity for RMB traded Units. It is possible that there is only one SEHK Market Maker to a Sub-Fund or to a counter of a Sub-Fund or the Manager may not be able to engage a substitute Market Maker within the termination notice period of a Market Maker, and there is also no guarantee that any market making activity will be effective.

Reliance on Participating Dealers Risk

The creation and redemption of Units may only be effected through Participating Dealers. A Participating Dealer may charge a fee for providing this service. Participating Dealers will not be

able to create or redeem Units during any period when, amongst other things, dealings on the SEHK are restricted or suspended, settlement or clearing of Securities through the CCASS is disrupted or the Index is not compiled or published. In addition, Participating Dealers will not be able to issue or redeem Units if some other event occurs that impedes the calculation of the Net Asset Value of the relevant Sub-Fund or disposal of the relevant Sub-Fund's Securities or Futures Contracts cannot be effected. Since the number of Participating Dealers at any given time will be limited, and there may even be only one Participating Dealer at any given time, there is a risk that investors may not always be able to create or redeem Units freely. Where a Participating Dealer appoints an agent or delegate (who is a CCASS participant) to perform certain CCASS-related functions, if the appointment is terminated and the Participating Dealer fails to appoint an alternative agent or delegate, or if the agent or delegate ceases to be a CCASS participant, the creation or realisation of Units by such Participating Dealer may also be affected.

Trading Time Differences Risk

As a stock exchange or futures exchange may be open when the Units are not priced, the value of any Security or Futures Contract which comprises the Index may change when investors may not be able to buy or sell Units. Further the price of Securities or Futures Contracts may not be available during part of the SEHK trading day due to trading hour differences which may result in the trading price of Units deviating from the Net Asset Value per Unit.

Risks associated with the Indices

Fluctuations Risk

The performance of the Units should, before fees and expenses, correspond closely with the performance of the Index. If the Index experiences volatility or declines, the price of the Units will vary or decline accordingly.

Licence to Use Index May be Terminated Risk

The Manager is granted a licence by the Index Provider to use each Index to create the relevant Sub-Fund based on the Index and to use certain trade marks and any copyright in the Index. A Sub-Fund may not be able to fulfil its objective and may be terminated if the licence agreement is terminated. The initial term of the licence agreement may be limited in period and thereafter renewable for only short periods. There can be no guarantee that the relevant licence agreement will be perpetually renewed. For further information on the grounds for terminating the licence agreement, please refer to the section on "Index Licence Agreement" in the relevant Appendix. Although the Manager will seek to find a replacement Index, a Sub-Fund may also be terminated if the relevant Index ceases to be compiled or published and there is no replacement Index using the same or substantially similar formula for the method of calculation as used in calculating the Index.

Compilation of Index Risk

The Securities and/or Futures Contracts of each Index are determined and composed by the relevant Index Provider without regard to the performance of the relevant Sub-Fund. The Sub-Fund(s) is/are not sponsored, endorsed, sold or promoted by the Index Provider(s). Each Index Provider makes no representation or warranty, express or implied, to investors in the Sub-Fund(s) or other persons regarding the advisability of investing in Securities and/or Futures Contracts generally or in the Sub-Fund(s) particularly. Each Index Provider has no obligation to take the needs of the Manager or investors in the Sub-Fund(s) into consideration in determining, composing or calculating the Index or Indices. There is no assurance that an Index Provider will compile the relevant Index accurately, or that the Index will be determined, composed or calculated accurately. In addition, the process and the basis of computing and compiling the Index and any of its related formulae, constituent companies and factors may at any time be changed or altered by the Index Provider without notice. Consequently there can be no guarantee that the actions of an Index Provider will not prejudice the interests of the relevant Sub-Fund, the Manager or investors.

Composition of an Index May Change Risk

The Securities and/or Futures Contracts constituting an Index will change as the Securities and/or Futures Contracts of the Index are delisted, or as the Securities and/or Futures Contracts mature or are redeemed or as new Securities and/or Futures Contracts are included in the Index. When this happens the weightings or composition of the Securities and/or Futures Contracts owned by the Sub-Fund(s) will change as considered appropriate by the Manager to achieve the investment objective. Thus, an investment in Units will generally reflect the Index as its constituents change and not necessarily the way it is comprised at the time of an investment in Units. However, there can be no guarantee that the Sub-Fund(s) will, at any given time accurately reflect the composition of the Index (refer to the section on “Tracking error risk”).

Risks associated with regulation

Withdrawal of SFC Authorisation Risk

The Trust and each Sub-Fund have been authorised as a collective investment scheme under the Code by the SFC under Section 104 of the SFO. SFC authorisation is not a recommendation or endorsement of a scheme nor does it guarantee the commercial merits of a scheme or its performance. This does not mean the scheme is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors. The SFC reserves the right to withdraw the authorisation of the Trust or any Sub-Fund if the Index is no longer considered acceptable or impose such conditions as it considers appropriate or to withdraw any waiver from the Code or revise the same. If the Manager does not wish the Trust or any Sub-Fund to continue to be authorised by the SFC, the Manager will give Unitholders at least three months’ notice of the intention to seek SFC’s withdrawal of such authorisation. In addition, any authorisation granted by the SFC may be subject to certain conditions or waivers from the Code which may be withdrawn or varied by the SFC. If, as a result of such withdrawal or variation of conditions or waivers from the Code, it becomes illegal, impractical or inadvisable to continue the Trust or any Sub-Fund, the Trust or the relevant Sub-Fund (as applicable) will be terminated.

General Legal and Regulatory Risk

Each Sub-Fund must comply with regulatory constraints or changes in the laws affecting it or its investment restrictions which might require a change in the investment policy and objectives followed by the Sub-Fund. Furthermore, such change in the laws may have an impact on the market sentiment which may in turn affect the performance of the Index and as a result, the performance of the relevant Sub-Fund. It is impossible to predict whether such an impact caused by any change of law will be positive or negative for the Sub-Fund. In the worst case scenario, a Unitholder may lose a material part of its investments in a Sub-Fund.

Units May be Delisted From the SEHK Risk

The SEHK imposes certain requirements for the continued listing of securities, including the Units, on the SEHK. Investors cannot be assured that a Sub-Fund will continue to meet the requirements necessary to maintain the listing of Units on the SEHK or that the SEHK will not change the listing requirements. If the Units of the Sub-Fund are delisted from the SEHK, Unitholders will have the option to redeem their Units by reference to the Net Asset Value of the Sub-Fund. Where the Sub-Fund remains authorised by the SFC, such procedures required by the Code will be observed by the Manager including as to notices to Unitholders, withdrawal of authorisation and termination, as may be applicable. Should the SFC withdraw authorisation of a Sub-Fund for any reason it is likely that Units may also have to be delisted.

Taxation Risk

Investing in a Sub-Fund may have tax implications for a Unitholder depending on the particular circumstances of each Unitholder. Prospective investors are strongly urged to consult their own tax advisers and counsel with respect to the possible tax consequences to them of an investment

in the Units. Such tax consequences may differ in respect of different investors.

FATCA Related Risks

The US Foreign Account Tax Compliance Act (“FATCA”) imposes a 30% withholding tax on certain US source withholdable payments to foreign financial institution(s) (the “FFI” or “FFIs”) (such as the Sub-Funds) that are not FATCA compliant. The US Internal Revenue Service (the “IRS”) has released regulations and other guidance that provide for the phased implementation of FATCA, whereby an FFI that is not otherwise exempt or treated as deemed-compliant should register with the IRS, perform due diligence, withholding and reporting obligations with respect to financial accounts maintained by the FFI. The United States Department of the Treasury and Hong Kong have entered into an intergovernmental agreement based on the “Model 2” format (“Model 2 IGA”) effective from 30 June 2014. In order to comply with FATCA and to avoid the above-mentioned withholding tax, the Trust and each Sub-Fund have completed their FATCA registration with the IRS. Under the Model 2 IGA, the Sub-Funds will, with the consent from the Unitholders, provide the IRS with information on the identity, account balance and income received by Unitholders that are specified US persons (within the meaning of the Internal Revenue Code) (“Specified US Persons”) or, in case of a Non-US Entity that is classified as passive nonfinancial foreign entity (“Passive NFFE”), on information of any controlling persons that are Specified US Persons. Please note that Unitholders that are found reportable but do not provide consent to the Sub-Funds would still be reported to the IRS. Although the Manager, the Trust and the Sub-Funds will endeavor to satisfy any obligations imposed on the Trust or Sub-Funds to avoid the imposition of FATCA withholding tax, no assurance can be given that the Trust and each Sub-Fund will be able to fully satisfy these obligations. If any of the Sub-Funds becomes subject to a withholding tax as a result of FATCA, the Net Asset Value of such Sub-Fund may be adversely affected and such Sub-Fund and its Unitholders may suffer material loss.

The Trust’s and each Sub-Fund’s ability to comply with FATCA will depend on each Unitholder providing the Manager with information that the Manager requests concerning the Unitholder or its direct and indirect owners, if applicable. As at the date of this Prospectus, all Units in the Sub-Funds are registered in the name of HKSCC Nominees Limited. It is the Manager’s understanding that HKSCC Nominees Limited has registered as a participating foreign financial institution under the Model 2 IGA.

Please also refer to the sub-section entitled “FATCA and Compliance with US Withholding Requirements” under the section headed “Hong Kong Taxation and FATCA” in this Prospectus for further details on FATCA and related risks.

All prospective investors and Unitholders should consult with their own tax advisers regarding the potential implications of FATCA and the tax consequences on their investments in the Sub-Funds. Unitholders who hold their Units through intermediaries should also confirm the FATCA compliance status of those intermediaries.

Valuation and Accounting Risk

The Manager intends to adopt IFRS in drawing up the annual financial accounts of each Sub-Fund. However, the calculation of the Net Asset Value in the manner described under the section on “Determination of Net Asset Value” will not necessarily be in compliance with generally accepted accounting principles, that is, IFRS. Investors should note that under IFRS, establishment costs should be expensed as incurred and that amortisation of the expenses of establishing sub-funds is not in accordance with IFRS; however, the Manager has considered the impact of such non-compliance and has considered that it will not have a material impact on the financial statements of Sub-Funds. To the extent that the basis adopted by a Sub-Fund for subscription and redemption purposes deviates from IFRS, the Manager may make necessary adjustments in the annual financial accounts for the financial accounts to be in compliance with IFRS. Any such adjustments will be disclosed in the annual financial accounts, including a reconciliation.

Contagion Across Sub-Funds Risk

The Trust Deed allows the Trustee and the Manager to issue Units in separate Sub-Funds as

separate trusts. The Trust Deed provides for the manner in which the liabilities are to be attributed across the various Sub-Fund(s) under the Trust (liabilities are to be attributed to the specific Sub-Fund in respect of which the liability was incurred). A person to whom such a liability is owed has no direct recourse against the assets of the relevant Sub-Fund (in the absence of the Trustee granting that person a security interest). However, each of the Trustee and the Manager will have a right of reimbursement and indemnity out of the assets of the Trust as a whole or any part thereof, against any action, costs, claims, damages, expenses or demands relating to the Trust as a whole, which may result in Unitholders of one Sub-Fund being compelled to bear the liabilities incurred in respect of another Sub-Fund in which such Unitholders do not themselves own Units, if there are insufficient assets in that other Sub-Fund to satisfy the amount due to the Trustee or the Manager (as the case may be). Accordingly, there is a risk that liabilities of one Sub-Fund may not be limited to that particular Sub-Fund and may be required to be paid out of one or more other Sub-Fund.

Non-Recognition of Sub-Fund Segregation Risk

The assets and liabilities of each of the Sub-Funds under the Trust will be tracked, for book keeping purposes, separately from the assets and liabilities of any other Sub-Funds, and the Trust Deed provides that the assets of each of the Sub-Funds should be segregated as separate trusts from each other. There is no guarantee that the courts of any jurisdiction outside Hong Kong will respect the limitations on liability and that the assets of any particular Sub-Fund will not be used to satisfy the liabilities of any other Sub-Fund.

MANAGEMENT OF THE TRUST

The Manager

The Manager of the Trust and each Sub-Fund is Mirae Asset Global Investments (Hong Kong) Limited 未來資產環球投資(香港)有限公司, a company incorporated in 2003 under the laws of Hong Kong and licenced by the SFC to carry on Types 1 (dealing in securities), 4 (advising on securities) and 9 (asset management) regulated activities in Hong Kong under the SFO.

The Manager is part of the Mirae Asset Global Investments Group, ("Mirae Asset Group"), which was the first to open up the mutual fund market in Korea in 1998. Currently, Mirae Asset Group has a presence in Hong Kong (as its global headquarter), Australia, Brazil, Canada, China, India, Taiwan, United Kingdom, USA and Vietnam in addition to its home office in Korea. The Mirae Asset Group has one of the largest teams of investment professionals globally dedicated to asset management in Asia and other emerging markets.

The Manager is a wholly-owned subsidiary of Mirae Asset Global Investments Co., Ltd. ("Mirae Asset"), which is a company incorporated in Korea.

The Manager will manage each Sub-Fund and continuously supervise the portfolio of each Sub-Fund. In addition the Manager will be primarily responsible for portfolio composition file generation, cash management, trade execution and instructing money transfers.

The Manager has in place the necessary operating systems for creation, redemption and operation of each Sub-Fund.

The Manager has a risk management policy which enables it to monitor and measure at any time the risk of the financial derivative instruments used by any Sub-Fund for investment purposes. Each Sub-Fund is subject to daily risk management and control procedures such as, but not limited to:

- (A) daily calculation of value at risk (a methodology used to estimate the maximum amount of portfolio losses under normal market conditions);
- (B) limitation on the percentage of the Net Asset Value committed as margin for all futures or options contracts;
- (C) liquidity guidelines on each open futures or option contract such as maximum holding compared to daily average volume for the contract;
- (D) diversification guidelines per futures or option contract (limitation on the percentage of the Net Asset Value committed as margin for each single futures or option contract); and
- (E) historical and hypothetical stress tests which aim to simulate adverse market scenarios.

The Manager is also manager of the following exchange traded funds: Mirae Asset Horizons KOSPI 200 ETF, Mirae Asset Horizons S&P Emerging Asia Consumer ETF, Mirae Asset Horizons S&P Global Consumer Brands ETF, Mirae Asset Horizons MSCI China ETF, Mirae Asset Horizons Hang Seng High Dividend Yield ETF, Mirae Asset Horizons CSI 300 ETF and Mirae Asset Horizons S&P Asia ex Japan Healthcare ETF.

The directors of the Manager are as follows:

Park, Hyeon Joo

Mr. Hyeon Joo Park is the founder and Chairman of Mirae Asset Financial Group (the "Group"), one of the leading independent financial services groups in Asia. He had the vision to establish the Group in 1997 amidst the Asian Financial Crisis and was the first to launch retail mutual funds

in South Korea in 1998. Mirae Asset Global Investments Co., Ltd (“Mirae Asset”), the asset management arm of the Group, is one of the market leaders in the Korean mutual fund industry today, and Mr. Park has built Mirae Asset into one of the largest investors in emerging market equities.

Mr. Park has a Bachelor of Business Administration degree from Korea University, Korea and attended the Advanced Management Program at Harvard Business School, United States in 2002. Numerous awards and honors have been bestowed on Mr. Park such as “Best Entrepreneur in 2013” by Luxman Magazine of Maeil Economic Daily; “Best Financial Investor in 2011” by the Korea Financial Investment Association; “Master Entrepreneur of the Year in 2009” by Ernst & Young; “The Most Respectable CEO in 2008” by Korea Management Association; and “The Leading CEO in Korean Financial Industry in 2008” by Maeil Economic Daily.

Rhee, Jung Ho

Mr. Rhee is the President and Chief Executive Officer (the “CEO”) of the Manager. He is also the responsible officer for the Manager under the SFO for Type 1, Type 4, and Type 9 regulated activities. As the CEO, Mr. Rhee is responsible for overseeing the investment and business development strategies of the Manager and is a member of its Investment Committee.

Prior to his current role as the CEO, Mr. Rhee headed the Global Asset Allocation Division of the Manager from May 2011 to May 2012. He was instrumental in formulating macro and country/sector allocation strategies and played a vital role in overseeing the Mirae Asset Group’s investment process. He oversaw a global team of investment professionals across the Mirae Asset Group network, focusing on multi-asset and global equities allocation and quantitative analysis for emerging market investment products.

Previously, Mr. Rhee worked at Mirae Asset Securities (HK) Limited as Managing Director of Global Research where he was responsible for developing and overseeing Mirae Asset Global Research. He then became Chief Financial Officer (the “CFO”) of the Manager and also headed the investment team managing its proprietary assets.

Before relocating to Hong Kong in 2008, Mr. Rhee worked at Mirae Asset Securities Co. Ltd. in Seoul for eight years as Head of Investment Strategy and subsequently as Head of Asia Pacific Research. Prior to that, he spent five years as a Korea Market Strategist for Daewoo Securities Co. Ltd. and served as an Officer for the Republic of Korea Air Force for three years.

He earned his Master of Economics from the University of Hong Kong and his Bachelor of Economics from Yonsei University, Korea. He is also a CFA charterholder.

Cho, Wan Youn

Mr. Cho is the Chief Operating Officer of the Manager and has been serving in this role since April 2013. He oversees the Operation Unit, Compliance functions and the ETF business of the Manager, and has over 20 years of experience in the financial industry.

Prior to his current role as the Chief Operating Officer, Wanyoun was the Chief Financial Officer of the Manager from December 2009 to 2012. Before relocating to Hong Kong in 2009, he served as Chief Financial Officer of Mirae Asset Global Investments (India) from 2007 to 2009. He played a pivotal role in establishing the firm’s business operations in India.

Mr. Cho joined Mirae Asset Securities in Seoul in 2000, and served in various roles including Head of Trust Division, Head of Wealth Management and Head of Wrap Strategy Account Planning during his six-year tenure with the firm. Mr. Cho started his career with Boram Bank in 1996 before moving to Samsung Securities in 1999.

He holds a Master of Business Administration degree from Tippie School of Management, the University of Iowa, United States and a Bachelor’s degree in Business Administration from Sogang University in Korea.

Kim, Byung Ha

Mr. Kim is Co-Chief Investment Officer of the Manager following his appointment in July 2013. In addition to his duties in co-managing the Investment Unit, Mr. Kim is a key member of the Investment Committee where he is responsible for formulating and refining the firm's investment policies and processes. Mr. Kim covers Greater China equities and is responsible for managing the firm's flagship China equity portfolios.

Mr. Kim started his career as a Research Analyst at Mirae Asset in 1999, where he covered Korean equities. Later he was promoted to Portfolio Manager and managed retail funds and institutional mandates. From 2004 to 2005, he served as a Portfolio Manager and Strategist for the Mirae Asset Economic Research Institute, where in addition to managing segregated portfolios for institutional clients, he led and managed a team of research analysts to produce market analysis and research reports for external distribution on behalf of the Mirae Asset Group. He moved to Hong Kong in 2005 to take up the role of Senior Portfolio Manager and was subsequently promoted to his current position.

Mr. Kim holds a Bachelor in Business Administration degree from Seoul National University in Korea.

The Trustee and Registrar

The Trustee of the Trust is HSBC Institutional Trust Services (Asia) Limited. The Trustee also acts as the Registrar of the Sub-Fund, and provides services in respect of the establishment and maintenance of the register of the Unitholders.

The Trustee was incorporated with limited liability in Hong Kong in 1974 and is registered as a trust company under the Trustee Ordinance (Cap. 29) of Hong Kong and approved by the Mandatory Provident Funds Scheme Authority as trustee of registered MPF Schemes under the Mandatory Provident Fund Schemes Ordinance (Cap. 485) of Hong Kong. HSBC Institutional Trust Services (Asia) Limited is an indirectly wholly owned subsidiary of HSBC Holdings plc, a public company incorporated in England and Wales.

Under the Trust Deed, the Trustee is responsible for the safe-keeping of the assets of the Trust and the sub-funds, subject to the provisions of the Trust Deed.

The Trustee may from time to time appoint such person or persons as it thinks fit (including, without limitation, any of its Connected Persons) to hold as custodian, nominee or agent, all or any of the investments, assets or other property comprised in the Trust Fund or any of the sub-funds and may empower any such custodian, nominee or agent to appoint, with the prior consent in writing of the Trustee, co-custodians and/or sub-custodians (each such custodian, nominee, agent, co-custodian and sub-custodian a "Correspondent"). The Trustee is required to (a) exercise reasonable care and diligence in the selection, appointment and monitoring of Correspondents and (b) be satisfied that Correspondents retained remain suitably qualified and competent to provide the relevant custodial services to the Sub-Fund. The Trustee shall be responsible for the acts and omissions of any Correspondent which is a Connected Person of the Trustee as if the same were the acts or omissions of the Trustee, but provided that the Trustee has discharged its obligations set out in (a) and (b) as set out in this paragraph, the Trustee shall not be liable for any act, omission, insolvency, liquidation or bankruptcy of any Correspondent which is not a Connected Person of the Trustee.

The Trustee shall not be liable for: (i) any act, omission, insolvency, liquidation or bankruptcy of Euro-clear Clearing System Limited or Clearstream Banking S.A. or any other recognised depository or clearing system which may from time to time be approved by the Trustee and the Manager; or (ii) the custody or control of any investments, assets or other property which is under the custody or held by or on behalf of a lender in respect of any borrowing made by the Trustee for the purposes of the Trust or the Sub-Fund.

Subject as provided in the Trust Deed, the Trustee shall not be liable for losses caused by the performance of investments made by the Trust and/or the Sub-Fund.

Subject as provided in the Trust Deed, the Trustee is entitled to be indemnified from the assets of the Trust and/or each Sub-Fund from and against any and all actions, proceedings, liabilities, costs, claims, damages, expenses, including all reasonable legal, professional and other similar expenses (other than those imposed under Hong Kong law or resulting from breaches of trust through fraud or negligence on the part of the Trustee or any of its officers, employees, agents or delegates for which the Trustee would be liable under the Trust Deed), which may be incurred by or asserted against the Trustee in performing its obligations or duties in connection with the Trust or a Sub-Fund. Subject to applicable law and the provisions of the Trust Deed, the Trustee shall not, in the absence of fraud, negligence or wilful default by it or any agent, sub-custodian or delegate appointed by the Trustee, be liable for any losses, costs or damage to the Trust, the Sub-Fund(s) or any Unitholder.

The Trustee in no way acts as guarantor or offeror of the Units or any underlying investment. The Trustee has no responsibility or authority to make investment decisions, or render investment advice with respect to the Trust or the Sub-Fund, which is the sole responsibility of the Manager.

The Trustee will not participate in transactions and activities, or make any payments denominated in US dollars, which, if carried out by a US person, would be subject to sanctions by The Office of Foreign Assets Control (the "OFAC") of the US Department of the Treasury. The OFAC administers and enforces economic sanction programs primarily against countries and groups of individuals, such as terrorists and narcotics traffickers by using the blocking of assets and trade restrictions to accomplish foreign policy and national security goals. In enforcing economic sanctions, OFAC acts to prevent "prohibited transactions", which are described by OFAC as trade or financial transactions and other dealings in which US persons may not engage unless authorised by OFAC or expressly exempted by statute. OFAC has the authority to grant exemptions to prohibitions on such transactions, either by issuing a general licence for certain categories of transactions, or by specific licences issued on a case-by-case basis. HSBC group of companies has adopted a policy of compliance with the sanctions issued by OFAC. As part of its policy, the Trustee may request for additional information if deemed necessary.

The appointment of the Trustee may be terminated in the circumstances set out in the Trust Deed.

The Trustee is entitled to the fees set under the section on "Fees and Expenses Payable by the Sub-Fund" and to be reimbursed for all costs and expenses in accordance with the provisions of the Trust Deed.

The Manager has sole responsibility for making investment decisions in relation to the Trust and/or the Sub-Fund and the Trustee (including its delegate) is not responsible and has no liability for any investment decision made by the Manager. Except as provided in the Trust Deed or expressly stated in this Prospectus and/or required by the Code, neither the Trustee nor any of its employees, service providers or agents are or will be involved in the business affairs, organisation, sponsorship or investment management of the Trust or the Sub-Fund, and they are not responsible for the preparation or issue of this Prospectus other than the description under the section on "The Trustee and Registrar".

The Service Agent

HK Conversion Agency Services Limited acts as Service Agent under the terms of the Service Agreement entered into among the Manager, the Trustee, the Registrar, the Participating Dealer, the Service Agent and HKSCC. The Service Agent performs, through HKSCC, certain of its services in connection with the creation and redemption of Units in the Sub-Fund by Participating Dealers.

The Auditor

The Manager has appointed Ernst & Young to act as the auditor of the Trust and the Sub-Funds (the “Auditor”). The Auditor is independent of the Manager and the Trustee.

The Participating Dealer

A Participating Dealer may act for its own account or for your account as its clients in making cash Creation Applications and cash Redemption Applications. Different Sub-Funds may have different Participating Dealers. The latest list of the Participating Dealers in respect of each Sub-Fund is available at www.miraeasset.com.hk (the contents of which and of any other website referred to in this Prospectus have not been reviewed by the SFC).

The Market Maker

A Market Maker is a broker or dealer permitted by the SEHK to make a market for the Units in the secondary market and whose obligations include quoting bid prices to potential sellers and offer prices to potential buyers when there is a wide spread between the prevailing bid prices and offer prices for the Units on the SEHK. Market Makers facilitate the efficient trading of Units by providing liquidity in the secondary market when it is required, in accordance with the market making requirements of the SEHK.

Subject to applicable regulatory requirements, the Manager will ensure that there is at all times at least one Market Maker for Units traded in HKD and, if there is a Dual Counter, from the date of commencement of dealings in the RMB counter (as set out in the relevant Appendix), one Market Maker for Units traded in HKD and one Market Maker for Units traded in RMB. If the SEHK withdraws its permit to the existing Market Maker(s), the Manager will endeavour to ensure that there is at least one other Market Maker per Sub-Fund per counter to facilitate the efficient trading of Units of the relevant eligible currency (RMB or, if there is a Dual Counter, at least one other Market Maker to facilitate the efficient trading of Units in RMB and one other Market Maker to facilitate the efficient trading of Units in HKD). The Manager will seek to ensure that at least one Market Maker per counter gives not less than 3 months’ notice prior to terminating market making under the relevant market making agreement. The latest list of Market Makers for each Sub-Fund is available at <http://www.hkex.com.hk> and www.miraeasset.com.hk (the contents of which and of any other website referred to in this Prospectus have not been reviewed by the SFC). Please refer to the section on “Website Information” for the warning and the disclaimer regarding information contained in such website.

The Listing Agent

Unless otherwise specified in the relevant Appendix, KGI Capital Asia Limited has been appointed by the Manager as the Listing Agent for the first Sub-Fund in accordance with The Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited in respect of the relevant Sub-Fund’s listing on the SEHK. The Listing Agent is a licenced corporation which holds, amongst others, a Type 6 (advising on corporate finance) regulated activity licence under the SFO with CE Number ADT039.

Conflicts of interest and soft dollars

The Manager and the Trustee may, from time to time, act as manager, sub-investment manager, investment adviser, trustee or custodian or in such other capacity in connection with any collective investment scheme separate and distinct from the Trust and the Sub-Fund(s) and retain any profit or benefit made in connection therewith.

In addition:

- (a) The Manager or any of its Connected Persons may purchase and sell investments for the account of a Sub-Fund as agent for the Sub-Fund.
- (b) The Trustee, the Manager and any of their Connected Persons may contract or enter into

any financial, banking or other transaction with one another or with any Unitholder or any company or body any of whose shares or securities form part of the relevant Sub-Fund's assets.

- (c) The Trustee or the Manager or any of their Connected Persons may become the owner of Units and hold, dispose or otherwise deal with them with the same rights which it would have had if it had not been the Trustee or the Manager or any of their Connected Persons.
- (d) The Trustee, the Manager and any of their Connected Persons may buy, hold and deal in any securities, commodities or other property for their own account or for the account of their other customers notwithstanding that similar securities, commodities or other property may be held by the relevant Sub-Fund.
- (e) Any arrangements for the borrowing or deposit of any monies for the account of a Sub-Fund may be made with any of the Trustee, the Manager or any of their Connected Persons being a banker or other financial institution provided that such person shall charge or pay (as the case may be) interest or fees at a rate or amount no higher (in the case of a borrowing) or lower (in the case of a deposit) than the prevailing rates or amounts for transactions of a similar size and duration, in the same currency and with institutions of similar standing.
- (f) Neither the Trustee nor the Manager nor any of their Connected Persons shall be liable to account to each other or to any Sub-Fund or to the Unitholders for any profits or benefits made or derived from or in connection with any such transaction mentioned above.

It is, therefore, possible that any of the Trustee, the Manager or any of their Connected Persons may, in the course of business, have potential conflicts of interest with a Sub-Fund. Each will, at all times, have regard in such event to its obligations to the relevant Sub-Fund and the Unitholders and will endeavour to ensure that such conflicts are resolved fairly.

Subject to applicable rules and regulations, the Manager, its delegate or any of its Connected Persons may enter into portfolio transactions for or with a Sub-Fund as agent in accordance with normal market practice, provided that commissions charged to the Sub-Fund in these circumstances do not exceed customary full service brokerage rates. If a broker does not provide research or other lawful services in addition to brokerage execution, such broker will generally charge a brokerage commission that is discounted from customary full service brokerage rates. Where the Manager invests a Sub-Fund in shares or units of a collective investment scheme managed by the Manager, its delegates or any of its Connected Persons, the manager of the scheme in which the investment is being made by the Sub-Fund must waive any preliminary or initial charge which it is entitled to charge for its own account in relation to the acquisition of shares or units and there must be no increase in the overall total of annual management fees (or other costs and charges payable to the Manager or any of its Connected Persons) borne by the relevant Sub-Fund.

None of the Manager or its Connected Persons shall, retain any cash commission rebates or other payment or benefit (except as otherwise provided for in this Prospectus or in the Trust Deed) received from a third party (either directly or indirectly) arising out of the sale or purchase or loan of investments for any Sub-Fund, and any such rebates or payments or benefits which are received shall be credited to the account of the relevant Sub-Fund.

The Manager or its Connected Persons may receive, and are entitled to retain, research products and services (known as soft dollar benefits) which are of demonstrable benefit to a Sub-Fund (as may be permitted under the Code, applicable rules and regulations) from brokers and other persons through whom investment transactions are carried out ("brokers") provided that the quality of transaction execution is consistent with best execution standards.

The services of the Trustee provided to the Trust and the Sub-Funds are not deemed to be exclusive and the Trustee shall be free to render similar services to others so long as its services hereunder are not impaired thereby and to retain for its own use and benefit all fees and other monies payable thereby and the Trustee shall not be deemed to be affected with notice of or to be

under any duty to disclose to the Sub-Funds any fact or thing which comes to the notice of the Trustee in the course of the Trustee rendering similar services to others or in the course of its business in any other capacity or in any manner whatsoever otherwise than in the course of carrying out its duties under the Trust Deed.

Conflicts of interest may also arise due to the widespread business operations of the Trustee, the Manager, the Registrar and the Service Agent and their respective holding companies, subsidiaries and affiliates. The foregoing parties may effect transactions where those conflicts arise and shall not, subject to the terms of the Trust Deed, be liable to account for any profit, commission or other remuneration arising. However, all transactions carried out by or on behalf of the Sub-Funds will be on arm's length terms. For so long as any Sub-Fund is authorised by the SFC and it is an applicable requirement of the Code, the Manager, if transacting with brokers or dealers connected to the Manager or its Connected Persons, must ensure it complies with the following obligations:

- (a) such transactions should be on arm's length terms;
- (b) it must use due care in the selection of brokers or dealers and ensure that they are suitably qualified in the circumstances;
- (c) transaction execution must be consistent with applicable best execution standards;
- (d) the fee or commission paid to any such broker or dealer in respect of a transaction must not be greater than that which is payable at the prevailing market rate for a transaction of that size and nature;
- (e) the Manager must monitor such transactions to ensure compliance with its obligations; and
- (f) the nature of such transactions and the total commissions and other quantifiable benefits received by such broker or dealer shall be disclosed in the annual financial statements of the relevant Sub-Fund.

STATUTORY AND GENERAL INFORMATION

Reports and accounts

The financial year-end of the Trust (and each Sub-Fund) is 31 March every year. Audited annual accounts are to be prepared (in accordance with IFRS) and published on the Manager's website at www.miraeasset.com.hk within 4 months of each financial year-end. Half-yearly unaudited reports are also to be prepared up to 30 September of each year and published on the Manager's website within 2 months of such date. Once these accounts and reports are made available on the Manager's website, investors will be notified within the relevant timeframe.

The first audited annual accounts and the first half-yearly unaudited reports will be for the period ending 31 March 2017 and half year ending 30 September 2017 respectively. Only an English version of the audited annual accounts and the half-yearly unaudited reports of the Trust and the Sub-Funds will be available. Printed copies may be requested free of charge from the Manager by contacting it, as described below under "Notices".

The accounts and reports provide details of the assets of each Sub-Fund and the Manager's statement on transactions during the period under review (including a list of any constituent Securities or Futures Contracts of the relevant Index, if any, that each accounts for more than 10% of the weighting of the relevant Index as at the end of the relevant period and their respective weighting showing any limits adopted by the relevant Sub-Fund have been complied with). The accounts and reports shall also provide a comparison of each Sub-Fund's performance and the actual relevant Index performance over the relevant period and such other information as is required under the Code. Unitholders will be given at least one month's prior notice of any change to the mode of delivery of the Trust's audited annual accounts and half-yearly unaudited reports.

Trust Deed

The Trust and each Sub-Fund were established under Hong Kong law by the Trust Deed made between the Manager and the Trustee. All Unitholders are entitled to the benefit of, are bound by and are deemed to have notice of, the provisions of the Trust Deed. The Trust Deed contains provisions for the indemnification of the Trustee and the Manager out of the assets of the Trust Fund and their relief from liability in certain circumstances (summarised below in "Indemnities of the Trustee and Manager"). Unitholders and intending applicants are advised to consult the terms of the Trust Deed.

Indemnities of the Trustee and Manager

The Trustee and the Manager benefit from various indemnities in the Trust Deed. Except as provided under the Trust Deed, the Trustee and the Manager shall be entitled to be indemnified out of, and have recourse to, the Trust Fund in respect of any action, costs, claims, damages, expenses or demands arising directly or indirectly from the proper performance of the Sub-Fund. Nothing in any of the provisions of the Trust Deed may provide that the Trustee or the Manager (as the case may be) can be exempted from any liability to Unitholders imposed under Hong Kong law or breaches of trust through fraud or negligence, nor may they be indemnified either against such liability by Unitholders or at Unitholders' expense.

Liability of Unitholders

No Unitholder shall incur or assume any liability or be required to make any payment to the Trustee or the Manager in respect of its Units. The liability of Unitholders is limited to their investment in Units.

Modification of the Trust Deed

The Trustee and the Manager may agree to modify, alter or add to the provisions of the Trust Deed by supplemental deed provided that in the opinion of the Trustee and the Manager such modification, alteration or addition (i) does not materially prejudice the interests of Unitholders, does not operate to release to any material extent the Trustee or the Manager or any other person

from any responsibility to the Unitholders and (with the exception of the costs incurred in connection with the relevant supplemental deed) does not increase the costs and charges payable out of the assets of the Sub-Fund(s) or (ii) is necessary in order to make possible compliance with any fiscal, statutory or official requirement (whether or not having the force of law) or (iii) is made to correct a manifest error. In all other cases, modifications, alterations and additions require the sanction of an extraordinary resolution of the Unitholders affected. The SFC must (where such approval is required) also give its prior approval to all amendments to the Trust Deed.

The Manager will notify affected Unitholders of the amendments as soon as practicable after they are made if such notification is required under the Code.

Meetings of Unitholders

Proxies may be appointed. A Unitholder who is the holder of two or more Units may appoint more than one proxy to represent him and vote on his behalf at any meeting of the Unitholders. If a clearing house (or its nominee(s)), being a corporation, is a Unitholder, it may authorise such persons as it think fit to act as its representatives at any meeting of the Unitholders provided that, if more than one person is so authorised, the authorisation shall specify the number and class of Units in respect of which each such representative is so authorised. Each person so authorised shall be deemed to have been duly authorised without further evidence of the facts and shall be entitled to exercise the same rights and powers on behalf of the clearing house (or its nominee(s)) as if such person were the registered Unitholder of the Units held by the clearing house (or its nominee(s)), including the right to vote individually on a poll.

Voting rights

Unitholders' meetings may be convened by the Manager, by the Trustee or by Unitholders representing at least 10% of the Units in issue, on not less than 21 days' notice.

These meetings may be used to modify the terms of the Trust Deed, including increasing the maximum fees payable to the service providers, removing the Manager or terminating the Sub-Fund(s) at any time. Such amendments to the Trust Deed must be considered by Unitholders of at least 25% of the Units in issue and passed by a 75% or more of the votes cast.

Other matters that require an ordinary resolution being passed would be considered by Unitholders of at least 10% of the Units in issue and passed by a simple majority of more than 50% of the votes cast.

The Trust Deed contains provisions for the holding of separate meetings of Unitholders holding Units of different classes where only the interests of Unitholders of such class are affected.

Termination

The Trustee may, by notice in writing to the Manager, terminate the Trust if: (i) the Manager goes into liquidation (except a voluntary liquidation for the purpose of reconstruction or amalgamation upon terms previously approved in writing by the Trustee) or a receiver is appointed over any of its assets and not discharged within 60 days or (ii) the Trustee forms the opinion that the Manager is incapable of performing its duties satisfactorily or (iii) the Manager has failed to perform its duties satisfactorily or has, in the opinion of the Trustee, done something calculated to bring the Trust into disrepute or that is harmful to the interests of Unitholders or (iv) a law is passed that renders it illegal or in the opinion of the Trustee and the Manager, impracticable or inadvisable to continue the Trust or (v) the Trustee is unable to find an acceptable person to replace the Manager within 30 days after the removal of the Manager, or the person nominated shall fail to be approved by Extraordinary Resolution or (vi) if the Trustee notifies the Manager in writing of its intention to retire and no suitable person willing to act as trustee has been identified by the Manager within 60 days of the Trustee's notice.

The Manager may, in its absolute discretion, by notice in writing to the Trustee, terminate the Trust if: (i) after one year from the date of the Trust Deed, the aggregate Net Asset Value of all the Units in each Sub-Fund outstanding is less than HKD500 million; (ii) any law or regulation is

passed or amended or any regulatory directive or order is imposed that affects the Trust and which renders the Trust illegal or in the good faith opinion of the Manager, makes it impracticable or inadvisable to continue the Trust; or (iii) within a reasonable time and using commercially reasonable endeavours, the Manager is unable to find a person acceptable to act as the new trustee after deciding to remove the Trustee in accordance with the Trust Deed.

The Manager may, in its absolute discretion, by notice in writing to the Trustee, terminate a Sub-Fund if: (i) after one year from the date of establishment of the Sub-Fund, the aggregate Net Asset Value of all the Units in the relevant Sub-Fund outstanding is less than HKD500 million or such other amount specified in the relevant Supplemental Deed; (ii) any law or regulation is passed or amended or any regulatory directive or order is imposed that affects the relevant Sub-Fund and which renders the relevant Sub-Fund illegal or in the good faith opinion of the Manager makes it impracticable or inadvisable to continue that Sub-Fund; (iii) its Index is no longer available for benchmarking or if the Units of the relevant Sub-Fund are no longer listed on the SEHK or any such other stock exchange from time to time determined by the Manager; (iv) at any time, the relevant Sub-Fund ceases to have any Participating Dealer; or (v) the Manager is unable to implement its investment strategy. Further, the Unitholders may at any time authorise termination of the Trust or the relevant Sub-Fund by extraordinary resolution.

The Trustee may, in its absolute discretion, by notice in writing to the Manager, terminate a Sub-Fund if: (i) the Trustee forms the opinion for good and sufficient reason that the Manager is incapable of performing its duties satisfactorily in respect of the relevant Sub-Fund; (ii) the Trustee forms the opinion for good and sufficient reason that the Manager has failed to perform its duties satisfactorily in respect of the relevant Sub-Fund or has done something calculated to bring the relevant Sub-Fund into disrepute or that is harmful to the interests of Unitholders of the relevant Sub-Fund(s); or (iii) any law or regulation is passed or amended or any regulatory directive or order is imposed that affects the relevant Sub-Fund and which renders the relevant Sub-Fund illegal or in the good faith opinion of the Trustee makes it impracticable or inadvisable to continue the relevant Sub-Fund.

Notice of the termination of the Trust or the Sub-Fund(s) will be given to the Unitholders after the SFC has approved the notice. The notice will contain the reasons for the termination, the consequences to Unitholders of terminating the Trust or the Sub-Fund(s) and the alternatives available to them, and any other information required by the Code.

Distribution policy

The Manager will adopt a distribution policy for each Sub-Fund as the Manager considers appropriate having regard to the Sub-Fund's net income, fees and costs. For each Sub-Fund this distribution policy (including the currency of such distribution) will be set out in the relevant Appendix. Distributions will always depend on dividend payments on Securities held by the relevant Sub-Fund which will in turn depend on factors beyond the control of the Manager including, general economic conditions, and the financial position and distribution policies of the relevant underlying entities. Unless otherwise specified in the relevant Appendix, no distribution will be paid out of capital and/or effectively of the Sub-Fund. There can be no assurance that such entities will declare or pay dividends or distributions.

Inspection of documents

Copies of the following documents in respect of each Sub-Fund are available for inspection free of charge at the offices of the Manager and copies thereof may be obtained from the Manager (at a cost of HKD150 per set of copy documents (other than (d) which may be obtained free of charge):

- (a) Trust Deed;
- (b) Service Agreement(s);
- (c) Participation Agreement(s); and
- (d) The most recent annual financial statements of the Trust and the Sub-Fund(s) (if any) and

the most recent interim financial statements of the Trust and the Sub-Fund(s) (if any).

Part XV of the SFO

Part XV of the SFO sets out the Hong Kong disclosure of interests' regime applicable to Hong Kong listed companies. The regime does not apply to unit trusts that are listed on the SEHK like the Trust. Consequently, Unitholders are not obliged to disclose their interest in the Sub-Fund.

Anti-money laundering regulations

As part of the Manager's, the Trustee's and the Participating Dealer's responsibility for the prevention of money laundering and to comply with all applicable laws to which the Manager, the Trustee, the Sub-Fund(s) or the relevant Participating Dealer is subject, the Manager, the Registrar, the Trustee or the relevant Participating Dealer may require a detailed verification of an investor's identity and the source of payment of any applications for Units. Depending on the circumstances of each application, a detailed verification might not be required where:

- (a) the investor makes the payment from an account held in the investor's name at a recognised financial institution; or
- (b) the application is made through a recognised intermediary.

These exceptions apply only if the financial institution or intermediary is within a country recognised by the Trustee and the Manager as having sufficient anti-money laundering regulations.

Automatic Exchange of Financial Account Information

The Inland Revenue (Amendment) (No.3) Ordinance (the "Ordinance") came into force on 30 June 2016. This is the legislative framework for the implementation in Hong Kong of the Standard for Automatic Exchange of Financial Account Information ("AEOI"). The AEOI requires financial institutions ("FIs") in Hong Kong to collect certain required information relating to non-Hong Kong tax residents holding financial accounts with the FIs, and report such information to the Hong Kong Inland Revenue Department ("IRD") for the purpose of AEOI exchange. Generally, the information will be reported and automatically exchanged in respect of account holders that are tax residents in an AEOI partner jurisdiction(s) with which Hong Kong has a Competent Authority Agreement ("CAA") in force; however, a Sub-Fund and/or its agents may further collect information relating to residents of other jurisdictions.

A Sub-Fund is required to comply with the requirements of the Ordinance, which means that a Sub-Fund and/or its agents shall collect and provide to the IRD the required information relating to Unitholders and prospective investors.

The Ordinance as implemented by Hong Kong requires a Sub-Fund to, amongst other things: (i) register the Sub-Fund as a "Reporting Financial Institution" with the IRD; (ii) conduct due diligence on its accounts (i.e. Unitholders) to identify whether any such accounts are considered "Reportable Accounts" under the Ordinance; and (iii) report to the IRD the required information on such Reportable Accounts. The IRD is expected on an annual basis to transmit the required information reported to it to the government authorities of the jurisdictions with which Hong Kong has a CAA in force. Broadly, AEOI contemplates that Hong Kong FIs should report on: (i) individuals or entities that are tax residents in a jurisdiction with which Hong Kong has a CAA in force; and (ii) certain entities controlled by individuals who are tax residents in such jurisdictions. Under the Ordinance, details of Unitholders, including but not limited to their name, place of birth, address, tax residence, tax identification number (if any), account number, account balance/value, and income or sale or realisation proceeds, may be reported to the IRD and subsequently exchanged with government authorities in the relevant jurisdictions.

By investing in a Sub-Fund and/or continuing to invest in a Sub-Fund, Unitholders acknowledge that they may be required to provide additional information to the Sub-Fund, the Manager and/or the Sub-Fund's agents in order for the Sub-Fund to comply with the Ordinance. The Unitholder's

information (and information on controlling persons including beneficial owners, beneficiaries, direct or indirect shareholders or other persons associated with such Unitholders that are passive non-financial entities), may be transmitted by the IRD to authorities in other jurisdictions.

Each Unitholder and prospective investor should consult its own professional advisor(s) on the administrative and substantive implications of AEOI on its current or proposed investment in the Sub-Fund.

Certification for Compliance with FATCA or Other Applicable Laws

Each investor (i) shall be required to, upon demand by the Trustee or the Manager, provide any form, certification or other information reasonably requested by and acceptable to the Trustee or the Manager that is necessary for a Sub-Fund (a) to prevent withholding (including, without limitation, any withholding taxes required under FATCA) or qualify for a reduced rate of withholding or backup withholding in any jurisdiction from or through which the Sub-Fund receives payments and/or (b) to satisfy reporting or other obligations under the IRS Code and the United States Treasury Regulations promulgated under the IRS Code, or to satisfy any obligations relating to any applicable law, regulation or any agreement with any tax or fiscal authority in any jurisdiction, (ii) will update or replace such form, certification or other information in accordance with its terms or subsequent amendments or when such form, certificate or other information is no longer accurate, and (iii) will otherwise comply with any reporting obligations imposed by the United States, Hong Kong or any other jurisdiction (including any law, rule and requirement relating to AEOI) and reporting obligations that may be imposed by future legislation.

Power to Disclose Information to Authorities

Subject to applicable laws and regulations in Hong Kong, the Manager, the Trustee or any of their authorised person (as permissible under applicable law or regulation) may be required to report or disclose to any government agency, regulatory authority or tax or fiscal authority in any jurisdictions (including but not limited to the IRS and the IRD), certain information in relation to a Unitholder, including but not limited to the Unitholder's name, address, jurisdiction of birth, tax residence, tax identification number (if any), social security number (if any) and certain information relating to the Unitholder's holdings, account balance/value, and income or sale or realisation proceeds, to enable a Sub-Fund to comply with any applicable law or regulation or any agreement with a tax authority (including, but not limited to, any applicable law (including any law, rule and requirement relating to AEOI), regulation or agreement under FATCA).

Liquidity Risk Management

The Manager has established a liquidity management policy which enables it to identify, monitor and manage the liquidity risks of a Sub-Fund and to ensure that the liquidity profile of the investments of the relevant Sub-Fund will facilitate compliance with such Sub-Fund's obligation to meet realisation requests. Such policy, combined with the liquidity management tools of the Manager, also seeks to achieve fair treatment of Unitholders and safeguard the interests of remaining Unitholders in case of sizeable realisations.

The Manager's liquidity policy takes into account the investment strategy, the liquidity profile, the realisation policy, the dealing frequency, the ability to enforce realisation limitations and the fair valuation policies of the Sub-Funds. These measures seek to ensure fair treatment and transparency for all investors.

The liquidity management policy involves monitoring the profile of investments held by a Sub-Fund on an on-going basis to ensure that such investments are appropriate to the realisation policy as stated under the section headed "Redemption of Units through Participating Dealers", and will facilitate compliance with each Sub-Fund's obligation to meet realisation requests. Further, the liquidity management policy includes details on periodic stress testing carried out by the Manager to manage the liquidity risk of the Sub-Funds under normal and exceptional market conditions.

As a liquidity risk management tool, the Manager may suspend the right of Participating Dealers to redeem Units in respect of any Realisation Application for Units of the Trust as further detailed in

the sub-section headed "Suspension of determination of Net Asset Value" or may limit the number of Units of a Sub-Fund redeemed on any Dealing Day to Units representing 10% (or such higher percentage as the Manager may determine in respect of the Sub-Fund) of the total number of Units in such a Sub-Fund then in issue (subject to the conditions under the section headed "Deferred Redemption").

Index licence agreements

Please refer to the relevant Appendix for details in respect of each Index.

Material changes to an Index

The SFC should be consulted on any events that may affect the acceptability of an Index. Significant events relating to an Index will be notified to the Unitholders of the relevant Sub-Fund as soon as practicable. These may include a change in the methodology/rules for compiling or calculating the Index, or a change in the objective or characteristics of the Index.

Replacement of an Index

The Manager reserves the right, with the prior approval of the SFC and provided that in its opinion the interests of the Unitholders of the relevant Sub-Fund would not be adversely affected, to replace an Index with another index in accordance with the provision of the Code and the Trust Deed. The circumstances under which any such replacement might occur include but are not limited to the following events:

- (a) the relevant Index ceasing to exist;
- (b) the licence to use the Index being terminated;
- (c) a new index becoming available that supersedes the existing Index;
- (d) a new index becoming available that is regarded as the market standard for investors in the particular market and/or would be regarded as more beneficial to the Unitholders than the existing Index;
- (e) investing in the Securities and/or Futures Contracts comprised within the Index becomes difficult;
- (f) the Index Provider increasing its licence fees to a level considered too high by the Manager;
- (g) the quality (including accuracy and availability of the data) of the Index having in the opinion of the Manager, deteriorated;
- (h) a significant modification of the formula or calculation method of the Index rendering that index unacceptable in the opinion of the Manager; and
- (i) the instruments and techniques used for portfolio management not being available.

The Manager may change the name of the Sub-Fund if the relevant Index changes or for any other reasons including if licence to use the Index is terminated. Any change to (i) the use by the relevant Sub-Fund of the Index and/or (ii) the name of the relevant Sub-Fund will be notified to investors.

Information available on the Internet

The Manager will publish important news and information with respect to each Sub-Fund (including in respect of the relevant Index), in the English and Chinese languages (unless otherwise specified), on the Manager's website at www.miraeasset.com.hk (which has not been reviewed or approved by the SFC) including:

- (a) this Prospectus and the product key facts statement in respect of the Sub-Fund(s) (as revised from time to time);
- (b) the latest annual accounts and interim unaudited report (in English only);
- (c) any notices for material alterations or additions to this Prospectus or the Sub-Fund's constitutive documents;
- (d) any public announcements made by the Sub-Fund(s), including information with regard to the Sub-Fund(s) and Index, notices of the suspension of the calculation of the Net Asset Value, changes in fees and the suspension and resumption of trading;
- (e) the near real time estimated Net Asset Value per Unit throughout each Dealing Day in HKD (and if there is a RMB counter, from the date of commencement of dealings in the RMB counter (as set out in the relevant Appendix) in HKD and in RMB);
- (f) the last closing Net Asset Value of each Sub-Fund in HKD only, as well as the last closing Net Asset Value per Unit of the Sub-Fund in HKD (and, if there is a RMB counter, from the date of commencement of dealings in the RMB counter (as set out in the relevant Appendix) in HKD and in RMB);
- (g) the composition of the Sub-Fund(s) (updated on a daily basis unless otherwise specified in the relevant Appendix);
- (h) the composition of dividends for each relevant Sub-Fund (i.e. the relative amounts paid out of (i) net distributable income, and (ii) capital (if any)), for a rolling 12-month period; and
- (i) the latest list of the Participating Dealers and Market Makers for each Sub-Fund.

Where a Sub-Fund has adopted a Dual Counter, any: (i) near real time estimated Net Asset Value per Unit in RMB, under (e) above, is indicative and for reference only. This is updated during SEHK trading hours; and (ii) any last closing Net Asset Value per Unit in RMB, under (f) above, is indicative and for reference only and is calculated using the last closing Net Asset Value per Unit in HKD multiplied by an assumed foreign exchange mid-rate using the fixed RMB (CNH) exchange rate (quoted by the relevant information provider specified in the Sub-Fund's Appendix) at 4:00 p.m. (Hong Kong time) as of the same Dealing Day.

Real-time updates about the Index can be obtained through other financial data vendors. It is your own responsibility to obtain additional and the latest updated information about the Index (including without limitation, a description of the way in which the Index is calculated, any change in the composition of the Index, any change in the method for compiling and calculating the Index) via the Manager's website and the Index Provider's website (neither of which, nor any other website referred to in this Prospectus, has been reviewed by the SFC). Please refer to the section on "Website Information" for the warning and the disclaimer regarding information contained in such website.

Notices

All notices and communications to the Manager and Trustee should be made in writing and sent to the following addresses:

Website information

The offer of the Units is made solely on the basis of information contained in this Prospectus. All references in this Prospectus to other websites and sources where further information may be obtained are merely intended to assist you to access further information relating to the subject matter indicated and such information does not form part of this Prospectus. None of the Listing Agent, the Manager or the Trustee accepts any responsibility for ensuring that the information contained in such other websites and sources, if available, is accurate, complete and/or up-to-date, and no liability is accepted by the Listing Agent, the Manager and the Trustee in relation to any person's use of or reliance on the information contained in these other websites and sources save, in respect of the Manager, its website www.miraeasset.com.hk (the contents of which and of other websites referred to in this Prospectus have not been reviewed by the SFC). The information and materials included in these websites have not been reviewed by the SFC or any regulatory body. You should exercise an appropriate degree of caution when assessing the value of such information.

HONG KONG TAXATION AND FATCA

The following summary of Hong Kong taxation is of a general nature, for information purposes only, and is not intended to be an exhaustive list of all of the tax considerations that may be relevant to a decision to purchase, own, redeem or otherwise dispose of Units. This summary does not constitute legal or tax advice and does not purport to deal with the tax consequences applicable to all categories of investors. Prospective investors should consult their own professional advisers as to the implications of their subscribing for, purchasing, holding, redeeming or disposing of Units both under the laws and practice of Hong Kong and the laws and practice of their respective jurisdictions. The information below is based on the law and practice in force in Hong Kong at the date of this Prospectus. The relevant laws, rules and practice relating to tax are subject to change and amendment (and such changes may be made on a retrospective basis). As such, there can be no guarantee that the summary provided below will continue to be applicable after the date of this Prospectus. Furthermore, tax laws can be subject to different interpretations and no assurance can be given that relevant tax authorities will not take a contrary position to the tax treatments described below. You should refer to additional summaries of applicable taxation, where appropriate, as set out in the Appendix relevant to a Sub-Fund.

Taxation of the Trust and Sub-Fund(s)

Profits Tax

The Sub-Fund(s) are not expected to be subject to Hong Kong tax in respect of any of their authorised activities.

Stamp Duty

No Hong Kong stamp duty is payable by the Sub-Fund on an issue or a redemption of Units.

Taxation of the Unitholders

Profits Tax

No tax will be payable by Unitholders in Hong Kong in respect of income distributions of a Sub-Fund or in respect of any capital gains arising on a sale, redemption or other disposal of Units, except that Hong Kong profits tax may arise where such transactions form part of a trade, profession or business carried on in Hong Kong.

Stamp Duty

Pursuant to the Stamp Duty (Amendment) Ordinance 2015, stamp duty payable in respect of any transfer in the shares or units of an exchange traded fund (as defined in Part 1 to Schedule 8 of the Stamp Duty Ordinance (Cap. 117) of Hong Kong) on the SEHK is not payable. Accordingly, transfers of Units do not attract stamp duty and no stamp duty is payable by Unitholders on any transfer.

FATCA and Compliance with US Withholding Requirements

The US Hiring Incentives to Restore Employment Act (the "HIRE Act") was signed into US law in March 2010 and includes provisions commonly referred to as the "Foreign Account Tax Compliance Act" or "FATCA". Broadly, the FATCA provisions are set out in sections 1471 to 1474 of the Internal Revenue Code, which impose a new reporting regime with respect to financial accounts held by specified US persons (within the meaning of the Internal Revenue Code) ("Specified US Persons") with foreign financial institutions ("FFIs"), such as the Trust and each Sub-Fund. US source withholdable payments, including US source interests and dividends paid from securities of US issuers and gross proceeds from the sale of such securities, made to a financial account may be subject to withholding at a rate of 30%, unless the account holders provide sufficient information to the financial institutions to enable the financial institutions to identify such account holder's FATCA classification. To avoid such withholding on payments

received, FFIs (including banks, brokers, custodians and investment funds), such as the Trust and each Sub-Fund, located in jurisdictions that have not signed intergovernmental agreements for implementation of FATCA (each an “IGA”), will be required to register and enter into an agreement (an “FFI Agreement”) with the IRS to be treated as a participating FFI (but see paragraph below regarding IGA status of Hong Kong). Participating FFIs are required to identify all investors that are Specified US Persons and report information concerning such Specified US Persons to the IRS. The FFI Agreement will also generally require that a participating FFI deduct and withhold 30% from US source withholdable payments made by the participating FFI to investors who fail to cooperate with certain information requests made by the participating FFI (“FATCA Withholding”).

FATCA Withholding applies to (i) payments of US source FDAP (fixed, determinable, annual or periodical) income, including US source dividends and interest, made after 30 June 2014; and (ii) payments of gross proceeds of sale or other disposal of property that can produce US source FDAP income after 31 December 2018. The 30% withholding could also apply to payments otherwise attributable to US source income (also known as “foreign passthru payments”). Withholding agents (which includes participating FFIs) have generally been required to begin withholding on US source withholdable payments made after 30 June 2014. The first reporting deadline for information on relevant financial accounts (e.g. account held by Specified US Persons) for FFIs that have entered into the FFI Agreement was 31 March 2015 with respect to information relating to the 2014 calendar year.

The United States Department of the Treasury and Hong Kong entered into a Model 2 IGA (the “Model 2 IGA”) effective from 30 June 2014. The Model 2 IGA modifies the foregoing requirements but generally requires similar information to be disclosed to the IRS. Further, withholding may continue to apply to US source withholdable payments if the Trust and each Sub-Fund cannot satisfy the applicable requirements and is determined to be non-FATCA compliant.

The Trust has been registered with the IRS as a Single Foreign Financial Institution with Global Intermediary Identification Number of U507UG.99999.SL.344. Mirae Asset Horizons S&P Crude Oil Futures Enhanced ER ETF has been registered with the IRS as Single Foreign Financial Institutions with Global Intermediary Identification Number of VC4L62.99999.SL.344. In order to protect Unitholders’ interests in the Trust and avoid being subject to FATCA Withholding, it is the Manager’s and the Trustee’s intention to endeavour to satisfy the requirements imposed under FATCA. Hence it is possible that this may require the Trust (through its agents or service providers) as far as legally permitted, to report information on the holdings or investment returns of Unitholders that are identified as Specified US Persons to the IRS or the local authorities pursuant to the terms of an applicable IGA (as the case may be) including certain Unitholders who fail to provide relevant information and documents required to identify their FATCA status, or fail to provide consent to the Trust to report, or who are non-FATCA compliant financial institutions or who fall within other categories specified in the FATCA provisions. Reporting and FATCA Withholding may also be required on Unitholders that are identified as non-FATCA compliant financial institutions (i.e. non-participating FFIs). As at the date of this Prospectus, all Units in the Sub-Fund(s) are registered in the name of HKSCC Nominees Limited. It is the Manager’s understanding that HKSCC Nominees Limited is registered as a reporting foreign financial institution under the Model 2 IGA.

Although the Manager, the Trust and the Sub-Fund(s) will attempt to satisfy any obligations imposed on them to avoid the imposition of FATCA withholding tax, no assurance can be given that the Manager, the Trust and the Sub-Fund(s) will be able to fully satisfy these obligations. If any Sub-Fund becomes subject to a withholding tax as a result of FATCA, the Net Asset Value of such Sub-Fund may be adversely affected and such Sub-Fund and its Unitholders may suffer material loss.

The FATCA provisions are complex and certain implications may be uncertain at this time. The above description is provided based in part on regulations, official guidance and model IGAs currently available, all of which are subject to change or may be implemented in a materially different form. Nothing in this section constitutes or purports to constitute tax advice and Unitholders should not rely on any information set

out in this section for the purposes of making any investment decision, tax decision or otherwise. All Unitholders should therefore consult their own tax and professional advisers regarding the FATCA requirements, possible implications and related tax consequences with respect to their own situation. In particular, Unitholders who hold their Units through intermediaries should confirm the FATCA compliance status of those intermediaries to ensure that they do not suffer the above mentioned withholding tax on their investment returns.

PART 2 – SPECIFIC INFORMATION RELATING TO EACH SUB-FUND

Part 2 of this Prospectus includes specific information relevant to each of Sub-Fund established under the Trust and listed on the SEHK. It is updated from time to time by the Manager. Information relating to each Sub-Fund is set out in a separate Appendix.

The information presented in each Appendix in this Part 2 should be read in conjunction with the information presented in Part 1 of this Prospectus. Where the information in any Appendix in this Part 2 conflicts with the information presented in Part 1, the information in the relevant Appendix in the Part 2 prevails, however, is applicable to the specific Sub-Fund of the relevant Appendix only.

Defined terms used in each of the Appendices and which are not defined in this Part 2, bear the same meanings as in Part 1 of this Prospectus. References in each Appendix to “Sub-Fund” refer to the relevant Sub-Fund which is the subject of that Appendix. References in each Appendix to “Index” refer to the relevant Index details of which are set out in that Appendix.

APPENDIX 1: Mirae Asset Horizons S&P Crude Oil Futures Enhanced ER ETF

Key information

Set out below is a summary of key information in respect of this Sub-Fund which should be read together with the full text of this Appendix and the Prospectus.

Index	S&P GSCI Crude Oil Enhanced Index Excess Return ("Excess Return" does not mean any additional return on the ETF's performance)
Index Provider	S&P Dow Jones Indices (S&P)
Listing Date (SEHK)	16 June 2016
Exchange Listing	SEHK – Main Board
Dual Counter	No
Stock Code	3097
Short Stock Name	F MR OIL ETF
Trading Board Lot Size	500 Units
Base Currency	HKD
Trading Currency	HKD
Distribution Policy	Annually (usually in March of each year) (if any) in HKD subject to the Manager's discretion. Distributions may not be paid if the cost of the Sub-Fund's operations is higher than the yield from management of the Sub-Fund's cash and holdings of investments. There is no current intention to make distribution out of capital or effectively out of capital.
Creation / Redemption Policy	Cash (HKD) only
Application Unit Size (only by or through Participating Dealers)	Minimum 250,000 Units (or multiples thereof)
Dealing Deadline	4:00 p.m. on the relevant Dealing Day, or such other time as the Manager (with the approval of the Trustee) may determine

Management Fee	Currently 0.75% per year of the Net Asset Value
Trustee Fee	Currently 0.12% per year of the Net Asset Value, subject to a monthly minimum of HKD78,000 (waived for the 12 calendar months from the Listing Date)

What is the investment objective?

The investment objective of the Sub-Fund is to provide investment results that, before fees and expenses, closely correspond to the performance of the S&P GSCI Crude Oil Enhanced Index Excess Return (“Excess Return” does not mean any additional return on the ETF’s performance) (the “Index”). There can be no assurance that the Sub-Fund will achieve its investment objective. The Index tracks the price of the West Texas Intermediate crude oil (also known as Texas light sweet crude oil) Futures Contracts with different expiration dates traded on NYMEX (the “WTI Futures Contracts”), which is an exchange of the Chicago Mercantile Exchange Group Inc. (“CME Group”).

What is the investment strategy?

In seeking to achieve the Sub-Fund’s investment objective, the Manager will adopt a full replication strategy through investing directly in WTI Futures Contracts so as to give the Sub-Fund the performance of the Index. In entering the WTI Futures Contracts, the Manager anticipates that not more than 20% of the Net Asset Value of the Sub-Fund from time to time will be used as margin to acquire the WTI Futures Contracts.

Not less than 80% of the Net Asset Value of the Sub-Fund will be invested in cash (HKD), cash equivalents and HKD or USD denominated short term investment grade government bonds (rated by Standard & Poor’s, Moody’s or Fitch). It is anticipated that the investment in bonds will not exceed 50% of the Net Asset Value of the Sub-Fund.

Any yield from these investments will be used to meet the Sub-Fund’s fees and expenses and after deduction of such fees and expenses the remainder may be distributed by the Manager to Unitholders in HKD at the discretion of the Manager.

Other than WTI Futures Contracts, the Manager has no intention to invest the Sub-Fund in any financial derivative instruments (including structured products or instruments) for hedging or non-hedging (i.e. investment) purposes. The Manager will seek the prior approval of the SFC and provide at least one month’s prior notice to Unitholders before the Manager engages in any such investments.

The Sub-Fund will not itself use leverage and the Sub-Fund’s global exposure to financial derivative instruments (based on the settlement price of the WTI Futures Contracts) will not exceed 100% of its Net Asset Value.

The rolling strategy of the Sub-Fund will mimic that of the Index methodology so as to closely track the Index (see “WTI Futures Contracts Roll Period” under “What is the Index” section below). For the Sub-Fund, the roll will take place over a 5 day period per month as stated in the Index methodology.

The investment strategy of the Sub-Fund is subject to the investment and borrowing restrictions set out in Part 1 of this Prospectus save as varied under the “Investment restriction waiver” and “Borrowing restriction” sections below.

Overview of the crude oil market

Overview of the Crude Oil Market

What is crude oil?

Crude oil is a naturally occurring, unrefined petroleum product composed of hydrocarbon deposits and other organic materials. Crude oil can be refined to produce usable products such as gasoline, diesel and various forms of petrochemicals. It is a non-renewable resource, also known as a fossil fuel, which means that it cannot be replaced naturally at the rate people consume it and is therefore a limited resource.

Crude oil supply

Crude oil production by the Organization of the Petroleum Exporting Countries ("OPEC") is an important factor that affects oil prices. This organisation seeks to actively manage oil production in its member countries by setting production targets. Historically, crude oil prices have seen increases in times when OPEC production targets are reduced.

OPEC member countries produce about 30% of the world's crude oil. Equally important to global prices, OPEC's oil exports represent about 60% of the total petroleum traded internationally. Because of this market share, OPEC's actions can, and do, influence international oil prices. In particular, indications of changes in crude oil production from Saudi Arabia, OPEC's largest producer, frequently affect oil prices.

The extent to which OPEC member countries utilise their available production capacity is often used as an indicator of the tightness of global oil markets, as well as an indicator of the extent to which OPEC is exerting upward influence on prices. OPEC spare capacity provides an indicator of the world oil market's ability to respond to potential crises that reduce oil supplies. As a result, oil prices tend to incorporate a rising risk premium when OPEC spare capacity reaches low levels. Markets are influenced by geopolitical events within and between OPEC countries because they have, historically, resulted in reductions in oil production. Given OPEC's market significance, events that entail an actual or future potential loss of oil supplies can produce strong reactions in oil prices.

Oil production from countries outside the OPEC currently represents about 70% of world oil production. Key centers of non-OPEC production include North America, regions of the former Soviet Union and the North Sea.

In contrast to OPEC oil production, which is subject to central coordination, non-OPEC producers make independent decisions about oil production. Also, in contrast to OPEC, where oil production is mostly in the hands of national oil companies ("NOCs"), international or investor-owned oil companies ("IOCs") perform most of the production activities in non-OPEC countries. IOCs seek primarily to increase shareholder value and make investment decisions based on economic factors. While some NOCs operate in a similar manner as IOCs, many have additional objectives such as providing employment, infrastructure or revenue that impact their country in a broader sense. As a result, non-OPEC investment and thus future supply capability, tends to respond more readily to changes strictly in market conditions.

Producers in non-OPEC countries are generally regarded as price takers, that is, they respond to market prices rather than attempt to influence prices by managing production. As a result, non-OPEC producers tend to produce at or near full capacity and so have little spare capacity.

Crude oil demand

OECD consists of the United States, much of Europe, and other advanced countries. At 53% of world oil consumption in 2010, these large economies consume more oil than the non-OECD countries, but oil consumption in the OECD countries has declined since 2001 and was at 49% of world oil consumption in 2014, whereas non-OECD consumption rose 38% during the same period.

Structural conditions in each country's economy influence the relationships among oil prices, economic growth and oil consumption. Developed countries tend to have higher vehicle ownership per capita. Because of this, oil use within the OECD transportation sector usually accounts for a larger share of total oil consumption than in non-OECD countries. It is also more mature and slower-growing. Economic conditions and policies that affect the transport of goods and people thus have a significant impact on total oil consumption in OECD countries. Many OECD countries have higher fuel taxes and policies to improve the fuel economy of new vehicles and increase the use of biofuels. This tends to slow the growth in oil consumption even in times of strong economic growth. Furthermore, the economies in OECD countries tend to have larger service sectors relative to manufacturing. As a result, strong economic growth in these countries may not have the same impact on oil consumption as it would in non-OECD countries.

OECD countries tend to have fewer subsidies on end-use prices, so changes in market oil prices are often quickly reflected in prices faced by consumers. However, it takes time for people to adjust their transportation routines and for the vehicle stock to turn over and become more energy-efficient in response to price changes.

Changes in expected future oil prices also affect consumers' decisions concerning modes of transportation and vehicle purchases. If prices are expected to remain high or increase in the future, more consumers may decide to purchase more fuel efficient vehicles or use public transportation. Decisions like these help to reduce future oil demand and would tend to moderate expected price increases.

Oil consumption in developing countries that are not part of the OECD has risen sharply in recent years. While oil consumption in the OECD countries declined from 63% in 2010 to 49% in 2014, non-OECD oil consumption increased from 37% in 2010 to 51% in 2014. China, India, and Saudi Arabia had the largest growth in oil consumption among the countries in the non-OECD during this period.

Rising oil consumption reflects rapid economic growth in these countries. Current and expected levels of economic growth heavily influence global oil demand and oil prices. Commercial and personal transportation activities, in particular, require large amounts of oil and are directly tied to economic conditions. Many manufacturing processes consume oil as fuel or use it as feedstock, and in some non-OECD countries, oil remains an important fuel for power generation. Because of these uses, oil prices tend to rise when economic activity and in turn oil demand is growing strongly. Many non-OECD countries are also experiencing rapid growth in population, which is an additional factor supporting strong oil consumption growth.

Structural conditions in each country's economy further influence the relationship between oil prices and economic growth. Developing countries tend to have a greater proportion of their economies in manufacturing industries, which are more energy intensive than service industries. Although transportation oil use is usually a smaller share of total oil consumption in non-OECD countries, this use tends to increase rapidly as expanding economies increase the need to move goods and people. Vehicle ownership per capita is also highly correlated with rising incomes and has much room to grow in non-OECD countries. For these reasons, non-OECD economic growth rates tend to be an important factor affecting oil prices. China's strong economic growth has recently resulted in that country becoming the largest energy consumer and second largest oil consumer in the world. In addition, China's rising oil consumption has been a major contributor to incremental growth in worldwide oil consumption. US Energy Information Administration projects that virtually all the net increase in oil consumption in the next 25 years will come from non-OECD countries.

Although oil use is clearly tied to economic activity, energy policies also significantly affect that relationship. Many developing countries, for example, control or subsidize end-use prices, which inhibits consumer response to market price changes. This reduced demand response to price changes further contributes to the importance of economic growth as a key driver of non-OECD demand and in turn global oil prices.

Crude oil prices

Crude oil prices measure the spot price of various barrels of crude oil, most commonly either the West Texas Intermediate (“WTI”) or the Brent Blend. The OPEC basket price and the NYMEX futures price are also sometimes quoted.

WTI crude oil is of very high quality because it is light-weight and has low sulphur content. For these reasons, it is often referred to as “light, sweet” crude oil. These properties make it excellent for making gasoline. That is why it is the major benchmark of crude oil in the Americas. Please refer to “What is WTI crude oil” below for more information on WTI crude oil.

Brent Blend is a combination of crude oil from 15 different oil fields in the North Sea. It is less “light” and “sweet” than WTI, but still excellent for making gasoline. It is refined in Northwest Europe and is the primary benchmark for other crude oil in Europe or Africa.

As crude oil is traded in a global market, prices of the many crude oil streams produced globally tend to move closely together, although there are persistent differentials between light-weight, low-sulphur (light-sweet) grades and heavier, higher-sulphur (heavy-sour) crudes that are lower in quality.

Both crude oil and petroleum product prices can be affected by events that have the potential to disrupt the flow of oil and products to market, including geopolitical and weather-related developments. These types of events may lead to actual disruptions or create uncertainty about future supply or demand, which can lead to higher volatility in prices. The volatility of oil prices is inherently tied to the low responsiveness or “inelasticity” of both supply and demand to price changes in the short run. Both oil production capacity and the equipment that use petroleum products as their main source of energy are relatively fixed in the near term. It takes years to develop new supply sources or vary production, and it is very hard for consumers to switch to other fuels or increase fuel efficiency in the near term when prices rise. Under such conditions, a large price change can be necessary to re-balance physical supply and demand following a shock to the system.

Much of the world's crude oil is located in regions that have been prone historically to political upheaval, or have had their oil production disrupted due to political events. Several major oil price shocks have occurred at the same time as supply disruptions triggered by political events, most notably the Arab Oil Embargo in 1973-74, the Iranian revolution and Iran-Iraq war in the late 1970s and early 1980s, and Persian Gulf War in 1990. More recently, disruptions to supply (or curbs on potential development of resources) from political events have been seen in Nigeria, Venezuela, Iraq, Iran and Libya.

Given the past history of oil supply disruptions emanating from political events, market participants are always assessing the possibility of future disruptions and their potential impacts. In addition to the size and duration of a potential disruption, they also consider the availability of crude stocks and the ability of other producers to offset a potential supply loss. For example, if the market has ample spare production capacity to offset a possible disruption, its likely impact on prices would be smaller than if spare production capacity was much lower. When there are significant concerns about the potential for a disruption at a time when spare capacity and inventories are not seen as sufficient to substantially offset the associated loss in supply, prices may be above the level that might be expected if only current demand and supply were considered, as forward-looking behaviour adds a “risk premium”.

Weather can also play a significant role in oil supply. Hurricanes in 2005, for example, shut down oil and natural gas production as well as refineries. As a result, petroleum product prices increased sharply as supplies to the market dropped. Severely cold weather can strain product markets as producers attempt to supply enough of the product, such as heating oil, to consumers in a short amount of time, resulting in higher prices. Other events such as refinery outages or pipeline problems can restrict the flow of oil and products, driving up prices.

However, the influence of these types of factors on oil prices tends to be relatively short lived. Once the problem subsides and oil and product flows return to normal, prices usually return to previous levels.

Oil price and financial market

Market participants not only buy and sell physical quantities of oil, but also trade contracts for the future delivery of oil and other energy derivatives. One of the roles of futures markets is price discovery, and as such, these markets play a role in influencing oil prices.

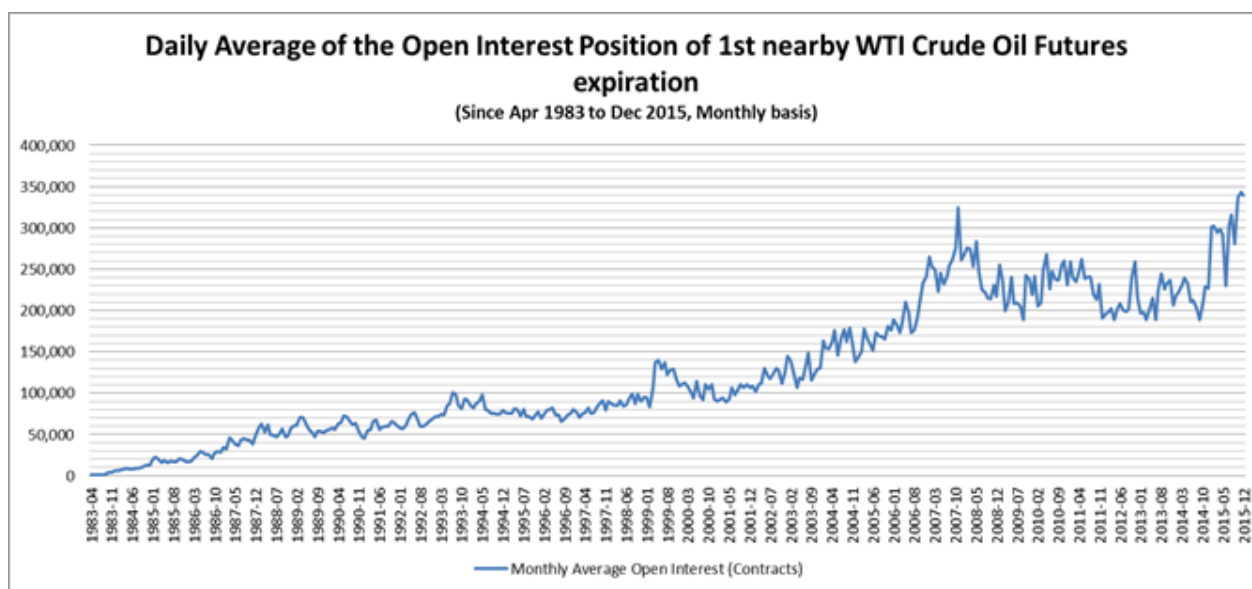

Oil market trading activity involves a range of participants with varying motivations, even within individual participants. Some, such as oil producers and airlines, have a significant commercial exposure to changes in the price of oil and petroleum-based fuels, and may seek to hedge their risk by buying and selling energy derivatives. For example, an airline may want to buy futures or options in order to avoid the possibility that its future fuel costs will rise above a certain level, while an oil producer may want to sell futures in order to lock in a price for its future output.

Banks, hedge funds, commodity trading advisors, and other money managers who often do not have interests in trading physical oil are also active in the market for energy derivatives to try to profit from changes in prices. In recent years, investors have also shown interest in adding energy and other commodities as alternatives to equity and bond investments to diversify their portfolios or to hedge inflation risks.

Activity in commodity exchange contracts has risen in recent years. One measure of activity in futures markets is open interest on exchanges, which indicates the number of contracts in a trading session that have not been settled or closed.

Banks, hedge funds and other “non-commercial” investors can add liquidity to futures and derivative markets by taking the other side of transactions with commercial participants. On the other hand, concerns have been raised that non-commercial commodity trading and investment may amplify price movements, particularly at times when momentum is running strongly in a particular direction.

Activity in commodity exchange contracts has risen in recent years. One measure of activity in futures markets is open interest on exchanges, which indicates the number of contracts in a trading session that have not been settled or closed.

Open interest on exchange-traded crude oil futures contracts increased substantially over the past decade, as measured by the NYMEX, the main commodities exchange for energy products in the United States.

Both commercial participants with “real” demand for oil and non-commercial investors, such as money managers and funds that are interested in trading contracts for investment and diversification purposes, have shown increased trading activity.

In addition to Futures Contracts, another way for market participants to invest in crude oil is through the buying and selling of options contracts. Options allow for investment exposure with limited potential for losses and provide an insurance-like instrument against adverse commodity price movements.

What is WTI crude oil?

West Texas Intermediate (WTI) crude oil, also known as Texas light sweet, is a grade of crude oil used as a benchmark in oil pricing. WTI consists of a blend of several U.S. domestic streams of light sweet crude oil. As a pricing mechanism for physical delivery of crude oil in North America, WTI is firmly rooted in the physical market. Because of the unique immediacy, breadth, and depth of pricing and inventory data supplied by the U.S. government, and because onshore North American production has been a key driver of growing global crude oil supply over the past decade, WTI is widely regarded as the crude oil benchmark that reflects the supply and demand dynamics of the market.

This grade is described as light because of its relatively low density, and sweet because of its low sulphur content. Due to its high viscosity and low sulphur content, WTI crude oil can produce a high yield of gasoline during the refining process. WTI crude oil is the underlying commodity of the WTI Futures Contracts.

What are WTI Futures Contracts?

WTI Futures Contracts are standardised contracts where the parties agree to exchange WTI crude oil at a future date at a pre-determined price. They are traded on the NYMEX in USD. The parent company of NYMEX is CME Group Inc., which is an American futures company and one of the largest futures and options exchanges. It comprises four exchanges, namely Chicago Mercantile Exchange ("CME"), Chicago Board of Trade ("CBOT"), NYMEX and Commodity Exchange Inc. ("COMEX"). WTI Futures Contract is one of the deepest and most liquid global energy benchmarks, trading nearly 850,000 futures and options contracts daily. The open interest of WTI Futures Contracts exceeds 3 million lots, equivalent to more than 3 billion barrels.

WTI Futures Contracts have the following characteristics:

- (a) WTI Futures Contracts provide a basic unit of account in increments of 1,000 barrels and minimum fluctuation as USD0.01 per barrel.
- (b) WTI Futures Contracts are listed nine years forward using the following listing schedule: consecutive months are listed for the current year and the next five years. In addition, the June and December contract months are listed beyond the sixth year. Additional months will be added on an annual basis after the December contract expires, so that an additional June and December contract would be added nine years forward, and the consecutive months in the sixth calendar year will be filled in.
- (c) Market participants can trade WTI Futures Contracts on CME Globex from Sunday to Friday 5:00 p.m. to 4:00 p.m. (Chicago Time) with a 60-minute break each day beginning at 4:00 p.m. (Chicago time).
- (d) Trading in the current delivery month shall cease on the third CME Business Day (which is a day on which the CME is open for business) prior to the twenty-fifth calendar day of the month preceding the delivery month. If the twenty-fifth calendar day of the month is a non CME Business Day, trading shall cease on the third CME Business Day prior to the last CME Business Day preceding the twenty-fifth calendar day. For example, since 25 June 2016 is a non-CME Business Day, July 2016 contract's trading shall cease on 21 June 2016, which is the third CME Business Day prior to 24 June 2016 (Friday) (three CME Business Days prior to the last CME Business Day preceding the twenty-fifth calendar day).
- (e) Upon a transaction's acceptance by CME Clearing, a central counterparty imposes itself as the legal counterparty to every trade, which effectively eliminates counterparty risks between market participants. This substitution of counterparties is accomplished through the legal process of contract novation, which discharges the contract between the original trading counterparties and creates two new, legally binding contracts – one between each of the original trading counterparties and CME Clearing.

- (f) The margin requirement of WTI Futures Contracts is subject to change. Currently, margin requirement of WTI futures July 2016 contract is USD 3,740.
- (g) CME Clearing accepts a wide range of collateral for deposit into trading accounts, including USD, select foreign currencies, U.S. Treasuries, select foreign sovereign debt, asset-backed securities and agency bonds.
- (h) CME Clearing manages the collateral based on a future contract's daily settlement price which is based on CME Globex VWAP between 2:28 p.m. and 2:30 p.m. Eastern Time.
- (i) The single month accountability level is 10,000 contracts and all month accountability level is 20,000 contracts. Position accountability levels are levels which a market participant may exceed and not be in violation of CME rule. A market participant who exceeds an accountability level and/or a reportable level may be asked by CME Group Inc. to provide information relating to the position. Failure to supply the requested information may result in an order to reduce such positions.
- (j) The reportable level is 350 contracts. The reportable level is level at which clearing members, omnibus accounts and foreign brokers are required to submit to CME a daily report of all positions.
- (k) If the lead contract month (as identified by NYMEX) is bid or offered at the upper or lower price fluctuation limit at the first special price fluctuation limit level (10 USD/barrel as at 8 April 2016), it will be considered a triggering event that will begin a two (2) minute monitoring period in the lead contract month. If, at the end of the two (2) minute monitoring period, the lead contract month of the Futures Contract is not bid or offered at the applicable special price fluctuation limit, the special price fluctuation limits shall be expanded an additional increment above and below the previous day's settlement price for all contract months of the Futures Contracts. If, however, at the end of the two (2) minute monitoring period, the lead contract month of the Futures Contract is bid or offered at the applicable special price fluctuation limit, a two (2) minute temporary trading halt will commence in all contract months of the futures contract. Following the end of a temporary trading halt, NYMEX shall re-open simultaneously in all contract months of the Futures Contract. When trading resumes, the special price fluctuation limits shall be expanded an additional increment above and below the previous day's settlement price for all contract months of the Futures Contract. In each instance in which a triggering event occurs, a two (2) minute monitoring period will commence. In each instance, the special price fluctuation limits shall be expanded by an additional increment above and below the previous day's settlement price for all contract months of the futures contract. Following the fourth triggering event on a trading day, there shall be no further special price fluctuation limits. For example if the settlement price of the WTI Futures Contract on T day is USD 45 per barrel, then if the price goes up to USD 55 on T+1 day, it will be considered a triggering event that will begin a 2 minute monitoring period. If at the end of the 2 minute monitoring period, the lead contract month of the Futures Contract is not bid or offered at the applicable special price fluctuation limit, i.e. USD65, the special price fluctuation limits will be further expanded by USD 10. The special price fluctuation limit can be expanded up to 4 times. There will be no price fluctuation limit after the 4th triggering event.

The above position accountability levels and reportable level are applicable to the Sub-Fund.

Futures exchanges (including CME) and clearing houses in the United States are subject to regulation by the CFTC. CME may adopt rules and take other actions that affect trading, including imposing speculative position limits, maximum price fluctuations and trading halts and suspensions and requiring liquidation of contracts in certain circumstances. Please refer to "Position limits risk" below.

For more information, please refer to "Crude Oil Futures" under "Energy products" on the CME group website.

What is the Index?

This section is a brief overview of the Index. It contains a summary of the principal features of the Index and is not a complete description of the Index. As of the date of this Prospectus, the summary of the Index in this section is accurate and consistent with the complete description of the Index. Complete information on the Index appears in the website identified below. Such information may change from time to time and details of the changes will appear on that website.

S&P GSCI Index Series

The S&P GSCI Index Series provides investors with publicly available benchmarks for investment performance in the commodity markets. The indices are designed to be tradable, readily accessible to market participants and cost efficient to implement.

The S&P GSCI, the main index of the S&P GSCI Index Series, is a futures based index and is recognised as a leading measure of general commodity price movements and inflation in the world economy.

The S&P GSCI is calculated primarily on a world production weighted basis, and is comprised of the principal physical commodities that are the subject of active and liquid futures markets.

To be included in the S&P GSCI for a given year, the Futures Contracts must be commodities based and must satisfy several sets of eligibility criteria:

- (a) Non-Financial commodities: the Futures Contract must be on a physical commodity and may not be on a financial commodity (e.g. securities, currencies, interest rates, etc.). The Futures Contracts on a particular commodity need not require physical delivery by their terms in order for the commodity to be considered a physical commodity.
- (b) Certain contract characteristics: (i) the Futures Contract must have a specified expiration or term or provide in some other manner for delivery or settlement at a specified time, or within a specified time period, in the future; (ii) the Futures Contract must, at any given point in time, be available for trading at least five months prior to its expiration or such other date or time period specified for delivery or settlement; and (iii) the trading facility on which the Futures Contract is traded must allow market participants to roll three sets of futures contracts with consecutive expiry dates through a single order entry at any time.
- (c) Denomination and geographical requirements: the Futures Contract must be denominated in USD and traded on or through a trading facility that has its principal place of business or operations in a country that is a member of the Organization for Economic Cooperation and Development (the "OECD").
- (d) Availability of daily contract reference price: the Futures Contract must have at least two years of available daily contract reference prices.
- (e) Availability of volume data: the Futures Contract must have at least three months of available volume data.
- (f) Contract volume: the Futures Contract must have an annualised total USD value traded of at least USD15 billion.
- (g) Weight: the Futures Contract must have a reference percentage dollar weight of at least 1%.
- (h) Other requirements with respect to trading facilities: The trading facility on or through which a Futures Contract is traded must: (a) make price quotations generally available to its members or participants (and to S&P Dow Jones Indices) in a manner and with a frequency that is sufficient to provide reasonably reliable indications of the level of the relevant market at any given point in time; (b) make reliable trading volume information available to S&P Dow Jones Indices with at least the frequency required by S&P Dow Jones Indices to make

the monthly determinations; (c) accept bids and offers from multiple participants or price providers (i.e. it must not be a single-dealer platform); and (d) be accessible by a sufficiently broad range of participants.

The number of Futures Contracts is then determined. At that point, the list of designated Futures Contracts for the relevant S&P GSCI year is complete and production weights can be determined. There is no limit on the number of Futures Contracts that may be included in the S&P GSCI.

General Information

The S&P GSCI Crude Oil Enhanced Index Excess Return (the "Index") is part of a series of sub-indices of S&P GSCI calculated by S&P. The Index represents the crude oil sector of the S&P GSCI and is designed as a benchmark for investment in the crude oil market and as a measure of WTI Futures Contracts price over time. The Index is calculated on a basis similar to the S&P GSCI, but modified to apply certain additional rolling rules as described below.

The Index is denominated in USD. The Index was launched on 22 September 2009 and had a base value of 100 as at 16 January 1995.

The Index is composed of WTI Futures Contracts with different expiration dates.

Index methodology

Value of the Index

On any given day, the value of the Index is equal to the total dollar weight of the Index divided by a normalizing constant, which assures the continuity of the Index over time. The total dollar weight of the Index is the total dollar weight of the WTI Futures Contract, which on any given day is equal to the product of:

- (a) the daily contract reference price;
- (b) the appropriate contract production weight ("CPW"); and
- (c) the appropriate "roll weights" needed during a roll period (as explained below).

Calculation of the Index

The value of the Index on any S&P GSCI Business Day is equal to the product of:

- (a) the value of the Index on the immediately preceding S&P GSCI Business Day;
- (b) one plus the sum of the WTI Futures Contract daily return and the treasury bill return on the hypothetical investment in the Index on the S&P GSCI Business Day on which the calculation is made; and
- (c) one plus the treasury bill return on the hypothetical investment in the Index for each non S&P GSCI Business Day since the immediately preceding S&P GSCI Business Day.

Contract Daily Return

The following formula is used to calculate the WTI Futures Contract daily return:

$$(\text{daily contract reference price}_d \times \text{CPW} \times \text{roll weight}_d / \text{total value weight}_{d-1}) - 1$$

On any given day, the WTI Futures Contract daily return is equal to the applicable daily contract reference price on the WTI Futures Contract multiplied by the CPW and the appropriate "roll weight", divided by the total dollar weight of the Index on the preceding day, minus one.

Enhanced Index: Enhanced Monthly Rolling Rule

Every month, certain WTI Futures Contracts included in the Index are replaced by contracts

that have different expiration dates. For example, a contract purchased and held in August may specify an October expiration. As time passes, the contract expiring in October is replaced by a contract for delivery in November (unless the contango between the first and second contract month is more than 0.50%, as explained in “WTI Futures Contracts Roll Period” below). This is accomplished by selling the October contract and purchasing the November contract. This process is referred to as “rolling”.

The new WTI Futures Contracts (with different expiration dates) to which existing WTI Futures Contracts will be rolled depend on the “contango” (i.e. the situation where futures contract prices of the distant delivery months are higher than those of the nearer delivery months) between the nearest contract month and the next nearest contract month on the assessment date.

Contango is calculated by the following formula:

$$\frac{\text{Daily settlement price of WTI Futures Contracts for the next nearest contract month}}{\text{Daily settlement price of WTI Futures Contracts for the nearest contract month}} - 1$$

Please see below a table setting out the nearest contract month and the next nearest contract month at the end of each month:

Roll Month	Nearest contract month	Next nearest contract month
Jan	Jan contract	Feb contract
Feb	Feb contract	Mar contract
Mar	Mar contract	Apr contract
Apr	Apr contract	May contract
May	May contract	Jun contract
Jun	Jun contract	Jul contract
Jul	Jul contract	Aug contract
Aug	Aug contract	Sep contract
Sep	Sep contract	Oct contract
Oct	Oct contract	Nov contract
Nov	Nov contract	Dec contract
Dec	Dec contract	Jan contract

Excluding other considerations, if the market for the contracts is in “contango”, where the prices are higher in the distant delivery months than in the nearer delivery months, the sale of the October contract would take place at a price that is lower than the price of the November contract. Accordingly sale proceeds when rolling (selling the October contracts and then buying the November contracts) will not be sufficient to purchase the same number of November contracts which have a higher price, thereby creating a negative “roll yield”.

WTI Futures Contracts Roll Period

During the rolling process, the Index gradually reduces the proportion (the “roll weight”) of certain existing contracts and increases the roll weight of the contracts with different expiry date over a five day period (commencing on the 1st S&P GSCI Business Day of the month) (the “roll period”).

The rolling strategy of the Sub-Fund will mimic that of the Index methodology so as to closely track the Index. Accordingly, three S&P GSCI Business Days before the first S&P GSCI Business Day of each month, the following rolling rules apply to determine into which new expiration a WTI Futures Contract which is held by the Sub-Fund is rolled:

- (1) If the contract determination date falls between January to June:
 - (a) if the contango is greater than 0.50%:
 - (i) any current year’s December WTI Futures Contracts (i.e. WTI Futures Contracts with a delivery date of crude oil in December of the current year) held by the Sub-Fund will be kept; and
 - (ii) the remaining WTI Futures Contracts held by the Sub-Fund will be rolled to the current year’s December WTI Futures Contracts;
 - (b) if the contango is 0.50% or less:
 - (i) any current year’s December WTI Futures Contracts held by the Sub-Fund will be replaced by the next nearest contract month’s WTI Futures Contracts; and
 - (ii) the remaining WTI Futures Contracts held by the Sub-Fund will be rolled to the next nearest contract month’s WTI Futures Contracts;
- (2) If the contract determination date falls within July:
 - (a) if the contango is greater than 0.50%, any WTI Futures Contracts held by the Sub-Fund will be rolled to the next year’s December WTI Futures Contracts;
 - (b) if the contango is 0.50% or less:
 - (i) any current year’s December WTI Futures Contracts held by the Sub-Fund will be replaced by the next nearest contract month’s WTI Futures Contracts; and
 - (ii) the remaining WTI Futures Contracts held by the Sub-Fund will be rolled to the next nearest contract month’s WTI Futures Contracts;
- (3) If the contract determination date falls between August to December:
 - (a) if the contango is greater than 0.50%:
 - (i) any next year’s December WTI Futures Contracts held by the Sub-Fund will be kept; and
 - (ii) the remaining WTI Futures Contracts held by the Sub-Fund will be rolled to the next year’s December WTI Futures Contracts;
 - (b) if the contango is 0.50% or less, any next year’s December WTI Futures Contracts and the remaining WTI Futures Contracts held by the Sub-Fund will be replaced by the next nearest contract month’s WTI Futures Contracts.

The following table summarises the rolling strategy of the Sub-Fund:

Contract determination date	Roll Period	Contango	Roll Month	Contract Month After Roll
3 S&P GSCI Business Days before the 1 st S&P GSCI Business Day of each month	1 st to 5 th S&P GSCI Business Days of each month	> 0.5%	Jan	Dec contract of the current year
			Feb	
			Mar	
			Apr	
			May	
			Jun	
			Jul	Dec contract of the next year
			Aug	
			Sep	
			Oct	
			Nov	
			Dec	
	<= 0.5%	Jan	Mar contract of the current year	
		Feb	Apr contract of the current year	
		Mar	May contract of the current year	
		Apr	Jun contract of the current year	
		May	July contract of the current year	
		Jun	Aug contract of the current year	
		Jul	Sep contract of the current year	
		Aug	Oct contract of the current year	
		Sep	Nov contract of the current year	
		Oct	Dec contract of the current year	
		Nov	Jan contract of the next year	
		Dec	Feb contract of the next year	

The table below sets out a few examples to illustrate the implementation of rolling strategy:

Roll Month	Contango	Holding before Rolling	Contract Month		Weights of Contract Holdings at the end of S&P GSCI Business Day in each month				
			Roll out (sell)	Roll in (buy)	1 st	2 nd	3 rd	4 th	5 th
Apr 2016	-	-	-	Jun 2016 contract	-	-	-	-	-
May 2016	1.0%	Jun 2016 contract	Jun 2016 contract	Dec 2016 contract	80% Jun 2016 20% Dec 2016	60% Jun 2016 40% Dec 2016	40% Jun 2016 60% Dec 2016	20% Jun 2016 80% Dec 2016	100% Dec 2016

Jun 2016	1.0%	Dec 2016 contract	Dec 2016 contract	Dec 2016 contract	100% Dec 2016	100% Dec 2016	100% Dec 2016	100% Dec 2016	100% Dec 2016
July 2016	1.0%	Dec 2016 contract	Dec 2016 contract	Dec 2017 contract	80% Dec 2016 20% Dec 2017	60% Dec 2016 40% Dec 2017	40% Dec 2016 60% Dec 2017	20% Dec 2016 80% Dec 2017	100% Dec 2017
Aug 2016	0.2%	Dec 2017 contract	Dec 2017 contract	Oct 2016 contract	80% Dec 2017 20% Oct 2016	60% Dec 2017 40% Oct 2016	40% Dec 2017 60% Oct 2016	20% Dec 2017 80% Oct 2016	100% Oct 2016
Sep 2016	0.2%	Oct 2016 contract	Oct 2016 contract	Nov 2016 contract	80% Oct 2016 20% Nov 2016	60% Oct 2016 40% Nov 2016	40% Oct 2016 60% Nov 2016	20% Oct 2016 80% Nov 2016	100% Nov 2016
Oct 2016	1.0%	Nov 2016 contract	Nov 2016 contract	Dec 2017 contract	80% Nov 2016 20% Dec 2017	60% Nov 2016 40% Dec 2017	40% Nov 2016 60% Dec 2017	20% Nov 2016 80% Dec 2017	100% Dec 2017

Excess Return

The return of the Index is calculated based on the change in price levels of the WTI Futures Contracts as well as the gain or loss obtained by “rolling” hypothetical positions in such WTI Futures Contracts.

The Index is an excess return (and not a total return) index and therefore reflects the positive or negative return of the underlying WTI Futures Contracts price movements only (and not any notional interest earnings).

Index Provider

The Index Provider is S&P Dow Jones Indices (“S&P”).

The Manager (and each of its Connected Persons) is independent of the Index Provider.

S&P has established an Index Committee to oversee the daily management and operations of the S&P GSCI (and all related sub-indices), and is responsible for all analytical methods and calculation in the indices, as well as the index rules that govern the S&P GSCI and the annual rebalancing of the S&P GSCI.

Index codes and information

Bloomberg Code: SGESCLP

Thomson Reuters Code: .SGESCLP

The Index is calculated on a real-time basis (updated every 15 seconds) during the trading hours of the NYMEX.

You can obtain additional information concerning the Index (including Index fact sheets, methodology, end of day Index levels and Index performance) from the website of the Index Provider at <http://us.spindices.com/indices/commodities/sp-gsci-crude-oil-enhanced>.

Index licence agreement

The initial term of the licence of the Index commenced on 20 October 2015 and shall be valid for an initial term of 5 years. After the expiry of the initial term, the licence shall renew automatically for consecutive renewal terms of 3 years, unless either party to the licence agreement provides written notice of termination to the other party of its intent not to renew at least 90 days prior to the end of the initial term or the then current term. The licence agreement may otherwise be terminated in accordance with the provisions of the licence agreement.

Index disclaimer

THERE ARE NO THIRD PARTY BENEFICIARIES OF ANY AGREEMENTS OR ARRANGEMENTS BETWEEN S&P DOW JONES INDICES AND MIRAE ASSET GLOBAL INVESTMENTS (HONG KONG) LIMITED, OTHER THAN THE LICENSORS OF S&P DOW JONES INDICES.

Creations

The current Dealing Deadline After Listing is 4:00 p.m. (Hong Kong time) on the relevant Dealing Day, or such other time as the Manager (with the approval of Trustee) may determine on any day when the trading hours of the SEHK are reduced.

All Creation Applications must be made in cash (in HKD only). There may be a difference between the day-end WTI crude oil spot price and the Sub-Fund's market opening price. Settlement in cash for subscribing Units is due at the time specified in the Operating Guidelines on the relevant Dealing Day in accordance with the Operating Guidelines.

The attention of investors is drawn to the section entitled "The Offering Phases" in Part 1 of this Prospectus.

Exchange listing and trading (secondary market)

The Units are listed on the SEHK. They are traded in HKD and in board lots of 500 Units.

Units are neither listed nor dealt on any other stock exchange and no application for such listing or permission to deal is being sought as at the date of this Prospectus. Application may be made in the future for a listing of Units on one or more other stock exchanges. Investors attention is drawn to the section entitled "Exchange Listing and Trading (Secondary Market)" in Part 1 of this Prospectus for further information.

Participating Dealers should note that they will not be able to sell or otherwise deal in the Units on the SEHK until dealings begin on the SEHK.

Redemptions

Units can be redeemed directly (through a Participating Dealer). Redemption proceeds shall be paid in HKD only.

Stamp duty

The Sub-Fund

Profit Tax: As the Sub-Fund has been authorised as a collective investment scheme by the SFC

under Section 104 of the SFO, profits of the Sub-Fund arising from the sale or disposal of WTI Futures Contracts, net investment income received by or accruing to the Sub-Fund and other profits of the Sub-Fund are exempt from Hong Kong profits tax.

Stamp Duty: No Hong Kong stamp duty is payable by the Sub-Fund on an issue or redemption of Units.

The Unitholders

Profit Tax: Hong Kong profits tax is not payable by a Unitholder (other than Unitholders carrying on a trade, profession or business of investing in securities in Hong Kong) on any gains or profits made on the sale, redemption or other disposal of the Units.

Stamp Duty: Stamp duty payable in respect of any transfer in the shares or units of an exchange traded fund (as defined in Part 1 to Schedule 8 of the Stamp Duty Ordinance (Cap. 117) of Hong Kong) on the SEHK is not payable. Accordingly transfers of Units do not attract stamp duty and no stamp duty is payable by Unitholders on any transfer.

Participating Dealers pay no Hong Kong ad valorem stamp duty when the Sub-Fund issues or redeems Units.

Distribution policy

Income may be distributed at the Manager's discretion to Unitholders annually (usually in March). The Manager will make an announcement prior to any distribution in respect of the relevant distribution amount in HKD only. Distributions may not be paid if the cost of the Sub-Fund's operations is higher than the yield from management of the Sub-Fund's cash and holdings of investments. There is no current intention to make distribution out of capital or effectively out of capital.

Investment restriction waiver

Because the margin requirements for WTI Futures Contracts are higher than 5% and the Manager expects that for WTI Futures Contracts, the applicable margin requirement will be higher than 10%, the Manager has requested of the SFC, and the SFC has granted, a waiver in respect of the Sub-Fund from the requirement under Chapter 8.4A(e) of the Code that the Sub-Fund may not hold open positions in any WTI Futures Contracts month for which the combined margin requirement represents 5% or more of the Net Asset Value of the Sub-Fund. The purpose of the waiver is to enable the Manager in respect of the Sub-Fund to pursue a full replication strategy with regards to holdings of WTI Futures Contracts which it otherwise would not be able to do. This enables the Manager to reduce the Sub-Fund's tracking error. In granting this waiver, the SFC has imposed a further condition that the Sub-Fund will not itself use leverage and the Sub-Fund's global exposure to financial derivative instruments (based on the settlement price of the WTI Futures Contracts) will not exceed 100% of its Net Asset Value.

Borrowing restriction

Borrowing for the account of the Sub-Fund may only be effected on a temporary basis for the purposes of meeting redemption requests or defraying operating expenses.

Fees and expenses

Management Fee

The Manager is entitled to receive a management fee of up to 0.99% per year of the Net Asset Value of the Sub-Fund. The current management fee in respect of the Sub-Fund is 0.75% and is accrued daily and calculated as at each Dealing Day and payable monthly in HKD in arrears. This fee is payable out of the Trust Fund.

Trustee's and Registrar's Fees

The Trustee receives out of the assets of the Sub-Fund a monthly trustee's fee, payable in arrears, accrued daily and calculated as at each Dealing Day at 0.12% per year of the Net Asset Value of the Sub-Fund, subject to a monthly minimum of HKD78,000 and waived for the 12 calendar months from the Listing Date. The Trustee is also entitled to receive a transaction fee of HKD120 on each open and closed WTI Futures Contract of the Sub-Fund.

The Registrar is entitled to receive from the Sub-Fund a registrar fee of HKD160 per Participating Dealer per transaction for updating of the register record of the Sub-Fund and from the Participating Dealer a Transaction Fee of HKD4,000 per Participating Dealer per transaction for handling any cash creation and redemption of Units of the Sub-Fund (payable by the Participating Dealer).

Brokerage Rates

The Sub-Fund shall bear all costs and brokerage commissions associated with trading transactions through its broker account. Brokerage fees will be charged by a broker at its institutional rates.

Sub institutional market rates vary with the contract and the market on which the contract is traded. The rates comprise of two elements: (a) charges incurred in executing a trade such as floor brokerage, exchange-clearing, execution fees and related expenses; and (b) a charge of approximately USD3.5 per WTI Futures Contract levied by the broker.

The above rates will amount to approximately 0.03% per annum of the Net Asset Value and may increase to approximately 0.21% per annum of the Net Asset Value in the event of unusual circumstances such as a high level of turnover.

Since commission is only charged once for each transaction in WTI Futures Contracts, transaction costs are considered low compared to purchasing or selling the physical asset.

Risks factors specific to the Sub-Fund

In addition to the risk factors presented in Part 1 of this Prospectus (all of which are relevant to the Sub-Fund), the risk factors set forth below are also specific risks, in the opinion of the Manager, considered to be relevant and presently applicable specifically to the Sub-Fund.

Risk relating to commodities market investments

Commodity Markets Specific Risks

Several factors may affect the price of commodities such as WTI crude oil and, in turn, WTI Futures Contracts owned by the Sub-Fund, including, but not limited to:

- (a) Significant increases or decreases in the available supply of a physical commodity due to natural or technological factors. Natural factors would include depletion of known cost-effective sources for a commodity or the impact of severe weather on the ability to produce or distribute the commodity. Technological factors, such as increases in availability created by new or improved extraction, refining and processing equipment and methods or decreases caused by failure or unavailability of major refining and processing equipment (for example, shutting down or constructing oil refineries), also materially influence the supply of such commodities;
- (b) Significant increases or decreases in the demand for a physical commodity due to natural or technological factors. Natural factors would include such events as unusual climatological conditions impacting the demand for commodities. Technological factors may include such developments as substitutes for particular commodities;

- (c) A significant change in the attitude of speculators and investors towards a physical commodity. Should the speculative community take a negative or positive view towards any given commodity, it could cause a change in world prices of any given commodity, the price of all securities based upon a benchmark related to that commodity will also be affected;
- (d) Large purchases or sales of physical commodities by the official sector. Governments and large institutions have large commodities holdings or may establish major commodities positions. Nations with centralised or nationalised oil production and organizations such as the Organization of Petroleum Exporting Countries (“OPEC”) control large physical quantities of crude oil. If one or more of these institutions decides or becomes able to buy or sell any such commodity in amounts large enough to cause a change in world prices, the price of Units based upon a benchmark related to that commodity will be affected;
- (e) Other political factors. In addition to the organised political and institutional trading-related activities, peaceful political activity such as imposition of regulations or entry into trade treaties, as well as political disruptions caused by societal breakdown, insurrection and/or war may greatly influence commodities prices;
- (f) A significant increase or decrease in commodity hedging activity by commodity producers. Should there be an increase or decrease in the level of hedge activity of commodity producing companies, countries and/or organizations, it could cause a change in world prices of the relevant commodity, causing the price of securities based upon a benchmark related to that commodity to be affected; and
- (g) The recent proliferation of commodity-linked, exchange traded products and their unknown effect on the commodity markets.

Crude Oil Commodity Volatility Risk

An exchange traded fund such as the Sub-Fund which has exposure to the commodities markets such as WTI crude oil may be subject to greater volatility than traditional securities. The value of crude oil may be affected by changes in overall market movements, changes in interest rates, or sectors affecting a particular commodity, such as war, embargoes, tariffs and international economic, political and regulatory developments. Investors may suffer substantial / total loss by investing in the Sub-Fund.

Spot vs. Futures Risk

The Sub-Fund tracks the Index which is based upon the price movement of the WTI Futures Contracts (i.e. contracts for delivery of WTI crude oil at some point in the future as specified in the specific contract). The Sub-Fund does not invest in the physical crude oil.

The risk of investing in a WTI Futures Contract is that it can be speculative in nature. A WTI Futures Contract is a standardised financial contract where the parties agree to exchange WTI crude oil at a future date at a future price. As a result, a futures market for crude oil is not a spot market, does not involve primary activity and is speculative in nature as deals are struck at future prices where the holder of a WTI Futures Contract is purchasing an obligation to buy or sell the crude oil at a future specified date, which may not be the best price at the time the contract is completed, and may not accurately reflect or correspond to WTI crude oil spot price at the time of delivery, depending on what happens in the markets during the intervening period.

By contrast, in a spot market WTI crude oil are sold for cash at current prices and delivered immediately. A spot market is a real time market where the transaction becomes effective immediately and the purchaser accepts delivery of, or immediately, resells the asset, e.g. crude oil.

The Sub-Fund does not invest in the physical WTI crude oil market, and the Sub-Fund is exposed to the potential risks involved of using WTI Futures Contracts which are speculative in nature.

Concentration/single commodity risk

The Sub-Fund will primarily invest in WTI Futures Contracts. The number of commodities represented by such WTI Futures Contracts is only one (i.e. only crude oil). Concentration in a single underlying commodity may result in a greater degree of volatility in a WTI Futures Contract and as a result, the Index as well as the Net Asset Value of the Sub-Fund under specific market conditions and over time. As the exposure of the Sub-Fund is concentrated in the WTI crude oil market, it is more susceptible to the effects of oil price volatility than more diversified funds.

Regulatory Change Risk

The regulation of Futures Contracts, and futures transactions in general, is a rapidly changing area of law and is subject to modification by government and judicial action. The effect of any such regulatory changes on the Sub-Fund is impossible to predict, but could be substantial and adverse. To the extent possible, the Manager will attempt to monitor such changes to determine the impact such changes may have on the Sub-Fund and what can be done, if anything, to try and limit such impact.

Position Limits Risk

In the United States the CFTC has approved its final rule on speculative position limits for Futures Contracts in certain commodities, including WTI Futures Contracts. Based on the anticipated size of the Sub-Fund and commodity markets, these speculative limits should not have a material impact on the Sub-Fund. If the Sub-Fund exceeds a speculative position limit, the Sub Fund's ability to seek additional exposure by acquiring further WTI Futures Contracts as a result of new creations of Units could be impaired, the Sub-Fund's ability to achieve its investment objective could be affected and, as a result, the Manager could be required to suspend new creations of Units. This may result in divergence between the trading price of the Unit and the Net Asset Value per Unit.

Accountability levels risk

The Sub-Fund may be asked by the CME Group Inc. to provide information relating to the position, including the nature and size of the position, the trading strategy employed with respect to the position, if it exceeds an accountability level. Failure to supply the requested information may result in an order to reduce such positions. Such reduction could potential increase the tracking error and tracking difference of the Sub-Fund.

Correlation to General Financial Markets Risk

Historically, returns of commodities Futures Contracts (including WTI Futures Contracts) have tended to exhibit low to negative correlation with the returns of other assets such as stocks and bonds. Although commodity Futures Contracts trading can provide a diversification benefit to investor portfolios because of its low to negative correlation with other financial assets, the fact that the Index is not 100% negatively correlated with financial assets such as stocks and bonds means that the Sub-Fund cannot be expected to be automatically profitable during unfavourable periods for the stock or bond market, or vice versa. If the Units perform in a manner that correlates with the general financial markets or do not perform successfully, there will be no diversification benefits for investors by investing in the Units and the Units may produce no gains to offset losses from other investments.

Non-correlation with Spot/Current Market Price Risk of the WTI Crude Oil Risk

The Sub-Fund seeks to track the Index but neither the Sub-Fund nor the Index is directly linked to the spot price of WTI crude oil. While prices of WTI Futures Contracts are, as a rule, related to the prices of an underlying physical commodity market (i.e. WTI crude oil), they are not perfectly correlated. It is possible that during certain time periods, WTI Futures Contract prices will cease to track spot price and may be substantially lower or higher than physical commodity market prices for the underlying crude oil due to differences in contract terms or as supply, demand or other

economic or regulatory factors become more pronounced.

The price of a WTI Futures Contract reflects the expected value of the WTI crude oil upon delivery in the future, whereas the spot price of a commodity reflects the immediate delivery value of the commodity. A variety of factors can lead to a disparity between the expected future price of a commodity and the spot price at a given point in time, such as the cost of storing the commodity for the term of the Futures Contract, interest charges incurred to finance the purchase of the commodity and expectations concerning supply and demand for the commodity. The price movements of a Futures Contract are typically correlated with the movements of the spot price of the referenced commodity, but the correlation is generally imperfect and price movements in the spot market may not be reflected in the futures market (and vice versa). Accordingly, the Sub-Fund may underperform a similar investment that is linked to the spot price of WTI crude oil. For example, during 2009, the Index underperformed the spot price of WTI crude oil by 71% (the level of the Index increased by 7%, while the spot price of crude oil increased by 78%). Please refer to the related educational materials issued by the Manager as set out in <http://www.miraeasset.com.hk/en/etf/3097> for more information in this regard.

Depending upon the direction and level of the Index changes, the Sub-Fund may underperform or outperform a portfolio directly holding physical WTI crude oil.

In addition, the Index may be less representative of the economy and commodity markets as a whole and might therefore not serve as a reliable benchmark for commodity market performance generally.

Risks relating to WTI crude oil

Crude Oil Price Risk

The prices of WTI crude oil are primarily affected by the global demand for and supply of crude oil, but are also influenced significantly from time to time by speculative actions and by currency exchange rates. Crude oil prices are generally more volatile and subject to dislocation than prices of other commodities.

Demand for refined petroleum products by consumers, as well as the agricultural, manufacturing and transportation industries, affects the price of crude oil. Crude oil's end-use as a refined product is often as transport fuel, industrial fuel and in-home heating fuel. Potential for substitution in most areas exists, although considerations including relative cost often limit substitution levels. Because the precursors of demand for petroleum products are linked to economic activity, demand will tend to reflect economic conditions. Demand is also influenced by government regulations, such as environmental or consumption policies. In addition to general economic activity and demand, prices for crude oil are affected by political events, labour activity and, in particular, direct government intervention (such as embargos) or supply disruptions in major oil producing regions of the world. Such events tend to affect oil prices worldwide, regardless of the location of the event, although regional factors may disproportionately impact either WTI Futures Contracts in comparison to crude oil futures generally or to one another.

Supply for crude oil may increase or decrease depending on many factors. These include production decisions by OPEC and other crude oil producers. Crude oil prices are determined with significant influence by OPEC. OPEC has the potential to influence oil prices worldwide because its members possess a significant although declining portion of the world's oil supply. In the event of sudden disruptions in the supplies of oil, such as those caused by war, natural events, accidents or acts of terrorism, prices of WTI Futures Contracts could become extremely volatile and unpredictable.

Also, sudden and dramatic changes in the futures market may occur, for example, upon a cessation of hostilities that may exist in countries producing oil, the introduction of new or previously withheld supplies into the market or the introduction of substitute products or commodities. Crude oil prices may also be affected by short-term changes in supply and demand because of trading activities in the oil market and seasonality (e.g., weather conditions such as hurricanes). It is not possible to predict the aggregate effect of all or any combination of these

factors. Crude oil prices may rise or fall significantly over short periods.

Risks relating to WTI Futures Contracts

Rolling of Futures Contracts Risk

The Index is calculated with reference to WTI Futures Contracts exposing the Sub-Fund to a liquidity risk linked to WTI Futures Contracts which may affect the value of such WTI Futures Contracts. A “roll” occurs when an existing WTI Futures Contract in the Index is replaced by a WTI Futures Contract representing the same underlying but with a different expiration date. Where the Index is calculated with reference to these WTI Futures Contracts, the value of the Index (and so the Net Asset Value per Unit) may be adversely affected by the cost of rolling positions forward (due to the higher price of the WTI Futures Contract if the market is in contango). The change in price of a WTI Futures Contract may reflect many factors such as perceived economic changes or political circumstances as well as increased demand.

Contango and Backwardation Risk

The Index is composed of WTI Futures Contracts. Every month, certain WTI Futures Contracts included in the Index may be replaced by contracts with different expiration dates. The new expiration into which a WTI Futures Contract will be rolled will depend on the “contango” between the nearest contract month and the next nearest contract month as at the contract determination date, as further explained under the “*Enhanced Index: Enhanced Monthly Rolling Rule*” sub-section. Excluding other considerations, if the market for WTI Futures Contracts included in the Index is in “contango”, where the prices are higher in the distant delivery months than in the nearer delivery months, the sale of the WTI Futures Contracts included in the Index would take place at a price that is lower than the price of the contract which such WTI Futures Contracts will be rolled to. Accordingly sale proceeds from selling existing WTI Futures Contracts included in the Index when rolling will not be sufficient to purchase the same number of contracts with later expiration date which have a higher price, thereby creating a negative “roll yield”. By contrast, if the market for these contracts is in “backwardation”, where the prices are lower in the distant delivery months than in the nearer delivery months, the sale of the current contracts would take place at a price that is higher than the price of the contracts with later expiration date, thereby creating a positive “roll yield”. Contango or backwardation could last for an undetermined period of time. WTI crude oil has at times in the past traded in contango due to material storage costs of oil, as well as high demand of crude oil. Because roll yields are considered in the calculation of the Index, the presence of contango in the commodity markets could result in negative “roll yields,” which could adversely affect the level of the Index, the Net Asset Value and reduce the value of the Unitholders’ investment.

Margin Risk

Generally, most leveraged transactions, such as WTI Futures Contracts, involve the posting of margin or collateral. Because of the low margin deposits or collateral normally required in futures trading, an extremely high degree of leverage is typical of a futures trading account. As a result, a relatively small price movement in a WTI Futures Contract may result in a proportionally high impact and substantial losses to the Sub-Fund having a material adverse effect on the Net Asset Value of the Sub-Fund. Like other leveraged investments, a futures transaction by the Sub-Fund may result in losses in excess of the amount invested by the Sub-Fund. Additional funds may need to be posted as margin or collateral to meet such calls based upon daily marking to market of WTI Futures Contracts. Increases in the amount of margin or collateral or similar payments may result in the need for the Sub-Fund to liquidate its investments at unfavourable prices in order to meet margin or collateral calls. This may result in substantial losses to Unitholders.

Futures Contracts Market Risks

Futures Contracts markets for WTI crude oil may be uncorrelated to traditional markets (such as equities markets) and may be subject to greater risks than traditional markets. It is a feature of Futures Contracts generally that they are subject to rapid change and the risks involved may

change relatively quickly. The price of Futures Contracts can be highly volatile and may deviate substantially from the day-end WTI crude oil spot price. Such price movements are influenced by, among other things, interest rates, changing market supply and demand relationships, trade, fiscal, monetary and exchange control programs and policies of governments. In some cases, far-reaching political changes may result in constitutional and social tensions, instability and reaction against market reforms. There can be no assurance that future political changes will not adversely affect the economic conditions of major oil consuming economies. Political or economic instability may affect WTI Futures Contracts, which could adversely impact the value of the Index and, as a result, the Net Asset Value per Unit.

Risk of Exchange's Clearing House's Failure

In the event of the bankruptcy of the exchange's clearing house, the Sub-Fund could be exposed to a risk of loss with respect to its assets that are posted as margin. If such a bankruptcy were to occur, the Sub-Fund would be afforded the protections granted to participants to transactions cleared through a clearing house, under the United States Bankruptcy Code and applicable CFTC regulations. Such provisions generally provide for a pro rata distribution to customers of customer property held by the bankrupt exchange's clearing house if the exchange's clearing house is insufficient to satisfy all customer claims. In any case, there can be no assurance that these protections will be effective in allowing the Sub-Fund to recover all, or even any, of the amounts it has deposited as margin.

Risks of investing in fixed income securities

Credit/counterparty Risk

Investment in fixed income securities is subject to the credit risk of the security or its issuers, who may be unable or unwilling to make timely payments of principal and/or interest. In the event of a default or credit rating downgrading of the securities or the issuers of the fixed income securities held by the Sub-Fund, the Sub-Fund's value will be adversely affected and investors may suffer a substantial loss as a result. The Manager may or may not be able to dispose of the securities that are being downgraded. There may also be difficulties or delays in enforcing rights against the issuers who will generally be incorporated overseas and therefore not subject to the laws of Hong Kong.

Interest Rate Risk

Investment in the Sub-Fund is subject to interest rate risk. In general, the prices of debt securities rise when interest rates fall, whilst their prices fall when interest rates rise.

Sovereign Debt Risk

The Sub-Fund's investment in securities issued or guaranteed by governments may be exposed to political, social and economic risks. In adverse situations, the sovereign issuers may not be able or willing to repay the principal and/or interest when due or may request the Sub-Fund to participate in restructuring such debts. The Sub-Fund may suffer significant losses when there is a default of sovereign debt issuers.

Credit Ratings Risks

Credit ratings assigned by rating agencies are subject to limitations and do not guarantee the creditworthiness of the security and/or issuer at all times.

Risks relating to the Sub-Fund and Index

New Product Risk

The Sub-Fund is a futures based exchange traded fund investing directly in WTI Futures Contracts. Although there have been commodities exchange traded funds, futures and options mutual funds

and units trusts and futures-based exchange traded funds in Hong Kong, the Sub-Fund will be one of the first futures based exchange traded funds tracking a single commodity futures index such as the Index in Hong Kong. The novelty and untested nature of such an exchange traded fund makes the Sub-Fund riskier than traditional exchange traded funds investing in equity Securities.

Owning Units is Not the Same as Directly Owning the Futures Contracts

The return on Units will not reflect the return Unitholder would realise if Unitholder actually purchased the physical crude oil upon which the WTI Futures Contracts included in the Index are based, or exchange traded or over-the-counter instruments based on the applicable Index. A Unitholder will not have any rights that holders of such assets or instruments have.

Possible Early Termination of the Sub-Fund Risk

The Sub-Fund may be terminated early under certain circumstances, including but not limited to (i) the aggregate Net Asset Value of all the Units is less than HKD40 million or (ii) any law is passed or amended or regulatory directive or order is imposed which renders it illegal or in the opinion of the Manager, impracticable or inadvisable to continue the Sub-Fund or (iii) within a reasonable time and using commercially reasonable endeavours, the Manager is unable to find a person acceptable to act as the new trustee after deciding to remove the Trustee in accordance with the Trust Deed or (iv) the Index is no longer available for benchmarking or if the Units are no longer listed on the SEHK or any other Recognised Stock Exchange or (v) at any time, the Sub-Fund ceases to have any Participating Dealer. Upon the Sub-Fund being terminated, the Trustee will distribute the net cash proceeds (if any) derived from the realisation of the investments comprised in the Sub-Fund to the Unitholders in accordance with the Trust Deed. Any such amount distributed may be less than the capital invested by the Unitholder, resulting in a loss to the Unitholder.

Reliance on Market Makers Risk

Although it is a requirement that the Manager ensures that at least one Market Maker will maintain a market for the Units, it should be noted that liquidity in the market for the Units may be adversely affected if there is no Market Maker. The Manager will seek to mitigate this risk by ensuring at least one Market Maker for the Units gives not less than 3 months' notice prior to terminating market making under the relevant market making agreements.

Excess Return Index Risk

The Index is an excess return index, which means the Index measures the returns accrued from investing in uncollateralised WTI Futures Contracts (i.e. the sum of the price return and the roll return associated with an investment in WTI Futures Contracts). By contrast, total return indices, in addition to reflecting those returns, also reflect interest that could be earned on funds committed to the trading of the Futures Contracts included in such indices (i.e. the collateral return associated with an investment in Futures Contracts). Investing in the Sub-Fund will therefore not generate the same return as would be generated from investing directly in the relevant WTI Futures Contracts or in total return indices related to such WTI Futures Contracts.

No Rights in the Physical Commodities and Futures Contracts Risk

As an owner of Units, a Unitholder will not have rights that holders of WTI crude oil or WTI Futures Contracts included in the Index may have. A Unitholder will have no right to receive delivery of any WTI crude oil or WTI Futures Contracts. A Unitholder will have no right to receive any payment or delivery of amounts in respect of the WTI Futures Contracts included in the Index.

Distributions May Not be Paid Risk

The Index is an excess return index. Distributions may not be paid if the cost of the Sub-Fund's operations is higher than the yield from management of the Sub-Fund's cash and holding of investments. There is no current intention to make distribution out of capital or effectively out of capital.
